THE WHITE HOUSE WASHINGTON

I commend to all our people the annual sale of Christmas Seals conducted by the National Tuberculosis Association and its affiliated State and local associations. These seals sold during the holiday season provide the funds which make possible the organized campaign for the prevention of tuberculosis. These efforts are showing encouraging results in a diminishing death rate. The proceeds of the seal sale make possible one of the most valuable of all services to mankind in helping to check and destroy a disease which endangers millions of homes and weakens millions of citizens, especially the children and youth of the nation. It is especially important at this time to protect the health and physical stamina of our people.

CULBERTSON AND LENZ WILL PLAY

(Continued from Page One)
tracted to play 150 rubbers by Jan. 15. They will move across Park avenue from the Chatham to the Waldorf after a while. Culbertson estimates there will be 1000 hands. The duration of the match will be almost six weeks. There will be play every Monday, Tuesday, Thursday and Saturday night. Further sessions will be ordered if necessary. The last rubber of a session must start before 12:30 a. m.

Culbertson has posted \$5000 against \$1000 by Lenz, any winnings go to charities specified in the contract.

But much more than \$5000 is involved. The prestige of victory will add enormously to the potential income of the winner from writings, lectures and the like on the "best" system.

Uniformed Official
Laws and ethics of contract bridge as published by the Whist club of New York will prevail. This means the same regulations that govern any social game. The man on the spot to see that they are enforced will be Lieutenant Alfred M. Gruenther, who is attached to West Point as an avocation. He is a specialist in the conduct of bridge tournaments. He bosses them smartly. His uniform lends emphasis to dicta.

To Lenz and Culbertson this is no cleverly staged thing of two men who have displayed great practical knowledge of psychology in their game and great advertising ability in making themselves known. Nor will it end in a no-decision dispute. They regard it as a knock-down drag-out fight—gentlemanly of course.

Smart SHOPPING

"How good is it?"—That's it!

ABOUT anything and everything they buy, smart shoppers like to ask one question—"How good is it?"
Chesterfield welcomes smokers who buy their cigarettes that way.

that's why Chesterfields are milder. Even the paper they're rolled in is the whitest, cleanest and purest that money can buy.
And the package... clean, bright, fresh-looking... see how easily it opens, yet how tightly it's sealed.

Good... they've got to be good! There's value here. We know, because we put it in... and you'll smoke it out with every one you light.

OUR tobacco buyers are smart shoppers, too. They "shop" for the ripest, mildest, sweetest-tasting leaf that grows. And they won't take anything else.

OPEN a package. Note the aroma... delicious foretaste of pleasure ahead.
Now—pull out a Chesterfield... round, firm, well-filled.

"How good" are Chesterfields? Well, consider their blending.
Blended and cross-blended... not merely mixed together. Blended first by crops and countries... then cross-blended again and again... to produce a flavor and aroma that are Chesterfield's alone.

"HOW good is it?" Light up... then *you* tell us!
Milder? Right! Taste better? You bet they do! They're pure, too—and they certainly do satisfy!

That's how we get that better taste...

"Sure I shop for cigarettes—Chesterfields satisfy me"
