## HUSKY CAGE COACH FEARS WASHINGTON STATE TEAM

SEATTLE (AP) — Clarence "Hec" Edmondson, basketball coach at the University of Washington, picks the Washington State college team as the chief obstacle between the Huskies and a fourth straight championship in the northern division of the Pacific coast conference. Edmondson said the Cougars with their veteran sharpshooters appear to be the strongest in the circuit. The next Washington foes in order of importance are Oregon State college, University of Oregon and University of Idaho in the judgment of the Husky coach. Washington won the northern division title the last three years and captured the coast championship last season by defeating the University of California in a play-off series.

## MICHIGAN STATE BACKS SCHOOL'S BEST BOXERS

EAST LANSING, Mich. (AP) — Instead of trading touchdowns, Bob Monnett and Abe Eliowitz are trading punches now—but still on most friendly terms. Michigan State college's prize pair of football backs also happens to be the best pugilistic act on the campus. Two years ago "Iron Legs" Monnett took the campus heavyweight title from Eliowitz after a hard battle. Last year Eliowitz was heavyweight champion while Monnett topped the light-heavyweight lists. Now the students are clamoring for a matching of the pair, as Monnett weighs 175 to Eliowitz' 178.

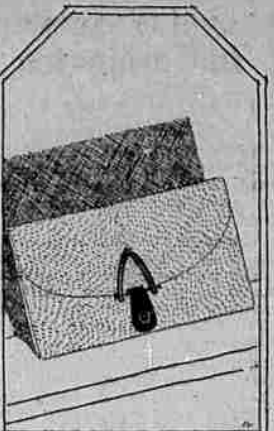

## Retired Admiral Invents Machine For Reading Tiniest Books

Rear Admiral Bradley Allen Eiske demonstrates the reading machine which he has invented since his retirement from the U. S. navy. He has been able to reproduce a manuscript of 100,000 words on two strips of paper, each a little wider than a newspaper column and about the same length, and he makes the microscopically fine type legible by feeding the strips through this lorgnette-like device.

## Domestic Cane Refiners Have Eventful Year

By Earl D. Bahst  
(American Sugar Refining Co.)  
NEW YORK, Dec. 29 (Special)—Domestic cane refiners have had an eventful year. In March, the department of justice filed a dissolution suit under the Sherman act against the Sugar Institute. The case will be heard in January. Those acquainted with such cases will appreciate its serious effect on trade conditions. Another disturbance—this time also to beet sugar producers—has been flooding of the market by refined sugar from the raw sugar producing countries.

Some idea may be had of the bewilderment created, by pointing out that imports of Cuban refined sugar in 1931 equalled more than twice the production of Louisiana, or more than the total production of Ohio, Indiana, Minnesota, Iowa, Wisconsin, South Dakota, Kansas, Idaho, Montana, Washington and Utah, being 11 out of the 16 beet sugar states. Imports from the Philippines, Hawaii and Porto Rican refiners also displaced refining here equal to the consumption of Delaware, New Hampshire, Vermont, Nevada, New Mexico, Arizona, South Dakota and Wyoming. Cane sugar refining was established here 200 years ago. In wages, value of output, and materials purchased, it is over twice as large as the domestic beet and cane sugar industries combined; its 50 per cent excess capacity largely came from its war effort; it would seem, therefore, that this present day duplication of refining facilities in the Philippines, Porto Rico and the sugar islands should be the one to be penalized, rather than labor, material-men and investors, long established on the mainland. England and Canada both acted over a year ago to safeguard their refiners and the foreign refined sugar excluded there has swelled the flood of imports here. Last summer France doubled its tariff on refined sugar imports and this December decreed an absolute embargo.

County of Rivers  
Randolph county, West Virginia, claims that more rivers have their origin in that county or nearby than in any known place in the world. From this high land streams flow in practically all directions.

## Complete Failure

An Iowa farmer was told by his doctor to count sheep jumping over a fence, in an effort to cure insomnia. The next day the farmer came back to the doctor's office and said: "It didn't work, Doc. I counted enough to pay off the mortgage, and got so mad because they were not real that I stayed awake all night."

## Stimson Explains Moratorium Plan

"It was time for immediate action," said Secretary of State Henry L. Stimson (back turned to camera) when, as pictured here, he appeared before the House Ways and Means Committee in Washington to explain the German economic crisis which prompted the administration to announce the famous "debt holiday" last summer. Leaning forward, the better to hear the State Department head, is Representative James W. Collier of Mississippi, committee chairman.

## Japanese Teams Good on Defense, Lou Gehrig Says

NEW YORK (AP)—The Japanese eye making rapid strides in baseball but they have some distance yet to go before they can rival Americans, says Lou Gehrig of the New York Yankees. Gehrig was one of the major league group which recently completed a tour of the Orient. "The players have progressed marvelously in a defensive way," he said. "But they lack the hitting strength and power of the American players." And then there were the carrier pigeons in the pressbox at Tokyo. "Somebody would hit a triple or a homer with men on bases," he remarked, "and before the cheering had died down the pigeons would be on their way to the newspaper offices with a message about the hit."

## \$12,000,000 TO EDUCATE INDIANS

WASHINGTON (AP)—The appropriation for Indian education in 1931 was more than \$12,000,000; more than for the appropriation for the whole Indian service 10 years ago. It represented 42 per cent of the entire Indian appropriation.

# The Greatest Mistake An Advertiser Can Make

Is to place his advertising in a publication that is not a member of the Audit Bureau of Circulations.

The latter audits circulation records and certifies as to the number of paid subscribers the member papers have.

It is interesting to note that after years of hard work the District News was obliged to suspend publication because of the small number of paid subscribers and lack of advertising patronage.

It was found the District News had less than 400 paid subscribers in La Grande and Union county, and that most of these were regular subscribers to the Observer. Also that the greater number of these 400 had been secured when the District News offered an automobile to the party producing most subscriptions.
