Annual Meeting—The annual meeting of the Union County Lamb Pool association is being announced by County Agricultural Agent Harry G. Avery for Thursday, Jan. 21. The meeting will be held in the civil service room at the postoffice building and will be called at 1:30.

Dinner Guests—Mr. and Mrs. Ode Shafer, of Moss Chapel, had for their dinner guests at their home Sunday Mr. and Mrs. Reece McAllister, of Island City, and Mr. and Mrs. Willis Moss. Mrs. Shafer served a very nice dinner and the afternoon was spent socially.

Ill—Miss Margaret Hubbard, who goes so much by the name of "Pat" among her many friends, that we have to think twice of what her name is, was confined to her apartment in Cove the first of the week by illness. She is back at her school work at E. T. N. this week, hard at work and playing. They were accompanied on the trip by Miss Leva Brown, of La Grande, and John Case, of Alicel.

To Idaho—Lealie and Lucy Ditty, of the Sandridge have been in Weiser, Idaho, for a couple of weeks, returning to their home in the valley yesterday. They went to visit with their sister, Miss Tressa Ditty, who is assisting in some evangelistic meetings by singing and playing. They were accompanied on the trip by Miss Leva Brown, of La Grande, and John Case, of Alicel.

Spends Week—Dave Coughenour, of Pendleton, but formerly of La Grande, spent last week in the valley, visiting with his friend, Claude Anson, at his home near Island City.

Move To Haines—Mr. and Mrs. Robert Stein, who formerly lived near La Grande, have moved to Haines, where they have taken up their residence in what is known as the George Davidson home.

To California—Mrs. Clare Davis, of Ponzosa, Observer correspondent, has gone to California, where she will spend the next five or six weeks.

Grange Install—Members of Cricket Flat grange met in regular sessions Saturday at the Highland school house. State Deputy Master and Mr. Charles Wicklander, of La Grande, were present and Mr. Wicklander gave an interesting talk on grange work and acted as installing officer when the following officers were given their positions.

Master, Raymond Waely.
Vice-master, J. E. Witherspoon.
Lecturer, Mrs. Harold Blanchard.
Assistant steward, John Waely.
Organist, Mrs. M. E. Beem.
Treasurer, John Gekeler.
Secretary, Perry Witherspoon.
Ceres, Mrs. Raymond Waely.
Flora, Mrs. L. E. Perlin.
Lady assistant steward, Lois Witherspoon.
Executive committee, A. Sonnenberg.
 The new master appointed Bernal Hug as chairman of the agricultural committee. Mrs. John Gekeler, Raymond Waely and John Witherspoon, Mr. M. E. Beem, and Mrs. W. H. Witherspoon were appointed on the home economics committee.

Island City Aid—There was an attendance of about 20 women at the all-day meeting of the Island City Aid society held Thursday with Mrs. Ed Kiddle at her home in the Grande Home apartments. The women met together for a potluck dinner at 1 o'clock, the meeting having preceded this. There was a nice variety of food for the meal, and the guests had a splendid social time during the afternoon. The women met together in a hurry and all enjoyed being together, so it seemed. Mrs. Garret Bickland, president, presided over the meeting in the afternoon. Miss Maude Cone, minister of the Island City community church, presided over the devotionals and announced a series of special meetings which is to be held in the course of a few weeks. The roll was called by the secretary, Mrs. Orlin Anson, and the women responded with a verse of Scripture. The rest of the afternoon was spent in discussing projects which the society has before it in the future. It was announced that the next meeting will be with Mrs. Ed Kiddle at her home the fourth Thursday of the month. This will also be an all-day work meeting, with potluck lunch at noon.

Guests—Mrs. Mary Ellen Beem, who lives on Cricket Flat, had for her guests on Sunday, Mr. and Mrs. Randall Beem, of Pumpkin Ridge, and Mr. and Mrs. Logan Beem and daughter, Delphia, and Miss Ruth VonDerAhe, of Elgin.

Elect Officers—Mrs. J. A. Gaskill was elected president of the Imbler Ladies Aid society to serve for another year at the regular meeting of the society held at the home of Mrs. C. G. Welch. To serve with Mrs. Gaskill are Mrs. Bessie Westenskow, vice president; Mrs. Jessie Berry, secretary; and Mrs. Welch, treasurer. In the absence of the president, Mrs. Gaskill, who is visiting in La Grande, Mrs. Hathe Wise was in charge of the meeting. The hostesses, Mrs. Welch, Mrs. Wilson and Mrs. Johnson, planned a splendid social time for the afternoon and also served some delicious child, with wafers and sandwiches for the lunch.

Home From Hospital—Mrs. Crete Bork, who has been at the home of her sister in La Grande following back some of her strength following operations at the Grande Ronde hospital, has returned to her home near Island City. Mrs. Bork's sons had a splendid surprise for their mother on her return. During her absence they had improved her kitchen by installing splendid built-ins, something which surprised and delighted her very much on her return.

Mrs. Fuller—Mrs. Carl Fuller, who reported the first lambs in the valley, says that lambing operations in his small farm band are going on very satisfactorily. He has had 35 lambs to date and has a good crop. Carl has about 65 ewes in his band.

Riverside district from Redland, Ore., where they had been called by the death of Mrs. Courtright's mother, Mrs. H. A. Allen.

Receives Injury—His many friends and relatives in the valley were sorry about the accident which befell Gordon Wright, your banker at Baker, at the basketball game in La Grande Tuesday night. Gordon suffered a broken nose. He is a grandson of L. L. McKennon, of La Grande, and has numerous relatives in the valley.

Right on the heels of this accident which befell Gordon, we learned of a very splendid promotion which came to him the following day. Gordon was elected to the assistant cashiership of the Citizens National bank, of Baker, to succeed W. A. Matger, who is moving to California. The young man, who is the grandson of L. L. McKennon, of La Grande, and Mrs. Belle Wright, of Union, has been with the bank since 1928, and has been taking up his work there, his father, Charles Wright, now of Madison, N. D., was also an officer of the institution.

Is Quite Well Again—Loren Davis, of Island City, who has been quite ill, threatened with pneumonia, is reported as being quite well again.

Move To Tillamook—Mr. and Mrs. Charles Anson, well known in this valley but who have been living in Joseph the last few months, have moved to Tillamook, Ore., where they will make their future home. Mrs. Anson, who was Miss Kelly Gray, of La Grande, prior to their marriage last summer, had been having some trouble with her heart, we are told, and the doctor's advice was to seek a lower altitude. Mr. and Mrs. Anson's friends regret their departure from Eastern Oregon, but, of course, hope the change in climate will greatly benefit Mrs. Anson.

Ship Hogs—A double-deck carload of hogs was shipped today from Elgin to the Portland markets. The hogs were shipped under the county pool and were assembled by John Waely, of Alicel, Plat, and Ratie Hudson, of Imbler.

Mr. Seymour Better—H. C. Seymour, state 4-H club leader, has many many friends in this valley. The following item concerning his leg illness taken from the Corvallis G-T will be read with much interest: Professor H. C. Seymour, state club leader, is recuperating at his home. Professor Seymour has spent the greater part of the past two months, as he has been suffering from sinus trouble. Mr. Seymour was serenaded recently when former members of the 4-H clubs who are attending Oregon State college put up a radio aerial pole in his honor. Eastern Oregon assisted in placing the pole.

Accomplish Much Work—Yesterday the members of the M-Fat grange met at their hall for a regular meeting. They had much planned for the day and the best of it, they did all they planned. The hall has been needing some remodeling and enlarging, so

Who Has a Book or Books?—During the winter of 1930-1931, a group of residents of the valley were very much interested in a reading circle which was conducted under the guidance of Mrs. Walter Pierce, who secured excellent books from the public library at Salem. In a recent check-up it has been found that 37 of the books are missing—some have them, and is evidently enjoying them, or has enjoyed them and forgotten to return them to Mrs. Pierce. It is believed that you will have the books accounted for and hopes that any who have books will return them to her at once.

Have Party—The Epworth leaguers of the Island City church held a most enjoyable potluck supper and evening party last evening with the young people in Mrs. Mary Bjorkland's home.

To Portland—Arthur Bassett, of Union, left last Friday for Portland to enter a hospital to have an injured arm broken and reset, according to W. V. Connor, of Union. Mr. Bassett injured his arm several months ago when it was broken by a wagon wheel running over it at the time he was doing some hauling on a mountain road. Since that accident occurred, he has spent five or six months in hospitals and having the injury treated, but he has never recovered the use of the arm. He is making another try at it by having the bones broken over and reset.

To Washington—R. W. Severs, who has been making a course in general methods of the Epworth leaguers of the Island City church, will be in Washington, D. C., where he will reside in the future.

To La Grande—Roy Carper, of Eden, have gone to La Grande, where they are spending a few weeks with relatives.

It was decided that the best way was just to do it. Sixteen men went to the meeting yesterday armed with various and sundry carpenter tools. The men went to the platform which extended across one end of the hall, and then laid the floor in place of it. This makes a much larger working surface. The refinishing of the walls and ceiling added to the rear are the next things in mind. After the dinner the regular business meeting of the order was held. The next meeting of Mt. Pannie is to be held on Feb. 1 and will be an evening meeting.

Return To California—Mr. and Mrs. Walter Kirby have returned to their home in Los Angeles, following a splendid visit at the home of Mrs. Kirby's parents, Mr. and Mrs. A. B. Davis, on Cove avenue. Mrs. Kirby had been here on an extended visit with her parents. While in the north, Mr. and Mrs. Kirby visited in Seattle, Portland and other places.

Injuries Arm—We are very sorry to hear that Mrs. Storie Morris, who lives on lower Cove, had the unfortunate accident while she was tearing the ligaments in her left arm, but breaking no bones. Mr. and Mrs. Morris' oldest son, who is a great help about the farm work, is addicted to hay fever, and while he was helping Mr. Morris with a load of hay, while helping there, the rick hit a bump and Mrs. Morris was thrown off.

Improves—Ed Dennison, orchardist of Imbler, is said to be recovering satisfactorily from injuries which he received last week. Mr. Dennison has the orchard of Mrs. Turner Oliver Baker, formerly of Imbler, and was pruning some of the trees when the accident evidently occurred. Just what happened he does not know, but he was found in his car on the highway, and was in a rather dazed condition. It is believed that he must have fallen while working, and struck his head.

Who Has a Book or Books?—During the winter of 1930-1931, a group of residents of the valley were very much interested in a reading circle which was conducted under the guidance of Mrs. Walter Pierce, who secured excellent books from the public library at Salem. In a recent check-up it has been found that 37 of the books are missing—some have them, and is evidently enjoying them, or has enjoyed them and forgotten to return them to Mrs. Pierce. It is believed that you will have the books accounted for and hopes that any who have books will return them to her at once.

To Portland—Arthur Bassett, of Union, left last Friday for Portland to enter a hospital to have an injured arm broken and reset, according to W. V. Connor, of Union. Mr. Bassett injured his arm several months ago when it was broken by a wagon wheel running over it at the time he was doing some hauling on a mountain road. Since that accident occurred, he has spent five or six months in hospitals and having the injury treated, but he has never recovered the use of the arm. He is making another try at it by having the bones broken over and reset.

To Washington—R. W. Severs, who has been making a course in general methods of the Epworth leaguers of the Island City church, will be in Washington, D. C., where he will reside in the future.

To La Grande—Roy Carper, of Eden, have gone to La Grande, where they are spending a few weeks with relatives.

Old Friends Visit—Mr. and Mrs. S. T. Butler, of Union, has been making a visit with her friend, Mrs. E. S. Norris, in La Grande. Mrs. Turnbull and Mrs. Norris have been visiting for more than 20 years. After being a guest from Saturday until Thursday at the home of Mrs. Norris, the visitor went to the Harry Fisher home in lower Cove, where she was a guest over night Thursday night.

The Good Old Days—The following item is taken from this week's Union Republican in the list of items culled from the files of 30 years ago:
 After being stranded on the Pyle canyon hill several days, 175 passengers on train No. 17 were taken off in sleighs sent from Union. They were sent to La Grande on the Central railroad and thence westward on a stub train.
Moves Stock—Ed Boswell, livestock man of near Cove, has moved his cattle from the sidehills in lower Cove to Union, and is feeding them there.
Home From Hospital—Roy Baker, prominent resident of Cove, had sufficiently recovered from his recent operation to be able to return to his home the first of the week. He has been a patient at Hot Lake.
Some Storm—There has been numerous references in his paper to the storm which swept over certain sections of Wallowa county early this week. The Enterprise Record-Chief of Staff of this week gives some specific instances of damage done, as follows:
 One place where it was, however, of considerable inconvenience was above Wallowa lake. Two big trees blew down on the power line of the Pacific Power & Light company, one at A. H. Hoge's place and the other near Mrs. Maggie McDonald's house. It was about 5:30 in the morning and was not full daylight. R. B. Beckman, in charge of the falls plant of the power company, climbed into his small car and "beat" it down the valley through the timber, around the lake and to the large new "stand-by" plant at the foot of the lake.
 The wind ran in 30 minutes and soon had the wheels moving and the lower plant, and then it was not long until electric current was flowing out on the transmission wires which serve all of Wallowa valley. The trees were blown away and the lines to the falls plant cut back in commission at 1 o'clock Monday afternoon.
 A tall pine tree between the G. M.

INITIAL STEPS TAKEN FOR COUNTY LIVESTOCK CO-OPERATIVE SHIPPING

A group of about half a hundred livestock men of Union county met with County Agricultural Agent Harry G. Avery Thursday afternoon and attended to the preliminaries incident to the organization of a Union County Livestock Shipping association. The meeting was a decidedly representative gathering, with livestock men present from the valley proper, North Powder, Elgin and Union.

The meeting was presided over by John Schroeder, of Island City, who first called on Mr. Avery. The latter gave something of the results of the lamb pool shipments of the past two years and also of the local pool hog shipment which has been in operation since last fall. He was followed by N. C. Donaldson, county agricultural agent of Wallowa county. The Wallowa county association has been functioning very successfully for the past few years and has come to be recognized as one of the largest organizations of its kind in the northwest. Mr. Donaldson spoke entirely of accomplishments of the association, and also of the commission form of Bodine & Clark, of the North Portland livestock yards, was present and gave some very practical suggestions along the line of the method of handling shipments. Mrs. Clark proved to be a very enthusiastic speaker and the livestock men present Thursday felt that he gave them many practical ideas.

The freight rate situation would, of course, command the attention at such a meeting. The freight rates, new and old, were discussed with Joe Keeney, local agent, and Mr. Clark both entering heartily into the discussions, with all benefiting greatly from it.
 A number of those present were called upon to speak from the floor and along the line of benefits to be derived from co-operative shipping. Mr. William Taylor, of John Schroeder, led the discussion with T. B. Johnson, of lower Cove, John Waely, of Elgin, Ratie Hudson, of Imbler, and Dillard Choate, of Summerville, contributing.

Have Community Party—Of the group of families which has been having very lovely social evenings together at stated intervals all fall and winter, there were about 40 who assembled at the home of Mr. and Mrs. William Taylor on the Cove highway Saturday night for the usual potluck dinner. The proportions of the supper were large, to say the least, and it took some time for the large company to be satisfied. Mr. Taylor, who is a most anxious host, had the evening well planned with pinocle and anagrams furnishing the amusement for several hours.

Mrs. Kelley III—Mrs. Mae Kelley, of the Cove, well known over the valley, was taken quite ill a few days ago with some heart trouble. It is reported that, while she is some better, she is still quite unable to finish the meal.

Rock Wall Install—At last meeting of the Rock Wall grange, their new officers for the year have installed C. E. Moore, who has served the organization as master for a number of years, was again installed as chief officer. Fred Wilson is the new overseer; lady Wilson is the new secretary; and Mrs. E. Moore; Flora, Dorothy Croghan; secretary-treasurer, W. J. Henry; and gatekeeper, John Croghan. Other officers, steward, assistant steward, and secretary, are being installed at a later meeting; it is announced.

Guests—Mr. and Mrs. Hugh Hulse, who live in the Union district, had for their guests some relatives, the Misses June and Donna Scott, who live in the Indian Creek district near Elgin.

Haystack Blown Over—A haystack was blown over on Mrs. Amanda Hulse's farm in Alder Slope and it carried down a sloe with it. At John Bookout's farm a haystack also was wrecked.

Lyle Shumway lives near the city park and a fair sized tree came down on his house, punching holes in the roof, and when moved it fell on his car.

In the postoffice, one large plate glass window was blown in, and the window of M. & M. building was similarly damaged.

Economic Policy Changing Sought
 NEW YORK, Jan. 16 (AP)—"A mere change in emotional attitude" and radical revamping of world economic policies will go along way to restore international prosperity, Albert H. Wiggin believes.
 He emphasized their need in his annual report as chairman of the governing board of the Chase National bank, distributed to stockholders earlier this week. He called his message "The World as It Is," and a committee representing 100 American banks supervising the debt moratorium.

SCOTLAND HONORS BARD
 EDINBURGH (AP)—All Scotland is preparing to honor this coming summer the memory of Sir Walter Scott, 1832 being the centenary year of the death of the famous bard and novelist.
 The chief ceremonies will be held here in St. Giles cathedral and at various points in the border country.

DOOM OF PARIS PRISON
 PARIS (AP)—The St. Lazare woman's prison is to be torn down and when it goes the next to the last monument of the French revolution will vanish. The Conciergerie is the only other authentic building of that time. Royalists were kept in St. Lazare until their time came to die "the widow," that invention of Dr. Guillotin which still writes fins for condemned criminals.

Roots Retain Vitality
 The roots of trees continue to grow after the trees are cut down

White Clover Seed
 White clover seed is the only important seed crop which started the new year in advance of quotations of a year ago, said a summary released today by the Oregon State college extension service in co-operation with the bureau of agricultural economics.
 Although the supplies of clover and alfalfa seed in general are lower both here and abroad, prices generally were below those of a year ago, the report said. The domestic situation is helped, however, by importations, and greatly decreased by alfalfa imports, which are dropping from more than 7,000,000 pounds to less than 100,000 pounds. Oregon reports, the summary continued, show ample supplies of white clover seed on hand in the Willamette valley, while a demand exists in Umatilla county for alfalfa, sweet clover and crested wheat grass seed.

Old-Time Chinook In Wallowa Co.
 After approximately 60 days of solid winter weather, during which there was practically no melting of the snow, an old time chinook swept over the Wallowa section the last of last week according to G. Mead. During the three days the depth of the snow was greatly decreased in all sections of that community. The weather was still quite moderate this week, he stated.

Hope For Short Winter
 While most persons here feel that the break was much too early in the winter to expect continuance of the spring-like weather, many were indeed glad to see the warmer weather in hopes that short winter supplies at the feed yards, there is a possibility that the winter might be replenished.

Feeding Not So Heavy
 Stockmen report that considerably less feed is being required at this time. However, where feeding is being done on the ground at many of the feed yards, there is a waste of feed since the wet weather.

E. Leaguers Are Planning Winter Course
 Members of 11 Epworth leagues in Eastern Oregon, together with the respective pastors, and advisors, are intensely interested in a mid-winter institute which is being arranged by Rev. H. H. Hoge, of La Grande, dean of the Wallowa valley conference. Mr. Hertzog, who is interested particularly in this line of work, and who recently attended a national meeting of deans held in Chicago, is preparing the program.

The institute will be held at Union beginning on Friday evening, Jan. 29, and continuing through Sunday noon, Jan. 31. Union Methodist will entertain the visitors on the Friday night, which means, of course, that they will provide lodging and breakfast. Much interest is being shown over the district concerned and it is believed by those in charge that the attendance will be very large. Leaguers will attempt to secure that they will provide lodging and breakfast. Much interest is being shown over the district concerned and it is believed by those in charge that the attendance will be very large.

Already two classes have been arranged a course in general methods of the Epworth leaguers of the Island City church, will be in Washington, D. C., where he will reside in the future.

Reports from several of the stockmen and farmers indicate that most of the stock is coming through the winter in fairly good condition, with but very light losses to date. Bleating on many of the roads is becoming quite poor at this time. A blade has been in use on the highway and some of the market roads here recently cleaning the road of the snow and ice.

Lee W. Bell, local grain buyer, reports the shipment of two cars of wheat during the past week. Mr. Bell reports but a small amount of wheat being sold at this time, with the majority of those still holding wheat in the hands of higher prices. A considerable amount of the grain consisting of both wheat and barley are being offered for local needs at prices ranging around \$20 per ton. With the market price falling considerably under this figure, the amounts being disposed of in this manner are quite small.

With fat hog prices gradually losing the small gains and in face of the much larger fall pig crop, there is little hope for a profit in the part of hog raisers to purchase heavily of 1-cent grain for feeding purposes. The most of those who are well stocked with hogs at this time feel that the only chance they have in coming out of the winter on a small amount of grain and defer fattening until later in the year when they can have advantage of green feed and larger milk supplies.

Cream and egg producers of this community are beginning to wonder when the bottom of low prices will be realized. During the past week a drop of 10 cents per dozen in fresh eggs has occurred here. Cream prices have been on the slide for the past four weeks, reports from some of the producers the latter part of the week were to the effect that a still further drop had occurred toward the last of the week, putting sour cream down to 17 cents per pound. A number of the men state that they have left off on grain feeding for their herds, being unable to make cream production pay feeding expenses.

WHAT TO DO AT 123 YEARS SOLVED BY AGED SHIEKH
 ALEXANDRIA, Egypt (AP)—Shiekh Youssief Abou Nasr, who has just celebrated his birthday, has solved the problem of what to do when you're 123 years old.

He never married, hasn't smoked for a century and has lived in the same house nearly as long. He used to be a glider, plying his art in the palaces of princes.

There aren't enough prizes now-a-days to make that job worth-while, says Shiekh Youssief just whistles.

Roots Retain Vitality

VALLEY FARMERS RECEIVE INSTRUCTIONS ABOUT THE PROPER HOG MARKETING

While this seemed to be no time to talk about increased production, R. L. Clark, of Portland, addressing farmers of the vicinity of Imbler and Summerville Thursday evening, expressed it as his firm opinion, that this was the time to express the matter of raising hogs. Mr. Clark backed up his statement of condition past and present which seemed quite convincing.

In speaking of the present situation, Mr. Clark reminded his hearers of the time when hog-raising was looked so unprofitably. He stated that everyone in Oregon seemed to be raising hogs and he had actually known of a farmer who had at one time as many as 500 brood sows. At that time there was no exporting and the quantities of hogs simply could not be handled.

The situation now is vastly different, he stated. The raising of hogs has fallen off in such great numbers that at present, hogs are being imported to the northwest country. He gave figures which showed that 250,000 live hogs were being brought into this territory from what we call the "middle west," each year. That, according to Mr. Clark was far "too high." He was also authority for the statement that pork and pork products having a value of \$20,000,000 were being imported.

California, he said, was importing annually, \$50,000,000 worth of pork and pork products. With a favorable market condition there, he was of the opinion that Idaho would ship into California rather than into Oregon. And referring again to his statement given at an opening of this report, Mr. Clark said "In the case of hogs—there is nothing a farmer can take hold of today in a live-

Conditions Favorable
 Mr. Clark stated that the shipping conditions from this territory were more favorable than from any other section in the country, due to weather and climate conditions. He stated that there was less shrinkage in shipments from here than from any other section and that a car could be loaded more heavily. A good share of the discussion Thursday evening centered about the matter of shipping by rail versus shipping by truck.

Part of Series
 The meeting held Thursday evening in the ag room at the Imbler school, was attended by 35 prominent valley farmers. The address was one of a series of studies which is being arranged by and also conducted by Prof. Ben Raaskopf, Summerville instructor at Imbler. A great deal of interest has already been displayed and from all present indications, the series bids fair to be a very profitable one for the farmers in that locality.

Mr. Raaskopf announces that at the next meeting such subjects as trucking, marketing losses, production cycles, home-slaughtering and meat curing methods, etc., will be taken up.
