At Home Now—Gifford Hayes, who has been at the Grande Lodge hospital and the home of his sister in La Grande since he received a broken leg in an auto accident early in the fall, has returned to his home at Pleasant Grove. Frequent trips to La Grande for treatment are still necessary.

Home Again—Mrs. E. Miller returned to her home at North Powder the latter part of last week. She has been in Baker since she underwent a major operation a few weeks ago.

Finish Packing—The last apple packing project which was conducted by E. I. Barker at near Cove was finished Friday night. The apples were packed by Barker and his crew for exportation purposes. Prospects for an export market are not quite so promising now as was the case a short time ago.

Home Again—Mrs. A. H. Parson, who lives on the highway above Elgin has returned home from a visit which started before Christmas. She was visiting with her sons, Glenn, in Spokane and Leroy in Walla Walla.

Club to Meet—The Countrymen's club will meet Friday afternoon at the home of Mrs. Arthur Golden. The new officers, Mrs. Beece McAllister, president and Mrs. Wesley Bond, secretary and treasurer will have charge of the business meeting and Mrs. Frank Wright and Mrs. Gekeler are to put on the program.

Have Meeting—A meeting of the Willow Creek telephone company at the home of Mr. and Mrs. Sam Knight at Rhinehart, is reported. A potluck supper was first enjoyed and this was followed by the annual business meeting. Mrs. Florence McKinnis was elected secretary for next year.

Has Operation—Mrs. Lee Chenault, who lives up the Catherine Creek road, recently underwent an operation at Hot Lake following several weeks of treatment there. The reports are that she is recovering nicely. Mrs. Violet Chenault, of Seattle, Wash., has been with her during her stay at the sanatorium.

Has Accident—David McCartney, who has been visiting at the Leo Bonlet home on Cricket Flat, cut one of his fingers nearly off last week while chopping wood. The piece was sewed back on and it is believed that it will heal and grow now satisfactorily.

Has Birthday—Friday was the twelfth birthday anniversary of Erma Jean Gekeler and to celebrate the occasion, her mother, Mrs. Lena Gekeler entertained a few relatives in the evening at her home. The kiddies spent the time making candy and popcorn balls, while the grown-ups played cards. Those present besides Mrs. Gekeler and the family, were Mr. and Mrs. Bert Spencer and daughter, Marjorie, Mr. and Mrs. George Hughes, and two sons, Albert and Pat and Mr. and Mrs. Ernest Ragain.

Gets Stronger—Friends of Marshall Huffman, who has been a patient at Hot Lake for such a long time are glad that the improvement in his condition will soon warrant his return to his home.

Visit—Mr. and Mrs. Roy Cope and sons, Jack and Kenneth, and his mother, Mrs. Martha Cope, of near Elgin, visited with Mr. and Mrs. Tom Parks and sons, Floyd, on Cricket Flat, Sunday. They left their car on the main road, where Mr. Parks met them with the sled. The Cope family has just returned from an extended visit in Los Angeles.

Is Better Now—Tom Bates, of the Willowdale district, is reported to be recovering now from his recent very serious illness.

Fascinating Camping Expedition—How would you like to go camping this time of the year? We can name a few, like Mr. and Mrs. Ralph Badger, and some others who would just delight in such a trip, but the rank and file of us miss just a lot of life by preferring the freeds on days like these. However, five young women had one of those never-to-be-forgotten trips over the weekend, and not because of any accident, or any regrets, but just because of the sheer enjoyment the trip afforded. Miss Lois Martin, Miss Ruth Brown, teacher of La Grande, Miss Mae Hileman and Miss Stella Edverson, teachers of Cove and Pat Hubbard, an E. C. N. student, started by car for a cabin up in the vicinity of the Grande Bonde lakes. First they went by car to the home of Mr. and Mrs. Craig about eight miles beyond North Powder. There they left their cars,

and Mr. Craig took four of them, the Misses Martin, Brown, Hileman and Hubbard, and the remainder of the way—about five miles in a sleigh. They had made arrangements in advance to camp at the Peters cabin, but found it so much snowed in that they could not reach it. So then they had permission to use the White cabin. What did they have to worry about, surely not the four feet of snow through which they traveled, and in some places had to break the trail. Because the cabin, a new log affair, was large and commodious, with fire-place and wood, radio, phonograph, and just everything that was necessary for a comfortable time, in winter, in the mountains. The snow shoes and skis which they found were not the right size, but they found plenty of other out of door sports. On Sunday they were joined by Mr. and Mrs. Craig and Miss Edverson and the entire company returned home Sunday evening. Doesn't it all sound thrilling?

Has Operation—Miss Virginia Ward, of Union, is in a Baker hospital where she recently submitted to an operation for appendicitis.

Giving Party—Mrs. L. E. Standley and Mrs. H. B. Speckhart of the Iowa district are entertaining this afternoon a group of their friends from town and from the valley.

Very Ill—Murray Gilkison, a resident of North Powder, who has been a patient at the Baker hospital, was reported to have been in a critical condition last week. According to word at that time little hope was being held for his recovery.

Improves—Mrs. Earnie Miller, of Lower Cove was reported as being quite ill last week at her home. Her daughter-in-law, Mrs. Gilbert Miller, who lives up on the "shelf" and who spent the week at the Miller home caring for her, returned home Saturday evening as Mrs. Miller was so much better.

Absent From School—Miss Stella Witly, who teaches the Hindman school, above Elgin has been ill at her home for the past two weeks and consequently absent from school. Her sister, Mrs. Dale Bennett, has been substituting for her.

Home Again—Mrs. Gladys Y. Beale has returned to her home near Lone Pine following a short stay at Hot Lake.

Remains Same—The condition of George Miller, ill at his home on the Cove highway, remains about the same, according to reports.

Return To School—The Misses Marguerite and Jacqueline Berryman, daughters of Mr. and Mrs. J. Berryman, of near Sumnerville, have returned to their work in the Imbler high school after having had an unusually hard siege with the measles.

Breaks Wrist—Miss Lulu Bath Hynerson had the misfortune to fall on the icy pavement while near the Sacajawea Inn, Sunday and fractured her wrist.

Skating Party—Another skating party of folks who live up Cricket Flat was held Sunday, and this time at the home of Mr. and Mrs. Jim Hallgarth. In addition to the out-of-door sports there was a potluck dinner at noon, with visiting, etc. Those present were Mr. and Mrs. Ed Bruggar, and son, LaVerne, Mr. and Mrs. Charles Cameron and son, Robert, Mr. and Mrs. Raymond Waely and children, Mrs. Mary Waely, John Waely, Clarence Hazelwood, Mr. and Mrs. Jim Hagarth and children, Mr. and Mrs. John Stevenson, Frederick and Norma Routlet, Marjorie, Vivian and Billy Hindman, Gwendolene and June Hug.

Entertain—Mrs. M. Spoeth and Mrs. Christ Bertsch entertained a company of their friends at a splendid party Saturday evening at the home of Mr. and Mrs. Bertsch, up the Mill Creek canyon road. Traveling was rather hazardous that night with most of the roads in that vicinity quite icy, to say the least. There were enough in the company for seven tables of bridge and after several hours of the game it was found that Mrs. T. H. Conklin of the women present had made high score, and Guy Barker for the men. The hostesses served a delicious two course luncheon late in the evening with the assistance of Mr. Bertsch and Mrs. Lydia Lantz. Then, after that some time was spent visiting informally, the party reluctantly broke up, for all had had such a good time that they were loathe to leave.

Out at Liberty school in the Grande Hall neighborhood, they have some perfect spellers, the following have made that record during the six weeks just finished: Albert Hughes, Kenneth Ragain, Alma Delong, Erma Jean Gekeler, Derrell Lindsey, Frank Johnson, Glen Mullenburg, Marjorie and Glenn Fleishman, Frank Johnson has been out of school on account of illness. It is reported, and two popular pupils have moved out of the district going to La Grande, Pat and Albert Hughes. Albert has enrolled in the eighth grade at Central school and Pat in the fourth A.

Country points reflected this tone although there were no changes in quotations reported. Potatoes: (All quotations per hundredweight, sacked, unless otherwise noted). Better Feeling Apparent Now In Butter Market

PORTLAND, Jan. 20 (AP)—Something better feeling is apparent general in the market for butter. This applies not only to the local field, but to the coast generally. Decrease in demand and increased demand are factors. Practically no changes are reflected in the market for eggs locally. In fact little change is indicated in any of the leading markets of the country. Mediums alone are very slow. Sales of turkeys locally are now of fair volume, but at late low prices. Most of the toms and hens of quality are moving to retailers 20c to 25c lb. Prevailing situation in the chicken market appears due only to the keen desire on the part of many producers to liquidate and get out of the business. Others are rigidly culling their flocks. Both of these factors have resulted in the annual showing of weakness in live chicken prices, even though the present instance reflects the lowest price since the system of selling by the pound was started. In the market for country killed calves, demand remains favorable with more business passing at the top price. Hogs are steady and unchanged. Demand for lambs is improved. Only a sagging tone is shown for potatoes. Primary points of the Pacific northwest continue to reflect scarcely sufficient business to establish prices. Local jobbing trade is very slow. Market for onions continues to mark time. Sales continue in a limited way at \$3.50, sacks and twine but most holders are still seeking \$4, which is not yet available. Fine home grown French type eggplants is being offered here out of the Monroe section. It came out of the Vantwick place and of very good quality. Priced 40c lb. Notes of wholesale trading: Green beans out of Florida are being offered \$5.00 \$5.25 hamper or 20c lb. Dallas hothouse cucumbers, the only offerings in the west, are arriving here with sales \$1.75 \$2.50 doz. Lettuce market is again easy with lower prices ruling. Walla Walla spinach is offering \$1.25 \$1.35 box with California 40s at \$3. Florida tangerines are finding fair sale \$2.35 bushel hamper. Fine quality. Easier tone shows for artichokes with better quality.

Strong Close In Exchange Today

NEW YORK, Jan. 20 (AP)—A flurry of short covering in the last hour gave stocks a strong closing tone today. Net gains ranged from 1 to 3 points for principal issues. The market, very dull during the greater part of the day, quickened substantially on the upturn. Sales approximated 1,200,000 shares. General electric, which had been a weak spot, selling off 1 1/2 points to a new low for the current shares, reduced its loss to a fraction. The tobacco issues were notably strong.

POSTPONING OF LAUSANNE MEET LIKELY

(Continued From Page One) arrive at Lausanne by Jan. 25, the date set for the meeting. British opinion is that the conference will be held perhaps a week later. Discussions of preparations continued today among the British, German and French governments regarding the conference. So far the British government had made no formal move to postpone the meeting although it was England which took the initiative in fixing the date at Jan. 25. It is understood that a mutual understanding regarding the postponed date may be reached during the exchange of views now proceeding among the European capitals.

Miner Suicides In Abandoned Tunnel

TRINIDAD, Colo., Jan. 20 (AP)—Up on a pyre in an abandoned coal mine the body of Frank Trujillo, 60, a miner, was found by searchers late yesterday and officers said he apparently had built the fire, shot himself through the head and had fallen into the flames. A fall of rock from the ceiling of the mine apparently prevented the body from being entirely cremated. Coroner Robert Sipe and Sheriff E. A. Duling were continuing an investigation today. They said Trujillo had been despondent.

FEDERAL FUNDS DISTRIBUTED

SALEM, Jan. 20 (AP)—The second quarterly allotment of federal funds for co-operative vocational education was being distributed to various schools in the state today by the vocational education department. The state received \$14,331 under the Smith-Hughes act for agriculture, industries, home economics and teacher training, and \$2,979 under the George-Reed act.

ALDERMAN WANTS TO TAX SPEAKESIES

PATERSON, N. J., Jan. 20 (AP)—Alderman Joseph King wants to license faterson speakeasies. He said today that there are an estimated 800 "speaks" in town, and that an annual license for each of \$150 would turn more than \$100,000 into the city treasury. The idea, he told the board of aldermen, yesterday, is not original with him. Several New Jersey cities have been issuing licenses to speakeasies for as long as seven years. Even federal authorities, he said, have approved the idea.

Wallowa Wheat Men Continue To Hold Their Crop

By G. C. Meek (Observer Correspondent) WALLAWA, Ore. (Special)—There is but little disposition on the part of farmers to offer their wheat for sale at this time, according to some of the buyers of this county. Considerable interest is being manifested in the matter as to whether the railroads will return to their former carrying charges on wheat, which means a difference of slightly more than six cents per bushel on grain from this county to Portland. Reports indicate that a large part of the wheat grown here during last season is still in the hands of the growers, a large part of which is stored at the farms. Some scattering sales of small lots of wheat and barley are being made at 1c per pound. Those having Hard Federation suitable for seed grain state that they do not dare to sell now but expect to see a fairly good demand for seed in the spring. During the past fall low wheat prices and highly unfavorable weather conditions at seeding time caused some farmers to withhold seedling operations and reports indicate that much of this acreage will be seeded to spring varieties of wheat this year. Very poor catches are the reports from several persons in this end of the valley who have been trapping for coyotes, badger and small fur-bearers during the past few weeks. Prices received from some of the furs which have been marketed are said to have been exceptionally low. In one instance a fairly good coyote pelt brought only a dollar and others report that little better for badger pelts marketed recently. Coyotes are reported to be quite plentiful in many parts of the hills, however, the great variation in weather conditions have made trapping operations difficult. Continued downward trend in egg prices has placed the price at 10c per dozen at local stores. These low prices for this early in the winter season comes as somewhat of a surprise to many. Reports from many of the farms in this community state that increased production from flocks is coming later than has been the case in a number of years and with the present balance of egg and feed prices most owners are finding it extremely difficult to break even on feeding costs. Young lambs continue to arrive at a few of the farms in this community and in most instances fairly good luck is being had in saving the new arrivals. A number of others report that lambing with their flocks will start around the first of February. Sam Meek was busy the early part of the week hauling some hay from the C. E. Glenn farm in the valley. Oles Plass was at his ranch in the hills the early part of the week getting a load of hay for feeding some of his stock he is keeping on Diamond prairie this winter. Eugene Gastin arrived here the latter part of the week from Snake river where he has been working for Ivan Simmons. He reports winter conditions quite good on the river and that some fish feeding has been necessary during the past several weeks, however, he reports the bulk of the sheep coming through the winter in good condition. He expects to return to work there about March first. Frank Walker, of Leap, was an Enterprise business visitor during the early part of the week. A dance is being planned for Saturday night, Jan. 23, at the H. H. Whipple home on Pannip creek. Miss Charlie Couch spent the weekend at her home at Leap. Roy Gastin and Geo. W. Cherry, of Enterprise, made a business trip to La Grande the early part of the week. LIVERPOOL WHEAT LIVERPOOL, Jan. 20 (AP)—Wheat closed: March 53 1/2; May 55 1/2; July 57 1/2, Exchange \$3.46.

Some of the young people of this community have enjoyed some excellent coasting and skiing during the past several days while the snow was heavily draped. Mrs. Bertha Taylor and daughter, Olivia, and Frank Mingo, of La Grande, and C. W. Marshall, of Walla Walla, visited Sunday at Meek's. James Anderson spent Sunday visiting his children at their home in the Upper Leap community. Many of the game birds have come in nearer feed yards and hay stacks recently. Apparently the heavy crust on the snow has made it difficult for them to secure needed feed.
