Quantities of One- and Two-Piece Styles for Misses and Women

J.C. PENNEY CO.

LA GRANDE OREGON

Wagner Had the Misfortune to Collide with Some Object and Both Suffered Cuts and Bruises.

Visits in Valley— Mrs. Fred Bowers who is continuing her year's contract as teacher at Hereford spent the weekend in the valley visiting with Mr. Bowers and other relatives.

Meetings Friday and Saturday— Livestock growers are once more urged to remember the series of meetings to be held on Friday and Saturday of this week, with Dr. Henderson, of the U. S. Department of Agriculture and H. A. Lindgren of the college extension staff, as speakers.

In La Grande— Mr. and Mrs. Frank Woodell, of Summerville, were in La Grande Sunday where they were guests at a dinner given by Mrs. Ida Moxie in honor of the birthday anniversary of her son, George Moxie. Other guests were Miss Mamie Woodell, Miss Bernice Peterson and the guest of honor.

4-H Club Forestry— A definite plan for 4-H club forestry work has been recently worked out through a series of conferences between members of the extension department of Oregon State college and representatives of the forestry interests of the state. Some of the clubs of the state have already taken the initiative in the work and have carried on forestry plans for some time. Under the new plan there will be definite forestry programs outlined that will cover a period of several years.

The first year's work includes identification of five kinds of forest trees and the collection of specimens of bark, fruit and foliage; planting 10 or more trees; collecting 10 cones or if available to collect 100 seeds of some other tree; field trips with instruction on camp sanitation, camp fires, etc., and to keep a record of the year's work.

The second year's work includes the planting of the forest seeds of the year before and the care of the seed bed; identify five commercial species of trees and collect specimens of lumber; identify five native shrubs and collect specimens of each; plant 25 or more trees, name and describe five wild animals and birds; trip in the woods to study "forest manners," and the record book.

Most of the above are suggested for individual study but it is possible to prepare programs that will fit the entire school. This would include group planting of shrubs such as is being done by the Tillamook 4-H club at the present time; the building of a trail, a cabin or some similar work. The instruction and information relative to the forestry work will be provided by the various forestry agencies while the administrative work will be carried on by the extension department. For those clubs or individuals who want the trees for planting these can be secured by making application to the 4-H club leader at Corvallis. They will be provided through the Oregon state nursery.

Visit— Mrs. Lois Witty and her daughter, Eudora, of above Elgin, were week-end visitors of Mrs. Ida Gordon, who is teaching the Willow Creek school this year.

Have Mesasles— Delbert Bouy, son of Mr. and Mrs. Roy Bouy, of Brooks Lane, and Robert Brock, daughter of Mr. and Mrs. W. F. Brock of Dry Creek, are the latest school folks who are having the mesasles.

In Valley— Mrs. Mae Moran and daughter, Miss Kathryn, accompanied Mrs. E. A. Austin to her home west of Summerville, when she returned to her home yesterday following several days visit with her many friends in La Grande. Among those whom Mrs. Austin visited this time while in La Grande were Mr. and Mrs. Walter Price, Mr. and Mrs. J. E. Stearns, Mr. and Mrs. Loyd Purdy, Mrs. Ella Doy and daughter, Mabel and the Misses Mae Stearns, Amanda Label and Mabel Morton.

Over the Mt.— C. E. Cameron and Arnold Whalley, of Cricket Flat, made a trip across the mountains the end of last week by truck. While there, they visited with Mr. Cameron's daughters, Mrs. Rhodie, of Echo and Mrs. Dixon, of Pendleton.

In Elgin— Mr. and Mrs. Ed Combes of Summerville were dinner guests Sunday at the home of Mr. and Mrs. Bert Sanders in Elgin. Arthur Sanders, who had been visiting with his grandparents returned home with them on Sunday.

Service is Appreciated— Patrons on the rural route out from Summerville have certainly been appreciating the service which Miles Woodell has been giving them during this long period of bad roads. Mr. Woodell has himself arranged for help in carrying the mail in order that patrons may have mail on the summer schedule, that is, in place of starting over the route early in the morning, in order that the entire

coverage might be made, as the law requires. Mr. Woodell has hired one and sometimes two carriers to assist him and they have waited for the morning mail which arrives about the middle of the forenoon. To cover that section of the road which goes over toward the sidehill west of Summerville Mr. Woodell has used a light conveyance with a light team. On other parts of the route his Ford has been used and in still others a sled has been necessary. On only one day out of the long period of heavy snows, drifted roads, etc., has Mr. Woodell found it impossible to serve his patrons. Said one patron "With such excellent mail service, our radio, and plenty of provisions, our radio, and plenty of provisions, though our car hasn't been through the roads since Nov. 11."

Meeting Changed— On account of the special grange meeting which is to be held in La Grande next Monday evening, Mt. Pacific grange has set its meeting for next week Tuesday instead of Monday which is their regular meeting night.

Sunday Guests— Mr. and Mrs. Tom Parks of near Elgin, had as their guests on Sunday, Miss Elvi Parks and Ivan Parks.

Ponderosa Pine Decided On For Western Lumber

PORTLAND, Ore. (Special)—Western yellow pine will hereafter be known as ponderosa pine, according to Regional Forester C. J. Buck, Portland, Oregon. The technical name of this species is pinus ponderosa and the approved common or English name has heretofore been western yellow pine. The well-known tree of the southern states is yellow pine and in the past great confusion has resulted in the lumber trade between these two similar names for woods totally different.

This change of name was recommended by the nomenclature committee of the U. S. forest service which change was approved by the regional forester, the forest experiment stations and later by the chief forester. According to Regional Forester Buck this name, ponderosa pine, will be used henceforth by the U. S. forest service and will designate the wood of the pinus ponderosa and of Jeffrey pine which is of the same family.

According to late estimates of the federal foresters, there are over 85 billion board feet, lumber tally, of ponderosa pine sawtimber in Oregon and some 16 billion board feet in Washington.

Ponderosa pine is one of the important forest and lumber trees of the western states. It has a very wide geographic range, being found from British Columbia south through the Rocky Mountain and Interior Basin to Arizona and far into Mexico, and from the Pacific region east to South Dakota and Nebraska. It has been known under a large number of common or trade names, such as yellow, red, and white pine, bull, big, and heavy pine, Oregon pine, Arizona soft pine, Mexican pine, and in England is known as "heavy-wooded pine."

It is a large and beautiful tree, very hard and adaptable to many locations, and its wood is valuable for a wide variety of uses.

SCHAEFER HAS LARGE DAY IN CUE TOURNEY

CHICAGO, Jan. 27 (AP)—A young champion from another billiard world turned the tables on the three cushioners who have declared the tourney in which he mastered the 182 ballkines too delicate for their kind of game.

With a spectacular flourish, Jake Schaefer, the ballkine ruler, came back last night to defeat Bud Westhus of St. Louis, 50 to 23 in 31 innings, the most remarkable game of the world's three cushion billiard tournament.

It mattered little that Arthur Thurnblad of Chicago, the defending champion, boosted himself into a tie for the lead with Otto Reisdorf of Philadelphia by a victory over Tim Denton, the often defeated former champion from Kansas City.

It was young Schaefer's day and his were the plaudits of the spectators. He overcame Westhus with the same ease and skill he has displayed in the ballkines and went out after a run of 10 with the balls still in excellent position. He is still in the championship fight though tied for fifth place with Gus Copulos of Eugene, Ore., and Len Kenney of Chicago, at three victories and two defeats.

Deaton, Pierre F. S. Souville of Buffalo and Kenney played a day Bozeman of Vallejo, Cal., in the afternoon and a match between Westhus and Copulos will precede Kieckhefer's game with Allen Hall in the evening.

Copulos easily defeated Bozeman with a remarkable game that ended 80 to 42 in 44 innings.

Dozen Cases Of Scarlet Fever In Willowa Area

By G. C. Meek (Observer Correspondent) WALLOWA, Ore. (Special)—Something like a dozen cases of scarlet fever have been reported in this community during the past few weeks. Several of these cases have been among town residents. The most recent case is that of the small daughter of Frank Bentrow, who lives east of the C. A. Hunter farms east of town. Some had feared a rather severe outbreak, however, due to precautions and immediate quarantine of cases as they are discovered a serious spread of the malady does not seem imminent. The greater number of the cases are said to have been in a light form.

C. W. Marshall, who is living in the Willowa canyon and working for the Bowman-Hicks Lumber Co. part of the time, was a business visitor in town the last of the week.

C. W. Mumford, of Pendleton, was a business visitor in this section during the past week and while here visited at the Clarence Mumford home. "Buddy" Mumford, of Enterprise, who has been a patient at the Willowa hospital for the past several days suffering from an infection of the neck, is sufficiently recovered to be out again at this time.

J. H. Leonard, of Lostine, was a business visitor in town the latter part of the week.

L. W. Miner was busy the latter part of the week moving some supplies and wood to the Taylor place where he expects to start lambing soon. He reports that the main part of his band will start lambing about Feb. 6.

H. C. Hearing and wife, of Evans, visited Sunday at L. W. Miner's. A considerable number of persons in this community have been suffering from severe attacks of bad colds and flu recently.

Miss Clarice Couch was suffering from an attack of the flu and was unable to return here for school during the first three days of the past week.

Frank Walker, of Leap, was an Enterprise business visitor during the early part of the week.

Mrs. John Couch, of Leap, was a visitor in town the latter part of the week.

Reg producers of this section were treated to another surprise in prices again this week when feed prices dropped from 19c to 18c and 18c per dozen.

There appears to be added strength in confidence in regard to a better outlook in the sheep industry for the coming year. In line with national confidence in some upturn in wool and lamb prices, many local people are inclined to have more faith in the matter. Recent reports here are to the effect that some ewes which will lamb during the next few weeks have been sold at prices ranging from \$6 to \$6.50 per head. Others are being offered for sale at somewhat higher prices, but are finding no takers. Most flocks are said to be wintering in good shape.

L. Couch, local real estate man, reports the sale the latter part of the week of the H. D. Bechtel farm, located about four miles east of town, to Herman Fisher, of Union county.

Mr. Bechtel purchased this farm about seven years ago. A considerable acreage of this farm lies in the valley and is under irrigation and in addition contains around two hundred acres of wheat land on the foothills. Mr. Couch reports that the new owner will take possession during the next few weeks.

A number of farmers in this community have been busy recently doing their winter butchering of hogs, beefs, etc.

George Cussins and Irvin Gastin have been busy the past week hauling logs from Whiskey creek to their farm in the hills for wood. Elmer Osborn also has been hauling up a supply of wood logs for M. A. Peterson of Whiskey creek.

CHICAGO LIVESTOCK CHICAGO, Jan. 27 (AP)—(U. S. D. A.)—Hogs 27,000; 170-210 lbs. \$4.10 @ \$4.15; some \$3.35 @ \$3.50. Cattle 9,000; top light steers \$10.25; heaves \$9.40; yearlings up to \$9.00; heifers \$8.00; sausage bulls \$3.75; vealers \$4.00 @ \$5.00. Sheep 24,000; lambs \$6.00 @ \$6.25; best around \$9.50; fat ewes \$2.50 @ \$3.25.

EAST SIDE MARKET PORTLAND, Jan. 27 (AP)—Cabbage demand was keen on the east side farmers' market today. Sales were generally 90c @ \$1.00 crate with quality stuff very scarce. Hothouse rhubarb demand was fair with choice in chief request at 75c for 1 1/2 while fancy moved slowly at \$1.10. Sprouts were mostly 80c box with a fair call. Green broccoli was held 65 @ 75c lug. Potatoes held the recent low price with a slow call. Carrots moved quickly for bunches as well as bulk offerings. Prices on all root vegetables unchanged.

OMAHA SHEEP OMAHA, Jan. 27 (AP)—(U. S. D. A.)—Sheep 10,500; fed, woolled lambs \$3.50 @ \$3.75; ewes \$2.50; feeding lambs down from \$4.85.
