POINT A MINUTE RECORD MADE BY E. O. N. QUINTET

(Continued From Page One)

E. O. N.—34; Pendleton Elks—19. E. O. N.—86; Enterprise—28. E. O. N.—41; Albany college—25. E. O. N.—49; Enterprise—29.

Total points scored by opponents in the six games amount to 141, compared with 266 for the Mountaineers; or an average of 23.5 and 44.3 points per game, respectively.

Couch Bob Quinn, however, is not optimistic as to the outcome of the game with Whitman tomorrow night. Besides playing on a strange floor, the Mountaineers will be handicapped by lack of strong reserves, while Whitman will have three combinations ready to throw into the game, each combination practically as strong as the other two. Borleske, whose team ranked at the top in the northwest conference last season, has practically the same lineup again this year, and local fans who saw the Missionaries play here in 1931 know what that means.

Ashland Coming Monday

Ashland Normal school will come to La Grande Monday for two games—Monday and Tuesday nights at 8 o'clock in the L. D. S. Recreational hall—and those contests will open the conference season for the La Grande cagers. Last year they broke even with Monmouth and Ashland, and as the two Western Oregon schools didn't meet, the three teams were in a deadlock for the Oregon championship. This year, with an improved squad, including three veteran players, Quinn has hopes of copping the title.

The two games with Ashland next week will be followed later by four games with Monmouth, the six contests comprising the conference season.

The twelfth district total Jan. 27 was \$233,769,000, compared with \$233,196,000 in the preceding week.

FORMAY repeats great California success here!

Noted Pacific Northwest cooking authorities lead in welcome of sensational new-type shortening

WHEREVER you go, up and down the Coast, the best cooks are talking about it—a wonderful new-type shortening. First it took California by storm. Millions of pounds were sold in one short year.

Now the whole Pacific Northwest is finding what a joy it is to use Formay—the perfect shortening.

These seven well known Northwest cooking experts were the first to try it here. They give it their hearty approval—and are passing the good news on to housewives.

Here is a shortening that is made by an absolutely new process—looks new—gives new results. It has every advantage.

Try Formay for pies. The crust is the old-fashioned kind—flaky and tender. Try Formay for cakes. It creams so quickly and thoroughly that the simplest little two egg concoction is light and airy. And in frying, Formay preserves flavors—even the most delicate.

Don't delay, when there's a brand new cooking thrill waiting for you. Try Formay yourself and see how beautifully your cooking turns out. It comes in the pound carton, and in 1, 2, 3 and 6 pound tins.
