AMERICANS TO BE TAKEN FROM CHINA

(Continued From Page One) "solely for protection" of American lives and property. NANKING ATTACK REPORTED WASHINGTON, Feb. 1 (AP)—The navy was advised today that Japanese warships at Nanking had opened fire without warning on Nanking, until last week the capital of the Chinese government. The lone American destroyer there, the Simpson, changed its position to be sure of safety. The Japanese have a strong force of warships in the river there. Some 200 American citizens are in the city. The destroyer Simpson, commanded by Lieutenant Commander P. W. Rutledge, is the only United States war ship at Nanking, which is 125 miles above Shanghai. American consular officers there requested additional destroyers Saturday, when threats of Japanese-Chinese clashes became acute. One or more of the four destroyers which arrived at Shanghai yesterday were dispatched to the Yangtze. The Simpson reported last night that the Chinese have a large concentration of land forces there. President Hoover was advised immediately of the critical development. Danger involved was far from minimized. It doubtless means that any strong measures necessary for protection of American citizens will be taken at once. Other powers probably will do likewise. Coincidental with arrival of the startling report from the Simpson, the Italian government notified Washington it was joining with the country, Great Britain and France in protesting against the Japanese course at Shanghai. Ambassador Demartino said Rome is

Washington government today of its cooperation with American, British and Italian complaints against the Shanghai situation precipitated by Japan. It was indicated, however, that any military activity directed from Paris would be confined to defense of French quarters in the seaport. NEW PROTEST LIKELY WASHINGTON, Feb. 1 (AP)—The British government asked the American government again today if it did not consider renewed protests to Japan to be in order. SHIPS LEAVE MANILA MANILA, Feb. 1 (AP)—The cruiser Houston, flagship of the United States navy's Asiatic fleet, and four destroyers sailed at 1:30 p. m., today (12:30 a. m., eastern standard time) for China. The patrol vessel Isabel also sailed, and it was announced the destroyer tender Blackhawk would follow soon. Tomorrow the transport Chaumont is expected to sail for Shanghai with 1056 officers and men of the 1st infantry, carrying field equipment but no artillery. Three destroyers left here at 9 a. m., today following four which sailed last Friday, all generally assigned to the protection in troubled Chinese areas of American lives and property. The Isabel is generally used as a port headquarters by Admiral Montgomery M. Taylor, commander in chief of the Asiatic fleet. Completion of the scheduled voyages of the Chaumont and the other craft will give the United States more than a score of vessels in the Shanghai area, including the regular gunboat patrol the navy maintains on the Yangtze river. There's one Right Size for Cigarettes

● Examine various cigarettes, and you'll find they are not all alike in size. Yet our scientists say their tests and research fix one definite size standard as the best. For a given length, our experts say, there is one right diameter... to make the draft right... to make the cigarette burn right. Not only that, when the size is right, the cigarette lasts longer, and smokes cooler. And that "right" size is exactly the standard Chesterfield size. A detail? Of course—but a mighty important one, figured in extra coolness and comfort. It's by constant attention to just such details that Chesterfield sets cigarette standards. Notice how round and full each Chesterfield is—how firmly packed. There are two "electric detectives" on every packing machine, to check this detail also! The right size... and the right quality. Chesterfield never changes either one. Measure them any way you want—with ruler, microscope, or test-tube. Or measure them in the surest way of all—with milder and better taste. And you'll find—They Satisfy! Good, they've got to be good!

THEY'RE MILDER THEY TASTE BETTER THEY'RE PURE They Satisfy ● Chesterfield's Radio Program is way above standard too!
