### What is the PRICE OF BEAUTY?

Without health there can be little natural beauty. The wise woman knows that the condition of her body shows itself on her face, her complexion, and in her eyes.

She takes care to avoid constipation. This treacherous ailment frequently causes headaches, sallow skin, pimples, premature aging.

Try the pleasant "cereal way" to protect yourself from constipation. Science has proved that Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and Vitamin B to tone the intestinal tract.

ALL-BRAN also furnishes iron, which helps build up the blood.

The "bulk" in this delicious cereal is much like that of lettuce. How much safer than abusing your system with pills and drugs—so often habit-forming!

Two tablespoons daily will correct most types of constipation. ALL-BRAN is not habit-forming. If your intestinal trouble is not relieved this way, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

Illness and bad roads caused the absence of Mrs. Garnet Ruckman, noble grand, although her plan for exchanging valentines was carried out, causing much merriment among the members.

The date of the association meeting to be held in La Grande has been set as March 9, at the Odd Fellows hall. Mrs. Minnie McGoldrick, captain of the drill team, expects to have her drill team ready to present a good performance.

## MISS HEATH TO DEVOTE TIME TO FOOD SEASONING

(Continued From Page One)

"Wursts" of strong ingredients, matched the tart bitter beers of some sections; veal sausage and braunschweiger of liver suited the lighter drinks of other districts.

Many Germans declare that the true German cook is able to offer a different flavor of soup for every day in the year.

In Schmierkase, or cottage cheese, came into its popularity in Germany because it offered an ideal background to the highly flavored pumpkin and rye bread, in which German bakers reign supreme.

America has been made the melting-pot for these and many other nations, and as a result the American housewife has as her heritage the combined flavoring and seasoned possibilities of every nation in the world, in which, says Miss Heath, she is lucky.

American cooks have been a long time in availing themselves of the open secrets of seasoning. However, the home economist says, she attributes this to the fact that English dishes predominated in the older sections of the country—and English people have never developed a taste for varied seasonings.

Also, native early American dishes such as buckwheat cakes, corn pone, clam chowder, corn on the cob, and pork and beans did not work in readily with the extracts and condiments which formed the magic of the European cuisine.

Miss Heath, however, will spend a great part of her Kitchen Chautauque talks on this fascinating art—the art of seasoning and flavor. She declares that Mexican flavoring practices offer all sorts of new possibilities to the American housewife.

"Well prepared chili, tamales and enchiladas offer intriguing possibilities," says the home economist.

Salads and their appropriate dressings will also take up a part of the Kitchen Chautauque's "flavor hours." Every individual salad deserves an individual dressing, this food expert declares, and by dressing a salad in appropriate "clothes" it will be infinitely more tasty.

There'll be lots of other things to see and talk about at the Kitchen Chautauque, too. And we know you can't afford to miss it.

## Wets Holding Lead In Magazine Poll

The vote for "Repeal of the Eighteenth Amendment" outnumbered that for "Continuation of the Prohibition Amendment" by over five to one in the first scattering returns from eight states of the Literary Digest current nation-wide straw ballot on prohibition.

Of the total of 323,550 votes received in this first tabulation, 51,285 are for prohibition and 272,265 are for the repeal of the prohibition amendment, or 15.85 per cent "dry" and 84.15 per cent "wet."

The eight states represented in the initial returns of the poll include: New York, Virginia, North Carolina, Maryland, Georgia, Illinois, Indiana, and Ohio.
