Herbs for Flavoring
The kinds of herbs in most general use for flavoring food in this country are parsley, sage, thyme, savory, marjoram, spearmint, dill, fennel, tarragon, balm and basil, in the order named. Parsley leads, because it is used both as a garnish and flavoring. Sage may surpass it as a flavoring only.

Setting Off the Home
The area between house and barn, if attractive, sets off a home as very few things can. No matter how fine the house may be or even how well kept the barn, if this twilight zone between house and barn is not made and kept attractive the homestead will have lost much of its beauty and charm.—Farm Journal.

Quartz Flask on Exhibition
At a recent geology exhibition such comparatively unknown things as a flask for chemical use blown from pure melted quartz and a specimen of smoky quartz, which the Chinese make into dark spectacles, were shown.

American Cheerfulness
Foreigners profess to be amused at the American idea of "keep smiling." Why not be honest and admit that a stronger love of life, a stronger will to enjoy, is at the bottom of it?—American Magazine.
