

LOCAL BRIEFS

Stop Here—The Ontario basketball team stopped in La Grande last night on route to Union where they will meet Nyssa in the opening game of the tournament this afternoon.

Ill—Guy Glenn is confined by illness to his home at 1004 Thirteenth street.

From Union—A. N. Stonebald, of Union, was a visitor in La Grande yesterday, transacting business.

In Enterprise—Judge J. W. Knowles will hold motion day at Enterprise tomorrow. Judge Knowles is the circuit judge in this district and holds court at both La Grande and Enterprise.

Has Operation—Mrs. Emerson Beavis underwent an operation yesterday morning at the Grande Ronde hospital. She is improving satisfactorily.

Revival Meetings—The revival meetings are still being held at the Gospel Mission and the crowds have been large and the interest keen. Rev. W. W. Clark, evangelist, is delivering sermons each evening, after three weeks of meetings which will close tomorrow evening with a large healing service in which he will pray for the sick. Tonight the evangelist will speak on "Will the Roman Empire Be Again Restored, and Is the World Preparing for an Anti-Christ?" Tomorrow evening he will speak on "The Second Coming."

Case Dismissed—The case against Gerald Peterman and Alfred Shirley, charged with larceny not in a dwelling, was dismissed following a hearing held yesterday afternoon in the office of Justice of the Peace L. Denham.

To Run for Mayor—Douglas McKay, who has announced his candidacy for the mayorship of Salem, is well known in La Grande, not only because of his political connections and through his wide circle of friends among former University students, but also through his aunt, Mrs. H. J. Ritter, who makes her home in La Grande.

Moose Meet—A smoker was planned by the Local Order of Moose at their meeting last night at 7:30 at the Moose hall. Nomination of officers will be held jointly with the smoker next Wednesday evening at the hall. The committee appointed to arrange for the event is Willis Osdway, Paul Torva and Wallace Cass.

Attend Tournament—Charles H. Reynolds and his sons were among the La Grander who attended the basketball tournament this afternoon at Union. Leonard Roe, former L. H. S. star, was another Tiger booster at the tournament.

Timer—Dr. William Pearce, who is to be the official timer at the district basketball tournament, went to Union this afternoon to officiate at the games. He was accompanied by his daughter, Kathleen, and Miss Freese.

Attend Meeting—Members of the Scottish Rite of the Masonic lodge from La Grande, North Powder and Prairie City were in Baker Tuesday evening and heard John H. Cowles, of Washington, D. C., grand commander, describe lodges in the various nations of the world. In his talk on the universality of Masonry, which covers practically the entire world except Russia and Italy, Mr. Cowles discussed the various Masonic activities conducted in foreign lands.

From Corvallis—P. L. Ballard, county agent tender of Corvallis, is in La Grande to attend the two-day marketing conference which opened this morning.

Cars Collide—Cars driven by Mrs. Robert Williamson and Mr. Clark collided at Adams and Chestnut streets about 8 o'clock this morning, the Clark car hitting the rear of the Williamson machine. No one was hurt but one fender on the Williamson car was damaged.

To Coast—Herbert Davies left last night for Portland and Seaside where business errands will call him for the next several days.

Accidents—Two automobile accidents occurred in La Grande yesterday but reports to the police were to the effect that no one was injured. At 2:45 o'clock cars driven by Louis H. Auelier, of Summerville, and Herbert Barker, of

Cove, collided at Fourth and Adams. At 8:40 o'clock cars driven by Earl H. Miller and F. M. Huffman, met on Washington avenue.

Must Have License—Haskell Andrews, state inspector, today pointed out a new provision of the law which provides that sale of Easter lilies may be made only by dealers and agents, who have state licenses. "All persons or stores selling Easter lilies will be required to secure a nurseryman's license before selling such plants," he said.

BABY SEARCH WIDENING IN EAST STATES (Continued From Page One)

"Do not get a trap or the price will be high and the penalty severe." By Lorena A. Hickok (Associated Press Writer) HOPEWELL, N. J., Mar. 3 (AP)—Col. Charles A. Lindbergh decided today to keep the police on the job and make every effort to run down the kidnapers of his baby son. There was no indication, however, that he had withdrawn his offer to pay ransom for the baby's return.

After Gov. A. Harry Moore visited Col. Lindbergh it was learned that the suggestion had been made that Col. Lindbergh call off the police search and issue an appeal to the kidnapers to return the baby on no questions asked basis.

To Rely on Police It was not revealed who made this suggestion but it was learned that Col. Lindbergh repudiated it instantly and forcefully and that he announced that instead of asking withdrawal of the police he would urge them to every possible effort.

In connection with the governor's visit, during which he promised the state's fullest co-operation, it was learned that approximately 500 persons have already been brought in to the state police station established in the Lindbergh garage for questioning.

Police cars have been scouring the country and those questioned were from New York, New Jersey, Pennsylvania and other states.

It was impossible to learn whether this wholesale examination had resulted in any valuable clues.

REPORTED IN SMALL TOWN BOSTON, Mar. 3 (AP)—Col. Charles A. Lindbergh's infant son, kidnaped Tuesday night from the aviator's home in Hopewell, N. J., was reported, in a letter mailed by a woman in Boston today, to be held captive in a small New Jersey town.

The letter gave the name of the place as "Provincetown, N. J." But the police interpreted this as referring to Provincetown, Mass., far from Princeton. The police and postal officials said the tip appeared to be the best clue in the case thus far, and basing their judgment on their experience in such matters, said they believed it to be genuine.

The letter, mailed by an elderly woman of foreign extraction for whom a wide police search was started, was taken from the milk and opened by authority of Colonel Lindbergh. It read in part as follows:

"Dear Colonel Lindbergh: 'I don't want to say how this information came into my possession. I urge you to act on it, though. I know that your son is held by two men and a woman at (name of town and address of house to which she referred)."

"The letter ended: 'I received this information from a long distance.'"

CAPITAL POLICE BUSY WASHINGTON, March 3 (AP)—Washington police today broadcast notice for officers to search every rooming house in the city for a man, a woman and a baby who they believe abandoned an automobile in a garage at Hyattsville, Md., late Tuesday night.

It was said by police officials they considered it was possible the couple might have been connected with the kidnaping of Charles A. Lindbergh Jr.

The baby said to have been with them was described as about 20 months old.

Hyattsville authorities told police the automobile bore a Pennsylvania tag number. The man who left it there was said to have given a Minneapolis address.

SEK SUSPECTED CAR NEW YORK, March 3 (AP)—Police headquarters sent out a radio alarm shortly before 10 o'clock this morning to all radio-equipped police automobiles in Manhattan to stop and investigate an automobile, with license plates N-3937, N.Y., going south on Sixth avenue, in which two women with a baby were riding.

New York police headquarters explained the radio alarm was broadcast for the automobile seen in Sixth avenue to leave nothing undone in their efforts to solve the kidnaping. A citizen who saw the car and thought the child might be the Lindbergh baby called police headquarters with the report.

HUM RUNNER'S STORY TOLD ASBURY PARK, N. J., March 3 (AP)—A hum runner's story of passing a 36-foot cruiser on which a man was seen and a baby's cry was heard sent

coast guard craft racing along the Jersey seaboard today in the latest phase of the Lindbergh baby kidnap case.

The cruiser, "a dirty white craft" appeared off the run runner's port bow, and the man on board halted the liquor runner, he said.

"My compass is broken" he yelled, and waving a \$100 bill offered to buy the runner's compass.

The run runner said he refused to sell, but offered to repair the broken compass. He pulled alongside the cruiser and was about to board it when a baby cried below. The man slammed the hatch and the cruiser slid away without another word.

After the run runner landed he learned of the kidnaping of the Lindbergh baby and decided to report what he had seen and heard.

Here No Name He said the cruiser bore no name but only the letter K followed by some indistinguishable number. The letter indicated New York registry, the coast guard said.

The run runner, whose name was not revealed, told his story to Guardsman Thomas Harris of the Deal station. Supt. C. R. Sands broadcast the alarm to all coast guard craft.

The run runner said he came upon the cruiser 20 miles off Scotland light and he did not know of the kidnaping. This happened last night after the run runner had failed to make contact with the liquor ship from which he was to have taken on cargo and was on his way back to shore.

By Lorena A. Hickok HOPEWELL, N. J., Mar. 3 (AP)—The Lindbergh baby was still missing today.

But for miles on either side of the Lindbergh estate the road was cleared to make easy the return of the kidnaper, reported to be demanding \$50,000 ransom, which Colonel Charles A. Lindbergh is ready to pay.

Last night the army of reporters and photographers assigned to the kidnaping was requested to leave the estate for fear that if the kidnaper should bring the baby back he would be frightened at sight of the crowd and fall to sleep.

Police Deadline Extended "Today an even stricter order was issued and the police deadline was moved back to this village, almost four miles from the Lindbergh estate, on one side, and to Wertzville, even farther away, on the other side.

Inside the area thus bounded police constantly patrolled the highway and no one was allowed to park a car or even stop for a moment. No one not having legitimate business on the road was allowed to drive past the Lindbergh estate.

The reporters and photographers, some of whom had been billeted in the homes of neighbors of the Lindberghs, were forced to leave and withdraw here.

No secret was made of the reason for thus isolating the Lindbergh home and it was acknowledged that with the estate and road cleared there was hope the kidnaper or a representative might bring the baby back and demand the ransom.

Although Colonel Lindbergh was ready to pay whatever was asked no statement was issued as to whether he had reached an agreement with the police as to their action in case the kidnaper should arrive.

JACK KENTWORTH STILL AT LARGE; MURDER CHARGED (Continued From Page One)

The wounded man, was held in the city jail with Expelling, pending investigation. Officers believed there was with the kidnaper when the Albany shooting occurred. Both will be taken to Albany today where Officer Gill will attempt further identification.

Both prisoners served time at San Quentin for burglary.

One Useful Mouse The grasshopper mouse, which is found in western states, makes itself useful by eating grasshoppers, beetles, crickets and scorpions.

Almost the Same When you have no ice and require a cold cloth for a compress, get a cold cloth out of cold water and shaking it briskly through the air. The rapid evaporation will give almost the same results as if wrung out of ice water.

Meeting of Extremes Extremes meet, and there is no better example than the haughtiness of humility.—Emerson.

Poles Give Good Service The average pole used for electric wires will last from seven to fifteen years, although some are known to have been in use twenty-one years.

Ireland's Distinction Ireland is one of the few countries which has never persecuted the Jews.

Nero Last of Family Nero was the last of the imperial family; but thereafter Caesar became a title of dignity. From the name were derived the German Kaiser and Russian tsar.

Fast-Growing Tree The bilua reaches a diameter of 15 inches in five years and has a very fast height growth.

Briefly Told For Nature over faithful is to such as trust her faithfulness.

Hatching Turtle Eggs Turtle eggs are generally covered with sand or with vegetation and left to hatch by the natural heat of their covering and the sun.

Clay Bumps on Detour You can tell when you're on a detour. Those bumps are clay in stead of chickens.—Akron Beacon Journal.

Pioneer Piano Makers The first piano made in this country was made in Philadelphia in 1775 by John Behrent.

Masons Adopt New Night for Meeting

Fifteen years ago the Masonic lodge of La Grande changed its meeting night from Saturday to Friday. Before that the meetings were held on Saturday, the official Masonic night for 50 years. Last night the Masons met for the first time on Wednesday evening.

School and civic activities interfered with their regular meetings and was given as the reason for the change. They will continue to meet on the first and third Wednesday of each month.

Regular routine business was transacted last night.

GEORGE BOSCHKE DIES SAN FRANCISCO, Mar. 3 (AP)—George W. Boschke, 67, chief engineer of the Southern Pacific railroad, died today after being ill several weeks of pneumonia. He was one of the most widely known engineers in the west and had been on temporary leave of absence pending retirement.

A week ago Mr. Boschke went to Southern Pacific hospital here. Anxious to save his wife from worry, he asked associates to inform her that he had been called out of town on business. Later Mrs. Boschke, 62, became ill of pneumonia and his friends tried to inform her husband of it, hoping to be well by the time he returned from "out of town."

Physicians said Mrs. Boschke was gradually losing strength.

67 BIDS OPENED BY COMMISSION ON HIGHWAY JOBS (Continued From Page One)

ate survey of the highway between Beaverton and Hillsboro and its widening.

At the afternoon session the commission announced it will open bids for a bond issue of \$1,000,000 with which to meet interest charges and principal retirement on the bond debt April 1. This is necessary because of the change of the automobile license year from Jan. 1 to July 1.

These projects were advanced to the contract stage by the high way commission at its final meeting. The old commission likewise scheduled the grading of the last section of the Wallcut cut-off for contract but it has been postponed by the new commission pending a survey of the road above any proposed power development on the Columbia river. The result of this survey will be before the commission at its March 16 meeting.

Consider Bridge Mar. 16 Another important matter to be up at the Mar. 16 meeting is the \$800,000 bridge across the Clackamas river on the East Portland-Oregon City superhighway. The bridge is to be a three-span steel arch structure with concrete approaches, accommodating four lanes of travel.

Other projects to be disposed of at the Mar. 16 meeting are the surveying of the Burnside Lakeview highway with federal funds and ferry service at Florence and at Gardiner on the Oregon coast highway which is expected to be opened to traffic its full length by summer.

Bird Lured to Its Death The gannet, or solan goose feeds on fish, which it captures by plunging into the water, with closed wings, often from a considerable height. Fishermen tow a board with a herring painted on it below the surface of the water. The gannet dives for the painted fish, strikes the board, and breaks its neck.

Age of Armor The suit of armor reached its complete development under Henry VI of England (1422-1461), at about the time the English were driven out of France (1453). The armor was forged of this steel and made to fit the body and limbs.

Tragic Blunder The greatest blunder of all time probably occurred on the day when the first of our prehistoric ancestors discovered that by making certain grunts and wheezes he could impart his own ideas to some of the more intelligent among his neighbors.—Hendrik Willem Van Loon.

Brazil's First Title Pedro Alvarez Cabral, who is generally credited with the discovery of Brazil, named it Terra de Santa Cruz, which is translated the "Land of the Holy Cross."

Light Cavalry Hussars, light cavalry troops, were originally raised by Matthias Corvinus in 1458 to fight against the Turks. The name is probably from the Magyar word husz, meaning 20, the troops having been raised by selecting every twentieth man in the community. Hussars became a part of the British cavalry in 1805.

Whence Came Doubts Doubtless questioning is much better evidence than that senseless deadness which most take for believing. Men that know nothing in sciences have no doubts. He never truly believed who was not made first sensible and convinced of unbelief. Never be afraid of doubt, if only you have the disposition to believe.—Leighton.

Quite a Difference When a woman has worn her clothes as long as she considers possible they're still in good enough condition to send to a rummage sale, but when a man has to ditch his, only a ragman will take them.—Cincinnati Enquirer.

Really Persian The Taj Mahal was planned by Ustad Isa, a Persian, and is Persian architecture rather than Indian. It is of white marble outside and jeweled mosaic inside.

Neglected Phylum Very few medical men have even an approximate idea of the losses caused to the world at large by the nematodes.—British Medical Journal.

Special Drill To Be Given Mar. 9

About once every four years a special drill is conducted by all branches of the Odd Fellows lodge at the district convention. When the district association meets here on March 9 at 8 o'clock at the Odd Fellows hall, a special drill team consisting of 93 members of the I. O. O. F. and B. B. K. of La Grande, and a representation of all branches of the order, will present the drill which has been arranged by Mrs. Lettie McGoldrick.

All the different branches of the lodge will be represented including R. J. Kitchen and C. E. Sting, representing the Odd Fellows lodge; Mrs. Mary Simmons and Mrs. DeKalb, Past Noble Grand club; Phil Baron and Bert Hug, Encampment; Mrs. Minnie Bragg and Alice Hug, Lady Militants; and W. E. McClure and Clifford Bragg, Cantons.

Original Moors The name "Moors" was applied to the people of Morocco. The Arabs conquered the Roman province of Mauretania and converted the inhabitants to Mohammedanism. The race soon became mixed and these people upon invading Spain and Portugal were called Moors. Spanish writers soon applied the term to all the Mohammedans of northern Africa.

Beautiful Lake Lake Bleed in the Adirondacks is known as one of the beauty spots of the world, ranking with Lake Como, Lake Lucerne and Lake Louise. It lies directly at the foot of Whiteface mountain.

Famous Pseudonym "Ella" was the pseudonym under which Charles Lamb, the famous English essayist and humorist, wrote.

Geographically Small The area of Egypt is about 350,000 square miles if the desert regions are included and 12,223 square miles if only the cultivated and settled areas of the Nile valley and delta are considered.

Hard to Be Friendly Many people's efforts to make friends are timid, awkward and abortive.—Woman's Home Companion.

European Territory The British Isles are a part of Europe. The islands were at one time a part of the continent.

Gizzen to the Devil Seventeenth century Puritans called playing cards the devil's picture books.

Summing It Up When wealth is lost, nothing is lost; when health is lost, something is lost; but when character is lost, all is lost.

Big Dipper's Movements The Big Dipper revolves around the Pole star once in 23 hours 50 minutes, moving in a counter clockwise direction.

Spoke Her Mind A woman in Pennsylvania, after being mute for twenty years, recently recovered her speech when stung by a bumble bee, but what speech she recovered isn't on record, probably because if the censorship laws—New York Evening Post.

WOOL MARKET BOSTON, Mar. 3 (AP)—Wool market continues very dull except on sample lots and small quantities of immediate needs. Most of the few immediate sales are on 64's and finer wools. Sample orders include 55's and 48-50's semi bright fleeces. Bids are inclined lower than last week but low offers as a rule are being rejected.

Produced intense Cold Prof. W. H. Koesson, physicist of the cryogenic laboratory at the university of Leyden, Netherlands, accomplished in 1929 the difficult and hazardous feat of solidifying hydrogen gas at -458.5 below zero, Fahrenheit, or approximately 273.1 degree below zero, Centigrade.

Spruce and Balsam Cones The cones of the spruce hang down from the branches; those of the balsam fir or (balsam) stand upright. The species are thus easily distinguished when the trees are bearing cones, states the Dominion forest service of the department of the interior. The two species mentioned are the ones chiefly used in the manufacture of wood-pulp.

Sometimes Gets Warm At Verkhoyansk, Siberia, where the coldest temperatures yet observed have been recorded (99 degrees F. in February, 1892), a July maximum of 93 degrees F. has been noted.

Juneau Capital of Alaska Juneau is the territorial capital of Alaska and is also the site of the famous "Treadwell mine" whose "glory hole" has become world famous because of the amount of gold taken out.

Opium's Deception When the opium "plays dead" you may beat it, throw water on it, in fact all but kill it and it will never stir until you have gone away and given it up for dead.

Beneficial Ducks Ducks, ordinarily thought of as game birds, are great weed consumers. The stomach of a duck killed in Louisiana not long ago contained more than 72,000 weed seeds.

Red Indian Buildings The conical tepee, famous as the home of plains Indians, was not so characteristic of their prehistoric villages as the earth lodge building.

One of the important "cottage" industries in Czechoslovakia is the production by home-workers of artificial flowers.

NORTHWEST SEEKS FARM BOARD PLACE (Continued From Page One)

representatives present. More were expected to come in from the valley for the afternoon session which opened at one o'clock. E. H. DeLong, president of the Union County Grain Growers association, presided at the meeting which is sponsored by the Oregon State college extension service, the Union county chamber of commerce and the grange agricultural committee.

Mr. Ward Speaks Mr. Ward was the first speaker of the morning, the address by George C. Gatlin, marketing specialist of the Oregon State college, being set for this afternoon. Mr. Ward traced the history of the sheep raising industry, and related many of the present problems of marketing the wool. The Pacific wool growers have marketed their own wool, and have done it cheaper in their own organization this year than in the national organization during the past two years, he stated. Unless better plans are made by the national organization the Pacific wool growers will market their own wool while co-operating with the federal market, because they are better able to take care of their product.

Mr. Gatlin spoke on the "Status of Co-operative Marketing in Oregon," directly following the opening of the session this afternoon and other speakers were W. A. Holk, secretary of the Oregon Wool Growers' Assn.; E. H. DeLong, county agent; E. H. DeLong, president of the Union County Grain Growers association; T. B. Johnson, president of the Blue Mountain Livestock association; Frank Webb, president of the "Teeco" Poultry association. Mr. Johnson, director of the Farmers' Co-operative Creamery, Mr. De Long, president of the Grande Ronde Co-operative Creamery, will discuss that phase of co-operative marketing.

Committee To Meet The fruit and produce committee, under the chairmanship of A. W. Nelson, will meet this afternoon at 4:30 to draft a recommendation to be made to truck farmers and fruit growers relative to a local marketing plan, with regard to location, government and operation. Members of the committee are G. C. Stackland, of Cove; W. C. Gabeler, La Grande; P. W. King, May Park.

Representatives at the conference this morning included R. W. Ward, of Portland, of the Pacific Wool-growers; L. B. Pierce, of La Grande; J. A. Funk, Parkdale; C. B. Robinson, Union; C. L. Lawson, Union; Ray Baker, Cove; E. H. De Long, La Grande; D. R. Choate, Summerville; F. W. King, La Grande; Zack Chandler, La Grande; J. B. Weaver, Union; Fred Huffman, La Grande; George O. Gatlin, Corvallis, marketing specialist; F. Z. Tarpany, Elgin; Walter Pierce, La Grande; Thomas Wallinger, Allice; C. P. Edvalson, Union; S. E. Harris, Elgin; and F. G. Pottratz, Summerville.

A. T. & T. Income For Last Year At New Record

A T & T—Market page NEW YORK, Mar. 3 (AP)—Despite smaller operating revenues for the five billion dollar Bell system, American Telephone and Telegraph company, parent of the world's largest business enterprise, had a record net income last year.

The company, making public its annual report today, covered its per share dividend requirement in 1931 by a margin equal to the cost of one penny stock call—five cents. Earnings were equal to \$9.95 a share against \$10.44 in 1930, but were figured on the basis of 18,419,461 shares compared with 15,856,638, the average number outstanding in the previous year.

Curtailed expenses and a reduction in interest charges were responsible for the gain in net income, which totaled \$168,655,533 against \$165,544,707 in 1930 and \$165,190,000 in 1929, the previous record.

The Bell system's total assets, which just topped \$5,000,000,000 in 1930, rose approximately \$24,000,000 to \$5,024,335,551. American Telephone's addition to surplus, after paying out \$163,589,474, to stockholders, was \$3,078,059, bringing total balance sheet surplus to \$325,493,925. Temporary investments, including securities, totaled \$33,424,160 as of Dec. 31.

Bell system receipts from operations amounted to \$1,075,757,273 against \$1,039,039,805, a drop of \$38,182,532, or 2.6 per cent. Taxes and depreciation rose about \$4,000,000 and \$10,000,000, respectively, but the system cut expenses by \$29,000,000.

The number of Bell telephones in use last year declined 292,000, or less than 2 per cent, as compared with a gain of 225,500 in 1930. Local calls decreased about one per cent while toll and long distance conversations were 6 per cent fewer than in 1930.

DR. C. T. HOCKETT ELECTED TO HEAD ENTERPRISE CLUB (Continued From Page One)

Guy Craig, instrumental solo by Miss Rita Warnock; vocal solo by Mrs. Helen Kay and an interesting talk by Miss Beulah Smith, of the English department in the Enterprise High school.

A business meeting was held after the banquet for the election of officers. Dr. C. T. Hockett, was elected president, Guy Shaggs, first vice president, Bill Orman, second vice president, Fred Savage, treasurer, David Reavis secretary, Secretary and treasurer were re-elected from last year; H. Maughan, the outgoing president, has been in office the past two years.

The dinner was served by the Catholic ladies of Enterprise, with an attendance of 148.

SLAYER OF TWO WILL GET LIFE (Continued From Page One)

verdict. After the case had been received by the second jury a juror became ill and a mistrial was declared.

The state at each trial asked the death penalty.

Renaissance Art Vasari coined the term "Renaissance" as applied to a period of art history. The Italians use, instead, Quattrocento and Cinquecento.

Let Women Do Work In Kibera, East Africa, the dusky ladies completely own, manage and work the one industry, salt-making, while the gentlemen gather firewood and run errands to earn their salt, the medium of exchange.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks pink, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only swell the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pints of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in blemishes. Your head aches and you feel tired and out. Your whole system is poisoned.

It takes three good, old CARTERS' LITTLE LIVER PILLS to get these
