plank barricades. Yellow Hawk and Garrison creeks were on the rampage south of here but flood waters there subsided last night. At Milton-Freewater, Ore., the Walla Walla river reached its highest stage since a year ago and crabs installed last summer were endangered.

RIVER CUTS NEW CHANNEL SEATTLE, Mar. 19 (AP)—Dynamiting of a gigantic earth slide, which last night dammed the Snoqualmie river near Carnation in the western Cascade foothills, was decided unnecessary today when the river cut a new 100 foot wide channel. Shortly after County Commissioner J. A. Early arrived at the scene at daybreak with workers and dynamite, the river found a new course through adjacent farms and rejoined its course below the slide. Water over the area immediately began to recede.

Neighbors of Mrs. Forrest McElhoo, whose home is nearest the slide, told of her heroism in saving her two small boys from the rising flood last night. The two, Harold, 11, and Forrest, 9, were out with a fish spear scooping fish out of the river. With the slide spreading a great earth and rock dam across its course and the waters rising, Mrs. McElhoo rushed to flood them. Only a short time before the area was flooded, she found them and rushed them to safety, taking a few possessions from their home.

WILD HOUSE REVOLTS ON TAX MEASURE

the leadership "Just as long as this committee and ten or fifteen Democrats on this side follow the secretary of the treasury.

"We are going to pursue this course, just as long as it is necessary to defeat this sales tax," he said.

"We don't need a leader; we have the votes." He said he would not be hardy settled back into his seat before the house adjourns out of the revenue bill a provision which would exempt from taxation money paid by Americans to foreign government in income taxes. The vote was 171 to 91.

Party Leaders Bowled Over The house quit after opponents to the sales tax had again bowled over the party leaders on a major issue of the bill. Acting Chairman Crisp of the ways and means committee, sponsor of the bill, told the house it was in no proper frame of mind to legislate and needed time to cool off. Representative Rainey, Illinois, Democratic leader, went into the well of the house and urged the members to keep order and support the bill in the interest of the country.

He contended with the assertion, however, that it was necessary to adjourn the house to bring to it the realization of what it was doing. "This house, I realize, is a runaway house," Rainey said. He added that it had "made a longer step toward communism than any other nation but Russia" in levying the high surtax yesterday.

"I will balance the budget and you'll make all these expenditures for reconstruction absolutely useless," he said.

"There is only one worse step you can take than the excessive income taxes and that is the step they took in Russia to eliminate wealth." "If you want to do that let's bring in a bill to do it courageously and not hide behind the tax bill." Representative Waightstill (D.M.C.), a leader of the opponents of the sales tax, said, "Let's adjourn and come back next week thinking sensibly and without this feeling of rebellion and get together on a program." After Doughnut concluded Crisp made a motion to adjourn but a score of members arose and demanded recognition. Garner, however, recognized Crisp and the house adjourned.

Chats With Parents

By Alice Judson Peale

A boy of 10 is afraid to go up and down the stairs alone. He lives on the third floor of an apartment house which has no elevator. Always an adult must accompany him whenever he leaves or returns to his home.

This is extremely humiliating to him. He is most unhappy about it, but, rather than go alone, he will beg the maid or the grocery boy to go with him.

He learns well at school. At home he is affectionate and obedient. Only an observant person would notice that he is trying too constantly to please, that his manner at times is anxious, hurried and uncertain.

His curious fear of going up and down stairs alone began about six months ago. At that time his parents did everything they could to dispel it. First they treated it lightly, trying to laugh it away. Then they reminded him how unreasonable it was (a thing which he himself knew only too well). They promised him a bicycle if he would go downstairs alone for a week. They asked him to tell how his fear began. They begged him to recall what had caused it. They ignored it and hoped that it would disappear.

But it did not disappear. The parents are now doing what is advisable to do in the case of such strange, morbid fears—they are sending him to a psychiatrist.

It is hoped that the doctor's trained skill will be able to unravel the subtle origins of the trouble, that he will be able to give the child such insight as he needs and effect a readjustment of the deep lying emotional difficulties behind this single symptom.

EACH SOVIET CITIZEN TOLD TO PURCHASE GAS MASK

MOSCOW (AP)—A campaign to equip every Soviet citizen with a gas mask is in full swing here in furtherance of the government's efforts to prepare the population against possible invasion.

Every state institution emphasizes to its employees that each worker should have a gas mask and, through the agency supplying them, make them available at a cost of production. One type costs \$3.00 and the other about \$5.50.

Regular instruction in the use of the mask is carried on at every factory, office and farm. Recently all Moscow tramway employees—motormen, conductors and switchmen—were the face covering for three hours, to the mocking delight of passengers in their cars.

POLISH CITIES USE CADDLES IN STRIKE USE LIGHT RATE

WARSAW (AP)—Tallow candles and old fashioned kerosene lamps have come into their own again in many Polish cities which are boycotting electricity in order to force reduced rates.

Piotrkow, near Warsaw, with some 40,000 inhabitants, was the first to start the strike. All movies were closed and the entire population returned to candles and kerosene. Tomaszow, a large factory town in the Lodz province, as well as Kalisz and Premysl have also gone on strike. Czenstochowa, with more than 100,000 inhabitants, is about to follow suit and Vilno is also considering a boycott.

Piotrkow and Kalisz, where the strike is complete, are almost in darkness.

SAILOR AGAIN QUIZZED IN KIDNAP CASE

(Continued From Page One)

window sill of the room where she slept with the Johnson's infant son. Shots were exchanged and the intruder fled. Malden was arrested and identified by both nurse and grounds keeper.

He was fingerprinted and the prints brought at once to Hopewell because of the similarity of the methods of the Lindbergh kidnap and the man at the Johnson home, both of whom raised ladders to nursery windows.

Suspected Servants Freed—In the morning bulletin from the Lindbergh house it was said that Paul and Kate Engstenberg, servants who left their place of employment in Franklin Park the day after the kidnaping, had made complete statements and had been allowed to return to their new jobs in Ardmore, Pa.

"Most of the statements they have made have been checked and found correct," said Col. H. Norman Schwarzkopf, superintendent of state police. "They are not being held in connection with the case."

"Johnson is being questioned this morning," Schwarzkopf said. "His statement indicates that he had been to Hopewell several times and it is desired to take him over the ground to verify the statement. His statistics has not changed and he is not under arrest by the New Jersey authorities of any charge but is still held on a detainer lodged against him by the immigration authorities."

Later Mr. Johnson at South Plainfield identified Malden as the man who held him up in the Johnson home Feb. 2 and escaped with about \$3000 in cash and jewelry. Johnson told police he was convinced the man who attempted to enter the nursery this morning sought to kidnap his youngest daughter.

Malden also was identified by F. M. Barr, who, with Mrs. Barr, was robbed of jewels valued at several thousand dollars Jan. 6, at their home in Woodside avenue, adjoining the Plainfield country club.

Work on New Theory—A new theory set detectives to work yesterday, as is that the abductors fooled pursuit by substituting the child for another.

The police think it possible they took the child to a family which already had one of the same age. The custodians of the Lindbergh infant would then have to send their own child away.

That is why two detectives from Newark were in Washington last night checking passport records on the chance the child may have been sent to a foreign country.

The detectives also visited Baltimore on a tip the custodians' real child may have been sent to Europe on the Baltimore Mall liner City of Baltimore, which departed for Havre the day after the kidnaping. Ten children were on the ship, the line officials said, and one was about the Lindbergh baby's age.

Meanwhile the pursuit of countless leads and tips went on. An alarm was sent out some one reported he saw three men drive through Keyport, N. J., with a hole-punched box from which cries of a baby came.

In Pocatello, Idaho, Ignace Blaustein recounted his story that he drove the automobile for the kidnapers. Two persons out of a steady stream of men and women seen to enter and leave the office of Police Captain Henry Gauthier in Jersey City were recognized as Johannes Jung, friend of Johnson, and the sailor's brother, who lives in Hartford, Conn.

They left after several hours. Police, however, refused to discuss the incident, or even to admit that Jung and Johnson were questioned.

5 to 15 Per Cent Cut In Federal Salaries Asked

WASHINGTON, Mar. 19 (AP)—A five to 15 per cent cut in salaries of all government employes above \$2000 a year was proposed Friday in a bill by Senator Connally (D., Texas).

Meanwhile, a house committee was hard at work drafting a bill for introduction in that branch to reduce government workers' pay in balancing the budget.

Chairman McDuffie said he hoped to have the measure ready Monday. He added the house appeared to favor graduated reductions from about one per cent for the smaller salaries to 20 per cent for the larger ones.

Asserting that the government is faced by the worst financial crisis for half a century, Connally proposed to cut all government salaries until June 30, 1933.

A five per cent reduction would be applied to salaries between \$2000 and \$5000; 10 per cent to those between \$5000 and \$10,000, and 15 per cent above \$10,000.
