DEALERS IN STOCKS ARE TO BE TAXED (Continued From Page One) price of stocks. A few minutes later, it adopted another amendment by the committee to put an assessment of five cents on each \$100 sale of cotton, grain and produce sold on these exchanges.

In the case of the stock sales, it voted to make the tax effective on orders placed by persons in this country for buying or selling on foreign exchanges. In debate, members construed the taxes as a blow at short selling. There still was to be acted upon an amendment to put a tax of 1-28 of one per cent on bond transactions.

The commodity and stock amendments were estimated to bring in a total of \$81,000,000, bringing to \$24,500,000 the revenue thus far written into the bill. Secretary Mills was called upon today by the house ways and means committee to submit new estimates of yields of all levies in the new revenue bill to determine whether they will be sufficient to balance the 1933 budget.

AGREE TO MAKE INQUIRY WASHINGTON, March 31 (AP)—The senate banking sub-committee is considering the Glass banking revision measure agreed unanimously today by Senator Glass (D. Va.) that an organized conspiracy exists in the banking community to defeat the legislation. No time has been fixed by the sub-committee, headed by Senator Glass, to start the investigation. The committee already has authority for the inquiry, acting under a resolution adopted more than a year ago by the senate for a study of the whole banking situation.

"We will undertake to determine," Glass said, "who instigated this concerted attack on the bill. I think it is obvious to those who heard the hearings that concert of action was taken. Witness after witness repeated textually what others had said, and I do not think it necessary to impeach every witness who testified. Some spoke their own views very candidly and honestly. One of the most intelligent witnesses told me that when he arrived in Washington to appear before the committee he was called on long distance telephone from New York and told to help defeat the bill."

The legislation will again come back to the hands of the sub-committee from the whole committee. It will be considered at a meeting next Tuesday and Glass is confident of prompt action. Some modifications will be made, he said. Because of the almost united opposition of the bankers there is considerable doubt if the legislation can get through congress this session.

Clicking Castanets At Spanish Ball To Reopen Capital's Social Season

The after-Easter society season of Washington's younger set will be launched this year with a Spanish ball. Costumes, music and a mid-night supper will lend the affair the proper air. Olga Craven (upper left), Dorothy Nicholson (upper right), Margaret Gibbons (lower left) and Frances Mathews (lower right) are members of the committee in charge of the ball.

The Japanese consular officials said they planned to protest the incident to the French authorities, using them to prevent a recurrence. They said they looked upon the incident as grave and that it illustrated that the Japanese here could not walk through the streets safely. Other official circles expressed concern lest the incident react unfavorably on the peace parleys.

RUSSIAN TROOPS CONCENTRATED TOKYO, March 31 (AP)—The war office published today an official report from Harbin which told of concentration of 30,000 Soviet Russian troops at Vladivostok and said the number has been increased steadily since last January by arrival of reinforcements from Europe.

Since the end of January, the report said, Soviet authorities have been confiscating the property of inhabitants of the Siberian maritime provinces whom they suspected of "white" tendencies. About 20,000 of these suspected "whites" have been deported to Central Siberia, it said. Heavy motorized artillery passed through the streets of Vladivostok every day, it added, and the fortifications of the Russian island at the entrance to the harbor have been strengthened by at least a dozen heavy guns. The former naval arsenal on the Russian island is also working to capacity, the report said. Citizens of Vladivostok have been compelled to participate in anti-gas drills and a new Soviet airplane has been established on Possiet Bay near the Korean border, it concluded.

RUSSIANS CONSIDER DEFENSE MOSCOW, March 31 (AP)—The third plenary meeting of the Osoaviakhim, Soviet society for civil aviation and chemical defense, had before it when it met today widely published charges that its membership of 12,000,000 is not being properly used for the defense of the country in view of increasing danger of imperialist attacks.

It also had to consider a recommendation for reconstruction of the military organization. The newspapers Izvestia and Red Star have demanded that the chief attention of the society be concentrated on military and technical training to educate the masses in aviation and chemical defense so as to increase the potential technical strength of the red army when the defense capacity of the nation.

This is not taken to mean that the Soviet's membership is likely to be summoned for active military duty, but merely that it may be reorganized so that more stress would be laid on military defense measures which, it has been charged, have been neglected heretofore because of the indifference of bureaucracy, inadequate military instructors and improper discipline.

"The Soviet government continues to maintain a policy of peace," newspaper comments said, "but the increasing menace against us makes the question of defense most important."

MORE VOTES ARE LISTED TODAY IN ROOSEVELT CAMP (Continued From Page One) Smith zero score which may soon be a solid figure, nor to the votes allocated to any other candidate. To the prediction Curry added the cryptic statement: "New York had the Democratic convention in 1924. It had a candidate in 1928. New York doesn't want to hog everything."

Newspapermen invited yesterday by Curry's unusual press conference bubbled with questions. Did this mean New York would vote for another than Roosevelt or Smith? No, said Mr. Curry, it did not. Massachusetts Roosevelt men were jubilant at having drawn top positions on the ballot for the April 26 primary, which the vital contest between Roosevelt and Smith is to be settled. On the complicated voting form, Mayor Curley of Boston calculated the top place would be worth 25,000 votes out of an expected total of 400,000 to be cast.

WASHINGTON (AP)—Strumming of guitars, flash of scarlet and yellow, moonlight silvering old adobe buildings, debutant daughters of congressmen, admirals and generals dancing the tango with their cavaliers.

Thus did the capital's smart debutants set launch the short social season immediately following Easter. Debutantes of this and several seasons past took part in a Spanish ball given March 28 at the Mayflower hotel.

Lace mantillas, high-heeled scarlet slippers and gleaming spangles are expected to contribute in making the affair one of the most spectacular social events of the season. The garden of the hotel will be transformed into a Spanish casino with gay flower boxes, striped awnings and colored chairs and tables.

Spanish bartenders will dispense soft drinks from an improvised bar. The whirl of an imitation rumba and wheel will mingle with La Paloma and airs from "Carmen," played by an orchestra attired as Spanish cavaliers. There will be a burlesque bull fight.

The habanera, a dance supposed to represent the gay spirit of the land of olives, will be interpreted by Francis Ferry and Muriel Craven of New Orleans.

Midnight supper will include highly seasoned Spanish and Mexican dishes. Miss Carolyn Hyde, daughter of the secretary of agriculture, is chairman of the young women's committee, which also includes Misses Olga Craven, Frances Mathews, Margaret Gibbons and Dorothy Nicholson.

Prizes will be given for the best costumes and best dancers. Debutantes are finding that the combination of soft lace about the face and the shoulder draping of a silken Spanish shawl are most flattering.

The "Night in Spain" will take the place this year of the polo ball, sponsored by the army, which usually opens the post-Lenten social activities. As part of the general economy program the polo ball will be omitted this year.
