

LOCAL BRIEFS

Potato Men To Meet—A meeting to discuss the Oregon potato grading and branding law will be held at the court house at Baker tomorrow afternoon at 1:30 o'clock. It was announced here today. W. L. Close, federal inspector; Haskell Andrews, deputy state inspector of La Grande, and H. H. Traub, chief potato inspector for the state department of agriculture, will attend. Arrangements have been made to have a grading demonstration so that every man will know just what constitutes No. 1's, No. 2's and culls. The meeting will be held in the basement of the court house and anyone is welcome to bring a sack or two of potatoes for grading.

Name Receiver—A. T. Hill has been appointed temporary receiver for the Carr Furniture company, which took voluntary bankruptcy earlier this week. The store will be open for payment of accounts, owing to the company but not for the sale of merchandise.

Married—Maurice Egan and Margaret Witmer, both of Boise, obtained a marriage license yesterday afternoon in the office of C. K. McCormick, county clerk, and were married by Judge L. Denham, justice of the peace.

Returns—Judge J. W. Knowles returned last night from Pendleton where he presided at a criminal trial. He returned to court. He heard the Flisk brothers enter pleas of not guilty this morning in the circuit court here, and expects to leave tomorrow morning to hold motion day in Wallowa.

Tennis Association—Petitions which will be circulated to secure prospective members for the La Grande tennis club are in the hands of George Walker, who urges members of the La Grande Tennis association to call for their petitions since speed is necessary in making new tennis courts a reality. The courts are to be built only if sufficient funds are raised.

On Business—G. W. Helm, of Portland, who has been in La Grande transacting business, left today for his home.

Returns—After spending the past two weeks in Huntington, John W. Maguire returned to La Grande today. Mr. Maguire is a retired railroad employe.

Masons—The Masonic lodge met last night and transacted the regular routine of business, with a large attendance present.

Elks to Meet—A regular business meeting has been announced by R. J. Kitchen, exalted ruler of the Elks lodge, for tonight at 8 o'clock at the temple.

On Business—W. O. Gardner, of Baker, is a business visitor in La Grande. Mr. Gardner is interested in the mining business.

Nonhuman Virtue
A naturalist reminds us that an elephant never forgets. The trouble is that elephants are not the people who borrow money.—London Humorist.

"Rock Oil"
When Europeans first came to America they found the Indians using crude petroleum as a cure for various ailments, and the settlers of New York, Pennsylvania and Ohio called it rock oil.

Tropics Not for Whites
The white man can live in the tropics, according to a scientist who made a study of the question for the Smithsonian institution, but he needs intelligence and a rigid discipline in order to do so successfully. Life in the tropics will certainly become more comfortable as well as safer for the white race, says this authority, but acclimatization in its full and literal sense is and will remain impossible.

Concerning Truth
According to the very laws of our being, the refusal to perceive truth and to act upon it, destroys our power in the future either to receive it or act upon it. The man who, seeing the truth refuses to act in accordance therewith, thereby loses his power to perceive it.—Uncle Henry, in Wallace's Farmer.

Early Coin Mutilation
Silver coins were minted in Britain in 150 B. C. The Britons filed, clipped and otherwise mutilated the coins and attempted to exchange them at face value. The practice was so general that Henry I promulgated a law whereby the mutilators lost a hand as a penalty, says a bulletin of the National Geographic society.

Plants Not Harmful
The old theory that the keeping of plants in bedrooms is harmful to sleeping human beings has no foundation in fact, since plants give off oxygen and take in carbon dioxide—the exact opposite process to that which takes place during the respiration of animals. Therefore, if plants are not so numerous as to cause heaviness in the air with their odor, they would be beneficial rather than otherwise in a bedroom.

One Pound Baby's Title As Smallest Is Disputed

No sooner had the one-pound son of Mr. and Mrs. William St. John of Kansas City apparently clinched the flyweight championship of the world than Mrs. Carl Kant, also of Kansas City, rose to challenge his rights. The tiny infant, only 14 inches long, with three-inch long arms, is fed by an eye-dropper and apparently is getting along all right. Top picture shows the father and Mrs. St. John's sister, Miss Margaret Hammer, looking at incubator in which the one-pound baby lives. Below is Mrs. Kant and her son, James Irwin Kant, 2, who weighed only three-quarters of a pound at birth. She thinks he was the smallest baby on record to survive.

Cost of Carelessness
The Post Office department expends about \$2,000,000 annually on the postal directory service, whose business it is to search city directories and other authorities in order to correct and complete improperly addressed mail.

Accounting for Falsehoods
"Most falsehoods," said H. H. Ho, the sage of Chinatown, "are due to the fact that some one has been too indolent or too timorous to ascertain the truth."—Washington Star.

"Unforgivable Sin"
The Brahmin code lists four great sins—to oppress a suppliant, to desert a wife, to rob a Brahmin, and to betray a friend. And for the last there can be no forgiveness.

One Point of View
The busier you are, the less harm you are apt to get into, and the greater will be the satisfaction of the world with you and you with yourself.

Singing Power
Tests by New York scientists have demonstrated that great singing voices are due to their owners' mental and emotional perception and not solely to their bodily abilities.

Strings in Piano
The total number of strings in a modern upright piano of 7 1/2 octaves is about 225. It is estimated that the "pull" of the strings is equal to a strain of 20 tons.

Unique "Fishing" Idea
Australians are experimenting with catching fish in large quantities by projecting electric currents through water, which stun them so they rise to the surface to be collected.

The University of Texas track team took 10 firsts in 16 events of a triangular meet with Southern Methodist and Baylor.

His Stomach Trouble Healed At Last

After suffering for nearly eight years with a bad case of stomach trouble, which finally resulted in a perforated ulcer, Mr. Eschenback, Norwood, Ohio, reports that he was completely healed by a simple home treatment. He says he had spent thousands of dollars and had undergone a surgical operation, without any permanent relief, when a friend recommended the treatment which performed a "miracle" for him, and now he wants all other sufferers to know about it.

Mr. Eschenback advises all sufferers from stomach trouble, stomach ulcers, gas pains, acidosis (excess acidity), belching, pains after eating, constipation, sour stomach, poor digestion, dyspepsia and gastritis, to send their name and address at once to Udgas, Inc., 1413 Foot-Schulze Bldg., St. Paul, Minn. This company is offering the same treatment which produced such splendid results for Mr. Eschenback, to all stomach sufferers on 15 days trial at their own risk, also a free book explaining the cause and treatment of various stomach disorders, including stomach ulcers, testimonials, a sworn affidavit of genuineness and their \$1,000.00 Reward Offer. If you suffer write today.

"You Might Call it a Peculiar Reason"

"The thing I like most about Chesterfields . . . is the neat way they're made. It may sound fussy . . . probably does . . . but I just can't bear to get little crumbs of tobacco in my mouth.

"I never really enjoyed smoking until I discovered Chesterfields. Perhaps you have noticed how nicely they're filled. Every one of them is rolled just right.

"And do you know . . . the more I smoke Chesterfields, the better I like the taste. It's not raw . . . and it's not over-sweet. It's just sweet enough so that you never tire of it. I find Chesterfields are really milder, too!"
