

LOSTINE PERSONALS

By Mrs. William Wiggins

LOSTINE (Special)—Robert and Norman Smith, of Spokane, were guests last week at the home of Mr. and Mrs. James Read and family.

Connie Pearce entertained about 30 of her small friends at a birthday party Wednesday afternoon. Mrs. Bessie Loyd assisted Mrs. Pearce with the little folks. A lovely lunch was served. Connie is nine years old.

Mrs. Myrtle Whitmore entertained her bridge club Wednesday afternoon, together with a few friends who came in to help her celebrate her birthday anniversary. A lovely lunch was served and a happy afternoon spent.

Only three weeks more of school are left and the students are making the best efforts possible to make good grades. Much good work has been done during the past term.

Among the Lostine women who attended the shower given Mrs. Oscar Kite by her Joseph friends were Mrs. Harry Biedler and daughters, Zelma and Ione, Mrs. Mary Downs, Mrs. Bessie Loyd, Mrs. Sanford Chapman, Mrs. Howard Williams and the Misses Bertha and Wythel Downs and Beulah Magill.

A meeting was held Saturday evening to see whether the Christian church building which was recently destroyed by fire should be replaced, or not. Mrs. Mary McCubben, who gave the property and building to the church, was present. A vote was taken and the proposition was carried by a large margin. Oliver Wood was given the contract to build a church 30 by 50 feet with full basement for the sum of \$1094. This is thought to be much better as it can be built on when necessary. A plan lawn will be laid out on the church will be set back about 30 feet from the street.

The Civilian Rifle and Gun club met Tuesday evening at the office of Fred Edwards. The meeting was called to outline the summer activities and also to consider plans for building a clubhouse on their rifle range.

Mrs. Bill Laird, of Enterprise, was a guest of Mrs. Lee Hammack Saturday.

Lostine is taking a decidedly cleaner appearance as Monday was clean-up day and the city hauled the rubbish off and with the appearance of several new fences the town looks much neater. Mrs. Anna Nolan is beautifying her place by putting in

a new wire fence.

Rev. Mr. Williams, Presbyterian minister of Elgin, and his family were at Lostine Sunday evening. Mr. Williams occupying the Presbyterian pulpit. He will have charge of the churches at Elgin, Wallawa and Lostine during the coming years.

Lostine is justly proud of the young people who took part in the musical tournament at La Grande. It is the only school that came back with the cup won last year and if they win it again next year, it will become the permanent property of the Lostine high school.

O. J. Foley and Clarence Allen went to Enterprise Sunday to see the county engineer about moving dirt from the church basement site. As they are building a grade across the river it is thought the material excavated could be used there.

Kirk Maxwell, of Wallawa, was painfully injured while at work for the railroad company loading lumber at Minam. A window which they were using got out of control and the handle hit Mr. Maxwell in the face.

Joe Caudie and Charles Knouse were honored guests at a birthday party at the home of Mr. and Mrs. Charles Knouse Sunday evening. Bright was the diversion of the evening. Refreshments of ice cream and angel cake were served.

Mr. and Mrs. C. M. Goldberry, of Turlock, Cal., arrived last Friday for an indefinite stay with their daughter, Mrs. Deane Crow and family. They were taken out to see the Joseph Creek canyon and will visit other places of interest while here.

William Bomer, of Parma, Idaho, spent last week visiting his son, Edsel Bright.

Mrs. Jennie Gildersleeve returned this week from a visit with friends in La Grande.

Mr. and Mrs. Arch Willett and Mr. and Mrs. Maurice Willett, of La Grande are spending several days with friends in and around Lostine.

James Norton, of Portland, was a guest last week of Mr. and Mrs. W. B. Hunter.

L. A. Stringham, who is to operate the line plant, discovered when he went to the plant Friday morning that the place had been visited and a number of tools were missing. He at once notified the sheriff and also visited a second hand store where he found some of the tools had been left for sale. It is reported that the burglar took flight and returned most of the goods Saturday night and tried to get those left at the store but the sheriff had taken them. The suspected person immediately left town. It is reported that Mrs. Joe Caudie, Mrs. Sadie Hall, Mrs. M. Crow, Mrs. M. S. Crow and

Empire Holding Officers Paid \$7500 For Stock

DALLAS, Apr. 21 (AP)—Five ex-officers of the Empire Holding company, all of whom are under indictment of devising a scheme to defraud, paid only \$7500 into the company for the \$20,000 stock each had subscribed and none a cent prior to November 14, 1930. T. H. Carstensen, accountant of Portland, testified Wednesday at the trial of Frank J. Keller Jr., the first of the ex-officers to face a jury.

Of those who had subscribed for the \$20,000 stock necessary to become a director, Dave Shambrook of Roseburg, was the only one to pay the amount in full in cash and securities while W. B. Bailey of Portland had put in \$10,000 in mortgages, he said.

Three others who had qualified for officers or directors upon payment of \$5000, the down payment, were Dr. W. R. Clancy, Medford; A. E. Olla, Portland and Dr. C. L. Ogle, Grants Pass, the witness said. O. P. Coshov, president and one of the defendants, had paid in \$2000 in cash with credit on salary and commissions amounting to \$7845; L. H. Petty, paid \$1500 cash and had \$5000 applied; Dr. W. R. Adams, \$2000 cash, had \$3000 applied; Frank J. Keller Jr., \$2000 cash and \$5000 and Jay Stockman, paid in nothing with \$5,000 applied. Only George Robinson, salesman, E. Martin Adams and George T. Cochran, La Grande; H. M. Dagg, Seattle; Dr. Wm. H. Dale, Eugene; W. C. Hagerty, McMinnville; S. A. Hull, Portland; Sam A. Koster, Portland; C. L. McKay, salesman; Joe Vellmer, Portland; B. L. Swetzer, Seattle and R. Alfred Peacock, Marshfield, Jos. Vollmer, Portland, had received credits for \$479, C. J. Stancov, doctor, had paid \$309 and D. T. Sleep, Ontario, \$25.

Carstensen's testimony refuted that of previous witnesses who stated they were told by salesman or officers of the Empire Holding that no salaries were to be paid until the subsidiary companies were going concerns. In addition to various credits, the ledger of Frank Keller Jr. showed that from June 30 to October 31 he had been paid monthly salaries of \$833 and with commissions and other credits had received a total of \$9224. The audit showed that \$9024 had been placed in his personal account and charged against salaries.

Chats With Parents

SUDDEN CHANGES

By Alice Johnson Peale

Whenever a child's attitude undergoes a sudden change of an undesirable sort it is important to discover what has back of it.

The sunny, friendly child who becomes suddenly sullen and withdrawn, the serene, good tempered one who develops a bad disposition over night, the kindly, generous one who all at once shows traits of meanness and cruelty, each indicates that he has met some difficulty that he cannot overcome without understanding and help.

Such sudden changes show that something has happened which has thrown the child into a state of conflict.

Among the things which most commonly bring about such distressing changes are:

Over-harsh punishment and prolonged disapproval. These cause the child to feel that he has been unjustly dealt with and that he is not loved.

An exaggerated sense of guilt and inferiority—most usually the result of the child's being too deeply impressed with his own wrong-doings.

This particular feeling is often directly caused by the parents' expressions of moral horror at some manifestation of the child's sex interest.

A change in regime. A new nurse unskilled in her work, gives the child a great deal of trouble and subjects him to constant, petty nagging and corrections.

Parents under the pressure of worry become suddenly nervous, impatient, irritable.

Jealousy. A baby brother enters the family picture or a little cousin comes to visit and the parents make a great fuss over him. Such events often awaken jealousy and the meanness and cruelty frequently associated with it.

Health

IRREGULAR TEETH

In order that the mouth may be most efficient as an organ it is essential not only that the teeth be sound and free from decay, but also that the teeth be spaced properly and in correct relationship.

This state of perfection is unfortunately rarely seen. A truly perfect mouth is indeed a rare prize. Precisely what causes irregularity in the position and relation of the teeth still remains largely unknown. Heredity determines the shape and spacioussness of the upper and lower jaws, as well as the size of the teeth, and thus sets both the limits of the space available and what is to be gotten into that space. Frequently the two do not correspond.

A good diet, that is, one containing a sufficiency of vitamins and mineral salts, as well as an adequate and balanced supply of proteins, fats and starches, will go far toward insuring proper development of the body and the teeth.

Adequate care of the temporary or milk teeth is another factor which acts in the position of the permanent teeth.

Neglect of the temporary teeth, under the impression that they are not worth being cared for since they are to be shed, may cause their premature loss and a disturbance in the space relationship of any teeth that remain.

If a temporary tooth must be extracted, a retainer should be placed in the resulting empty space to keep the other teeth from moving out of place.

The child whose temporary teeth are irregular should be taken to the dentist for examination and treatment.

This precaution and what may be justly called prophylactic treatment will repay in trouble and money saved many times the initial investment.

A mouthful of irregular teeth not only means an invitation to decay or pyorrhea, but also a misshapen face and speech impediments.

SPRING TOGS BORROW NECKTIE PATTERNS

PARIS (AP)—Fashion has borrowed monsieur's necktie silk for madame's spring togs. A number of one-piece utilitarian dresses are made of cravat silk, and these are also fashioned of the necktie patterns.

MEADOW HARVEST BUTTER

"A 100 Per Cent Home Product"

This famous butter is the best buy on the food market today. Made from highest grade cream, its quality is assured, and the price is low because you pay no transportation charges. Patronize your home industries.
