RECORD FALLS TODAY IN PENN RELAYS

Chinese Rebels Threaten Tunhua, 140 Jap Citizens

TOKYO, Apr. 29 (AP)—A dispatch to the Renjo news agency from Changchun, the Manchurian capital, today said 1000 Chinese rebels were threatening the city of Tunhua where 140 Japanese citizens had taken refuge.

A detachment of Japanese troops also was reported to have left Kirin this morning and encountered a force of rebels in a sharp battle which followed the Japanese lost five dead and five wounded.

The rebels burned down two wooden bridges on the Kirinunhua branch of the railway, one at Eritsaho and the other at Chiaohe.

200 REBELS SLAIN

TOKYO, Apr. 29 (AP)—The two-day battle between General Murai's brigade of Japanese troops and Chinese rebels, in which 200 rebels were killed without decisive advantage to either side, has been fought near Hallin, Manchuria, Japanese dispatches from Harbin said today.

The battle continued all Wednesday night and Thursday morning, the Renjo news agency reported, with the Japanese holding their strongly entrenched position.

Correspondents of local newspapers, as well as the Renjo agency, said the insurgents apparently attempted to break through the Japanese lines reported to be using improvised tanks, constructed on motor trucks.

SPORT FINALS

MCCUSKEY SETS NEW MARK—FRANKLIN FIELD, Philadelphia, Apr. 29 (AP)—Joe McCuskey, stout-hearted young Fordham runner today broke his own Penn relays carnival record with the finest steep-chase performance ever exhibited in this country. He covered the 600 yard water obstacle route in 9 minutes, 28.6 seconds in the feature race.

McCuskey came from behind on the last lap after apparently being whipped by outstanding two other rivals, C. Watson of Indiana. The Fordham star won by 50 yards as his rival stumbled and failed to clear the last water jump.

McCuskey's time compared favorably with the Olympic record of 9:21 4-5. It was nearly 9 seconds faster than his own time of 9:37, made in last year's carnival and stamped the New York boy as a formidable candidate for Olympic honors this year.

MUNSTER WINS DEATHBOWL—George Munster, of Pennsylvania, with a strong finish won the death-bowl by a clear-cut margin from Joseph Minger captured three of the ten events and tied for the best performance in one other. Hall slumped after leading for seven events, C. H. Saxe, Colgate, finished third and Henry Pohl, Delaware, fourth.

The final point tabulation in the death-bowl:

Hall	7:057.8625.
Saxe	6:730.519.
Pohl	5:928.9015.

The winner's total was more than 400 points short of the carnival record set last year by Barney Berlinger of Penn.

STATE HIGHWAY BONDS BOUGHT AT ABOVE PAR

PORTLAND, Ore., Apr. 29 (AP)—A \$97,000 block of Oregon state highway bonds brought a premium price here Thursday when the highway commission awarded bids on \$170,000 worth of securities. The First National bank of Portland paid a premium of \$170 to take the \$97,000 block, and won the award on an additional \$54,000 block at par.

Other successful bidders were Bank of California \$5,000; J. D. Leonard, Portland, \$4,000; M. L. Folsom, Portland, \$1,000; and Blankenship, Gould & Keeler, Portland, \$11,000.

CHILDREN TO PARTICIPATE IN FESTIVAL

A spring music festival will be presented by the children of the J. H. Ackerman Training school Wednesday, May 4 at 10 o'clock in the Eastern Oregon Normal school auditorium. The prologue of the festival is taken from the Greek myth, "Demeter and Persephone."

Persephone is the daughter of Demeter, the goddess of the spring. Persephone loves the flowers and plays with her companions among them. Pluto, king of the underworld, spies Persephone and carries her off with him to his realm, after which Demeter causes the flowers and trees to wither, to show anger over the loss of her daughter. She pleads with Zeus for the return of her daughter and Zeus sends Hermes, the messenger of the gods, to the underworld to bring Persephone back. For each mouthful she has eaten, Persephone will spend one month of each year in the underworld. Persephone eats six pomegranate seeds according to the Greeks, when Persephone returns to her mother she brings back life to the earth, the coming of spring.

The children will present their music, poetry and dance to Demeter as she reigns over the season of spring. The festival will be closed with a Maypole dance and song.

DIGEST POLL SHOWS ONLY 2 STATES "DRY"

Seventy-three voters out of every hundred in the division of the eighth amendment as evidenced by the final figures in The Literary Digest's nationwide prohibition poll, which will be published in the magazine tomorrow.

A total of 4,668,537 ballots were returned and counted in this "straw" referendum. The division of the final figures shows 2,668,660, or 24.49 per cent, voting for continuance of the prohibition amendment and 3,431,877, or 75.51 per cent, favoring repeal.

Kansas and North Carolina are the only two states giving a clear majority for prohibition, Kansas voting dry by a majority of 397 votes and North Carolina voting dry by a majority of 68 votes out of a total of 64,790 ballots returned.

The wettest section of the United States as evidenced by the returns in this poll is the group of states from the Mississippi river east to the Atlantic with the exception of Missouri, Louisiana, and Florida, which three states register higher wet majorities.

The balance of the Middle Western states show a sentiment wetter than the Southern group but considerably drier than the Northeastern section of the country.

The Rocky Mountain states show a collective vote slightly less wet than the country at large while the Pacific Coast states give a majority for repeal higher than the national total.

COALITION MAKES READY

WASHINGTON, April 29 (AP)—Carbonated waters, unfermented fruit juices, grape concentrates and brewer's wort were given increased tax rates today by the senate finance committee in revising the house revenue bill.

Cereal beverages was the only product in beverages to get any reduction. The committee cut down this tax from two cents to one and one quarter cent a gallon.

The oil-coal-copper-lumber tariff coalition was gathering its forces for a final fight on the senate floor to restore tariff items to the revenue bill. Oil, coal and copper were rejected yesterday by the committee.

Thomas Vules Threat

Senator Thomas (D., Okla.) made the open threat to veto the revenue bill today unless the oil tariff is restored to the bill by the senate "we'll be here until late fall."

The tax on grape concentrates, after the finished products are bottled in syrup, was changed from 40 per cent ad valorem to 46 cents a gallon.

TEN PLAYERS VICTORIOUS

WASHINGTON, Apr. 29 (AP)—With Mrs. Herbert Hoover and other notables in the gallery, America won its Davis cup tennis series with Cuba today with a smashing doubles victory by John Van Eyn and Wilmer Allison over Dr. Jack Wright and M. Rainville, 6-2, 6-1, 6-2.

FIRE IN PORTLAND

PORTLAND, Apr. 29 (AP)—Ten thousand dollars damage was caused by a fire here last night which broke out in a second street clothing store and spread to an electrical supply company and a malt shop. Occupants of a rooming house on the top floor of the two-story building were routed by heavy smoke. All firefighting equipment of the west side was called out.

FIERY SLAP IS TAKEN AT DEMO. HEADS

He said he would vote for a Republican candidate favoring limitations on swollen incomes, over a Democratic candidate with the views of Mr. McLaughlin.

When his resignation from the committee on naval affairs, manufactures, commerce and inter-oceanic commerce had been read, Mr. Long demanded in a great shout:

"There has got to be another leadership responsible to the American people in the Democratic party in this country. It may take two or four or six years, but there's got to be another leadership."

"The people know that can't get through a Republican party," Long said. "They have no hope of prosperity through victory at the polls of the Republican party."

"The only remedy and their only salvation is from the Democratic party. And here we have a Democratic leadership in the house and senate that is coming out for the sales tax instead of laying taxes on Baruch, Rockefeller and the like."

Long's ire was aroused by an announcement from Robinson today that the majority would support a resolution offered by the Louisiana senator to instruct the finance committee in drafting the tax bill to limit incomes to \$1,000,000 a year and all inheritances to \$5,000,000 in a lifetime.

Long became very red in the face as he waved his arms wildly about and shouted at the top of his voice. As usual when he speaks, many of the Louisiana representatives were seated in the rear of the chamber listening to the man who is virtual party dictator in his state.

Senator Robinson sat silently in his seat in the front row as the new Louisiana senator, in shouting voice, assailed his leadership. There was a distinct frown on the Democratic

He suggested that if a candidate for the House-Labor party representing his views on redistribution of wealth faced a candidate like Robinson in the fall presidential election, he would vote for the Farmer-Laborite.

CARRIER BOYS BEGIN WORK ON SPRING CONTEST

(Continued from Page One)

ment of the contest it should be explained that the boys have something of real value to sell. The Observer supplies all the news of La Grande and surrounding territory, plus last-minute news of all week events. In the Evening Observer you read most of the news the same day it happens—twelve hours before you see it in any metropolitan paper.

The Observer has never reduced its volume of news and feature material in spite of decreased advertising on the contrary many improvements and additions have been made, and now the Observer is demonstrating its faith in La Grande by announcing its policy of publishing at least eight pages every day from now on. No more six-page papers!

In addition to all the features which have been running regularly, such as sports stories and cartoon, and sport cartoons, J. R. Williams' "Out Our Way" cartoons, "The Newfangles," "Freckles and His Friends," the "series" Washington news stories, and menus, we have recently added a daily cross-word puzzle, and the "Tynettes" cartoon for children, and new features will be added from time to time.

The courteous news is henceforth to be greatly increased and will include announcements of marriages, recording of deeds and mortgages, the granting of divorces, and the results of civil law cases and all other items of public interest. The value of the Observer to both readers and advertisers will thus be greatly increased and new significance will be given to the already appropriate phrase, "Eastern Oregon's Leading Newspaper."

Dana Leaves On Trip To Eastern, Central Oregon

PORTLAND, Ore., Apr. 29—Merrill Dana, Democratic candidate for U. S. senator, yesterday began a coast-to-coast drive for votes in Oregon. He started on a swing through the central and eastern parts of the state and will address meetings in towns as far east as Nyssa, Vale and Ontario and will conclude in Hood River.

Dana has received much support, not only in Portland, but in the farming sections of the state. During the past few days he has addressed overflow crowds in the Willamette valley section as well as in Washington county. At Yamhill and other points voters were turned away because of lack of accommodation, reports say.

BAILEY CONCLUDES TOUR

PORTLAND, Ore., Apr. 29—Local politics, with its keen rivalry for every lucrative local office, is eclipsing national and state politics in all localities of Oregon, according to Senator J. O. Bailey, candidate for the state supreme court, who has just returned from a tour of the state.

Mr. Bailey, who is 51 years old and from 15 to 20 years younger than his opponents, carried his campaign for the election of younger, more vigorous and progressive judges to many districts of the state. In a 1700 mile automobile tour Senator Bailey discussed public affairs with the residents of Eastern and Southern Oregon.

JURY REPORT NOT RECEIVED IN HONOLULU

(Continued from Page One)

found nothing significant in it. Thereafter the jurors could be seen from a distance going to and fro in the room and moving to and from the balcony, but they exhibited no signs of heated debate and generally leaned listlessly against the balcony rail.

Late in the day Montgomery Winn, defense counsel, expressed the belief that the jurors were standing either eleven to one or ten to two for the defense and suggested to Public Prosecutor John W. Kelley that he agree to a verdict on that basis. Kelley rejected it flatly.

Based on His Belief

Subsequently it was understood Winn's statement regarding the halting was first based on definite information but rather on his belief that a majority of the jurors were favoring the defendants.

Kelley said he had learned the result of the first ballot but he declined to share his information with newspaper men.

At 10 o'clock last night, when they retired, the jurors had been out approximately 30 hours without having given any sign of nearing an agreement and without having asked any advice from Circuit Judge Charles S. Davis.
