Many Assist In Health Round-Up Held On Monday

More than 100 pre-school children, who will enter the public schools next fall were examined at the three buildings used for the free clinic, sponsored by the parent teacher associations of the county, yesterday morning, according to those in charge. La Grande City Council of Parent Teacher associations today expressed appreciation of the co-operation of the doctors who assisted with the clinic, and the members of the various P. T. A. groups in the city whose efforts made the clinic successful.

Ely Culbertson Announces New Code on Contract

NEW YORK, May 3 (AP)—Ely Culbertson has announced that a new international contract bridge code to inflict sharper penalties on non-vulnerable sets probably will be in effect by early fall.

The new system has been tentatively approved by the card committee of the Whist club, which is the official lawmaking body for bridge in America. It is next to be submitted to the card committee of the Portland club in London.

In outlining the proposed new code before a convention of Culbertson teachers at the Waldorf-Astoria, Culbertson warned that it should not be taught until both committees have approved it.

Charles A. Hill, chairman of the card committee of the Portland club, and A. Carson Roberts, also a member of the Portland card committee, are in New York for conferences on the code. They will be dinner guests tonight of Charles M. Schwab, president of the Whist club.

The present penalty of 50 points for set of one trick, undoubted and non-vulnerable will be unchanged, but the second, third and fourth undertricks will cost 300 points each. Under the present code the undoubted, non-vulnerable set of six tricks costs the declarer 300 points. Under the proposed new code it would cost 750 points.

Bridge experts said adoption of the new code would virtually eliminate psychic bidding. Harold S. Vanderbilt, author of the present scoring method, is credited with proposal of the new code. He is a member of the Whist club card committee.

Good looks aren't always luck

Sparkling eyes and a smooth complexion depend on good health. The beautiful woman guards against constipation. She knows this condition can cause headaches, sallow skin, dull eyes, pimples, premature aging.

Protect yourself from constipation by eating a delicious cereal. Tests show Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and Vitamin B to tone the intestinal tract. In addition, ALL-BRAN furnishes blood-building iron. The "bulk" in ALL-BRAN is similar to that of lettuce. Within the body, it forms a soft mass, which gently clears the intestines of wastes. How much safer than pills and drugs—so often habit-forming.

Two tablespoonsful daily—in serious cases, with every meal—will correct most types of constipation. If your trouble is not relieved in this way, see your doctor.

Serve as a cereal, with milk or cream, or use in cooking. At all grocers. In the red-and-green package. Made by Kellogg in Battle Creek.

HELPS KEEP YOU FIT

DO YOU INHALE?

Why is this vital question so much avoided by other cigarettes?

EVER since Lucky Strike created that special process for purifying fine tobacco and told the full facts about cigarette smoking—the industry has been in an uproar. For Lucky Strike has dared to mention things that were considered "taboo" in the cigarette trade. You may have noticed a striking avoidance generally of the word "inhale" in cigarette advertising. Why? Goodness only knows! For everybody inhales—knowingly or unknowingly! Every smoker breathes in some part of the smoke he or she draws out of a cigarette. That's why it's all-important to be certain

that your cigarette smoke is pure and clean—to be sure you don't inhale certain impurities. Do you inhale? Lucky Strike has dared to raise this vital question—for it gives you the protection you want... because certain impurities concealed in even the finest, mildest tobacco leaves are removed by Luckies' famous purifying process.
