If you think that the surgeon's knife is the only method of escape from the misery of piles, it's because you haven't heard of the new remedy known as Dr. Lehnhardt's HEM-ROID. The Doctor's prescription is a quick acting yet harmless internal medicine. Newark in August and September of 1928. Must Perfect "Rough Draft" Garner said the printed measure approved by the Democratic conference yesterday was "a rough draft, which will have to be perfected," and that many of the items carried in it would have to be eliminated.

Many things in the bill will have to be cut out, while many other items will have to be inserted," Garner said. "We compiled them from reports of the army engineers and the inter-departmental committee, recommending them. We find that many projects have already been undertaken while others need to be undertaken."

Reasons Plan as Sound "The reason our plan is sound is because it carries a tax of one-fourth of one cent a gallon on gasoline to meet the sinking fund requirements and interest on any bond issue necessary for the billion dollar construction program," Garner asserted.

Other relief proposals in another branch of this congress do not provide a means of meeting the interest on the sinking fund. Our bill is the only one thus far presented that carries that necessary provision."

Garner estimated the return from the gasoline levy at \$42,500,000 which, he added, "will be more than enough to meet the interest and which will not disturb the budget, but help it if anything toward becoming balanced."

MILLS IN OPPOSITION WASHINGTON, May 27 (AP)—On behalf of the administration, Secretary Mills last night pronounced absolute opposition to any big public works program and any new bond issues.

His reply to an employment plan recently proposed by Alfred E. Smith, but by coincidence or otherwise Mills' words came out just as Speaker Garner was making public his detailed plan for bond-financed construction of hundreds of federal buildings, miles of roads and waterways.

Garner To Testify Acting Chairman Crisp said Speaker Garner would be the first witness to testify before the ways and means committee in behalf of the relief bill.

This will be the first time Garner has gone before a committee in congress. It will be the first time he has ever testified before the ways and means committee of which he was a member for nearly a quarter of a century.

Garner was the ranking Democrat on the group before he assumed the speakership of the house last December.

As plans went ahead for expediting the legislation, Speaker Garner told newspapermen President Hoover had approved public works construction to relieve unemployment along the line of his \$2,147,000,000 relief bill.

Speeches made by the chief executive in 1928 urging a billion dollar program were recalled by the speaker and he quoted from Mr. Hoover's speech of acceptance at Palo Alto and his later address at

REED BLOCKS VOTE WASHINGTON, May 27 (AP)—Senator Reed (R., Penna.) blocked an attempt in the senate to obtain an agreement to vote on farm relief legislation before the adjournment of congress.

Senator Nye (R., N. D.) asked for an agreement that the senate would not adjourn until it had voted on the McNary omnibus relief bill and the Frazier reforestation measure.

Reed objected, saying "I don't think any senator has a right to ask for such an agreement for a single measure, when the senate calendar is clogged with legislation."
