

Many Tourists Coming

1,500,000 TO VISIT STATE THIS SUMMER

This is Belief of J. E. Shelton, Manager of Oregon Motor Association.

MEETING IS HELD WITH LOCAL MEN

Oregon's Problem is to Keep Visiting Motorists in State For Longer Period of Time.

Speaking at a meeting of about 30 La Grande business men, J. E. Shelton, state manager of the Oregon Motor Association, said today that the largest tourist travel ever experienced in this state appeared in store this summer. He predicted that a total of 1,500,000 motorists from out-of-state points would be Oregon's guests during 1932.

Mr. Shelton was here with Charles S. Gunther, sales manager of the association, in an effort to promote local interest in proper handling of the tourist problem. The luncheon meeting, presided over by Harry McKinlay, president of the La Grande chamber of commerce, was held at the La Grande hotel.

Heavy Income Likely

Mr. Shelton gave as his reason for expecting such a large visitation of tourists, the fact that several conventions, including the national American Legion convention, will attract additional thousands of people to this state; coupled with the fact that a great deal of national advertising is being done, especially in view of the fact that with the Olympic games in Los Angeles attracting many people west, with many of them making a loop trip and visiting this state either on route to or going home from the California city.

The speaker declares that a government survey this year showed that Oregon at present receives more tourists than any of the other western states. "We don't keep them like California does," he said, adding that Oregon was overlooking a great opportunity.

The present urge is to attempt to keep the tourists in Oregon for a longer period of time, through interesting the visitors in local points that offer either scenery, recreational facilities or something of historical interest. Mr. Shelton advised stressing the historical angle particularly. He

Library Board Appointments To Be Made June 8

Terms of two members of the library board, J. T. Longfellow and Mrs. J. K. Charlton, expired yesterday but the city commission did not take any action on the matter last night. It was decided at the weekly executive meeting that the question of appointments would be taken up next Wednesday night.

City Recorder J. E. Stearns stated that the school board had paid improvement liens, etc. and that if the warrants were converted into cash, a two per cent loss would result. He asked for authority to open an account on "warrants" receivable whereby the city could hold the warrants until it could realize par. Commissioner V. R. Melville suggested that the matter be held in abeyance for a week during which time an attempt be made to sell the warrants at par, but a few minutes later a motion put by Commissioner Fritz Loties, was passed providing for the opening of the account Mr. Stearns requested.

The salary list for May, amounting to \$5230.76, was ordered paid by warrant, and two letters, urging that the city be represented at the state fire chiefs' convention and a fire fighting school, were placed on file.

City Manager A. McAllister's report showed cash on hand at \$16,790.82, of which \$18,360.55 was in the First National bank.

By Leslie J. Smith
(Associated Press Staff Writer)

PORTLAND, Ore., June 2 (AP)—Individual responsibility will be the single factor in determining the presidential candidate for whom members of the Oregon delegation to the national Republican convention cast their votes. The delegation refuses to be bound by resolutions committing the group to one unalterable course of action.

"This was decided informally at a formal meeting of the Republican delegation here last night at which Russell Hawkins, Portland lumberman and delegate at large, was elected permanent chairman by acclamation.

The outcome, then, is expected to be that after one, or possibly two formal united ballots for Dr. Joseph Irwin France, of Maryland, who won the Oregon presidential preference vote unopposed, at least ten of Oregon's thirteen delegates will swing to President Hoover's support.

Hoover's name did not appear on the Oregon ballot although there was a substantial write-in vote for him. William A. Carter, Portland attorney

CHICAGO, June 2 (AP)—A millionaire who denied himself the luxuries of his net worth of \$41 million for hundreds of poor Chicago school children protested today that his philanthropy was "nothing."

Hawley Relief Bills Filed

Thank Goodness For One Law That Works, Anyway!

WASHINGTON, June 2 (AP)—An administration relief program was put before congress today while two cabinet members were assailing the public works phases of Democratic measures before senate and house committees.

Representative Hawley (R., Ore.) introduced the administration measures which he said were drafted along the lines suggested by the president in his speech to the senate a few days ago.

At about the same time, the program was being explained to the senate banking committee by Secretary Mills during his attack upon the proposed bond issue for public works carried by the Democratic program.

Would Provide Loans to State, More Borrowing Power to Reconstruction Corporation.

WASHINGTON, June 2 (AP)—The administration program called for \$300,000,000 for relief loans to states and \$1,500,000,000 more borrowing power for the reconstruction corporation for loans on self liquidating projects.

The treasury head said the Democratic proposal for a bond issue would "unbalance" the budget.

Both he and Secretary Hurley, who was appearing at the same time before the house ways and means committee in opposition to a bond issue for public works, said the huge expenditures involved would give comparatively little aid to unemployment.

Hurley said he was "unalterably opposed" to the section of the Democratic bill providing \$100,000,000 for direct relief to the distressed.

Speaks Against Dole
"When we have seen mighty empires driven to need by debt, I think it should be a warning to us to stay away from such a principle," Hurley said. "I think it is contrary to the principle on which America was founded."

The substitute bill offered to the senate committee by Mills for regulating the loans to states for relief provided:

Loans to states by the purchase of their bonds.

Advances to states which are provided by their constitutions from borrowing on assurance of their governors that reasonable effort will be made to provide for repayment.

Withholding of future federal aid funds if the states don't repay.

The plan was outlined by Mills before the senate banking committee. He approved sections of the Demo-

KENNEWICK, Wash., June 2 (AP)—A story of seeing their three sons, Donald, 23; Leroy, 14, and Lagrande, 11, burn to death in their ranch home in the isolated Horse Heaven district, was told officers here today by Mr. and Mrs. John Franklin.

The father received bad facial burns. The parents walked a mile to the nearest neighbor, who brought them here.

Poling Leaves Allied Forces

Resigns as Chairman; Makes Prediction on G. O. P. Plank on Prohibition

NEW YORK, June 2 (AP)—In a statement issued just prior to an announcement of his resignation as chairman of the Allied Forces For Prohibition, Dr. Daniel A. Poling predicted today the Republican party would go farther this year in a plank for solution of the wet and dry problem than it did in 1928.

He thought the Republican party "too political minded" to adopt any plank calling for submission of a proposition for repeal, but he said he would be glad to see a test based on the Haskok plan, for he believed it could be easily defeated by the dry forces.

16,160 Head Of Stock To Run On Whitman Forest

BAKER, Ore., June 2 (Special)—Applications for permits to graze 16,160 cattle and 160 horses on the ranges in the Whitman national forest this year have been approved by forest officials.

Some of the stock has already entered the lower elevation ranges on the forest. The remainder will enter during June.

The cattle and horses are owned by individuals living on stock ranches surrounding the Minam and Blue mountain divisions of the forest. Most of the owners are located mainly in Baker, Union and Grant counties.

The total fees to be charged this year on cattle and horses will be \$7000, representing one-half of the usual grazing fees. The first half of the fees has been waived this year by the secretary of agriculture because of economic conditions.

Due to insufficient range and the lack of qualifications of applicants the forest service disapproved permits for the grazing of 1700 cattle. It requires from 25 to 40 acres per head for cattle or horses during the grazing period. Most of the animals are on the forest from June 11 to October 15.

Dr. Poling's resignation was announced at a luncheon in his honor. It is effective June 6 and it came as no surprise, since he had set June 5, 1932, as a retirement date when he became chairman in May, 1931. He said his regular activities had been neglected.

"Any plank dealing with the eighteenth amendment, which does not first declare for the enforcement of law and for loyalty to the constitution would be entirely inadequate," he said.

"Lawlessness has challenged our civilization. America must meet the

Russian Attempt To Land Arms Fails

LONDON, June 2 (AP)—A Russian attempt to land arms in Southern Ireland for the Irish Republican army, the Daily Express said today, was thwarted by the British navy over the past weekend.

The arms, the paper said, were intended to be used by the Republican forces, who were placed under the ban of the government during the previous regime of President Cosgrave of the Free State, in the event of a conflict between the Free State and Ulster.

The tramp steamer, carrying the arms, it said, were warned by radio of the activity of British warships which set out to head them off at Irish ports and they returned to the foreign ports where they were chartered without being able to land the fighting equipment.
