Empire Parley To See Barter For Trade Again

LONDON, June 23 (AP)— Most of the British dominions will take axes with them to Ottawa in July to grind on the imperial grindstone.

Granted statutory equality with the motherland only this year, they meet with Britain prepared to barter preferences for their own exports of primary articles.

To a smaller extent the dominions look to each other for development of mutual markets. But broadly speaking all the dominions are net exporters of primary materials, and net importers of manufactured goods.

In return, already existing preferences on iron and steel manufactures and textiles might be increased—presumably to the particular detriment of the United States.

Guard Other Markets— Australia already has a market for her wool. An empire meat quota by which Australia would benefit may be asked, but in view of Britain's stake in the Argentine, this is doubtful of attainment.

But Australia feels that an empire market for its dairy produce and fruit should be relatively easy of adjustment, says J. G. Lathan, deputy leader in the new Canberra government.

Alone among the dominions South Africa would not seem to have much to gain from Ottawa. There is already ample market for South African wool. South African maize is admitted into England free, but so too is maize from Argentina, and a tariff against Argentine maize is most improbable.

A preference on fruits might be of some use, but if gained at the expense of a South African preference on manufactures which South Africa is attempting to produce herself or buys more cheaply from the United States, the price may be too high.

Forced to Kill One of Elk Herd At Wallowa Lake

By Mrs. Maida Stevenson (Observer Correspondent) JOSEPH (Special)— For some time one of the bull elk from the lake insisted on leaving his herd and pasturing in fields and gardens and near town, so it was decided to have him killed.

Imbler Voters Elect Milo Pratt School Director

By Mrs. Ray Wilson (Observer Correspondent) IMBLER (Special)— Much interest was shown here in the annual school election last Monday. Milo Pratt was re-elected director for a term of three years, defeating Oscar Howell 38-26.

Leonard Billings was re-elected clerk without opposition.

Max York, Elton Prizzell and Howard Wilson returned Monday from a two weeks trip through the state of Washington with Prof. Harry Johnson of the high school faculty.

They had a large trailer on which was carried the astronomical telescope. Most of the time was spent near the coast and they report a fine time and a good reception and patronage in the towns where they set up the telescope.

Mr. Johnson is planning another and longer trip in the near future.

summer resort, but said upwards of 20,000 persons were living out of doors in the capital.

He said there was a shortage of food, medicine, and money as well as tents, and many of the injured from Cuyutlan were not receiving adequate care.

The governor appealed for the aid of the "World Red Cross" in the emergency. The populace of most of the state, harassed by many earthquakes within the month, were afraid everywhere to return to their homes.

The governor told the correspondent that he was living in a tent in a public park with the citizens, and that nearly two thousand refugees from Cuyutlan had crowded into the town.

Colima also had on her hands the injured from previous quakes this month.

"Presents" Thrown Away— A tribe of Indians on the Alaskan coast have an odd way of paying compliments. When a distinguished visitor appears he is invited to a feast, after which the tribal chief goes to the edge of the cliff and solemnly casts into the sea as many of his possessions as he thinks he can afford.

This is held to be the highest form of compliment, and much superior to merely giving presents to the guest.

LAST LOAD OF STATE DELEGATES LEAVE FOR MEET

(Continued from Page One) last night. He added, however, that if Roosevelt's were stopped, he might swing our support to Newton D. Baker.

Carl Donagh, state committee chairman, who holds the proxy of Manche I. Langley of Washington county, said the delegation was not in favor of the two-third rule for nominating a candidate.

"We will seek to amend the rules to have the majority rule used," he said. "We also seek an outright repeal plank . . . along the lines of Senator Binham's minority report to the Republican convention."

The other four delegates in the group were William H. Dalrymple, alternate for George Finley of Linn county; G. Y. Harry, alternate for Dr. J. W. Morrow, of Portland; Lynne Black, of Dallas; and R. J. Moore, of Newberg, an alternate.

William M. Duncan, of Klamath Falls, an alternate, will join the party at Granger, Wyo., and Walter M. Pierce, national committeeman-elect, will be on board the train at La Grande.

Milton A. Miller and Joseph K. Carson, other delegates, already are in Chicago.

Ex-Governor Walter M. Pierce left this morning by train for Chicago where he will represent the second congressional district of the state of Oregon as a national committeeman.

Mr. Pierce was elected to the national post at the time of the recent primaries.

The former governor will not have a vote but acts in an advisory capacity during the convention which will open Monday, June 27.

DO YOU INHALE?

Millions say we hit the "nail on the head" when we asked this question! O.KAY AMERICA! . . . you wanted the facts and we've given them to you—even though the truth has shocked the cigarette trade! Inhaling is the very core of all cigarette discussion. For we all inhale—knowingly or unknowingly . . . every smoker breathes in some part of the smoke he or she draws out of a cigarette. Do you inhale? Let other cigarettes keep an embarrassed silence if they will! Lucky Strike can openly raise the issue. Luckies assure you the protection you want . . . because certain impurities concealed in even the finest, mildest tobacco leaves are removed by that famous purifying process. Luckies created that process. Only Luckies have it! "Fifty million smokers can't be wrong!" "It's toasted" Your Protection—against irritation—against cough
