

'Hail Hitler!'
Stirs Action In
Austria's Diet

By Wade Werner
VIENNA (AP)—A prophet found
honor in his own country and political
astonishment was so great that a
cabinet toppled.

That is one way of stating the at-
tenuation of the Austrian community
elections in which Adolf Hitler's na-
tive country suddenly demonstrated a
lively interest in the national so-
cialist workers party of Germany,

otherwise known as the "nazis."

A more concrete exposition is found
in the fact that following the resig-
nation of the cabinet of Chancellor
Karl Buresch, his successor, Dr. En-
gelbert Dollfus, had to be content
with a coalition affair that com-
mands a normal majority of only one.

At an afternoon session of the
Austrian parliament, are quietly stir-
ring for further action October 15,

when the autumn session of the diet
is to consider a constitutional pro-
vision that would call for national
elections.

The ironic part of the whole affair
is that this has come to pass in a
nationalist, or lower house, in which
there was not one nazid through whom
the party's argument for dissolution
could be presented.

"The next parliament will be differ-
ent," is the prediction of the Hit-
lerites.

Hitler himself was too busy in Ger-
many to make a personal appearance
in this country, and authorities
didn't encourage him to try. Yet to
the 337,000 nazis who voted for his
program in Lower Austria, Vienna and
Salzburg, he was as much "der fuen-

fer" (the leader, i. duce) as to the
nazis across the border.

No other personality really played
a vital role in the nazid campaign. A.
E. Frauentfeld, their Vienna leader,

was virtually the only Hitler lieuten-
ant known outside the party ranks
and few political writers could name
half a dozen other leaders of the
337,000.

But for the voters one name was
enough. It was strictly a campaign
of "Hail Hitler! Down With The
Jews!"

And when the nazis demonstrated
in front of the parliament building
shouting "Down!" the headlines on
the newspapers that went like hot
cakes in the crowd exclaimed:
"Hail Hitler! Austria Has Awakened!"

TERRIFYING DOCTORS
By Alice Judson Peale

The modern pediatrician is usually
skilled in getting the co-operation
of his small patients. He is quiet
in manner, takes time to win their
confidence, prepares them for what
he must do and does it with a min-
imum of nervous shock to them.

This behavior on the part of the
doctor does much more than make
it easier for him to accomplish his
work. It actually enables him to
do it much more thoroughly and
efficiently.

It saves the child a great deal
of nervous suffering and prevents
the intensification of any emotional
difficulties under which he may be
already laboring.

With a child who is already
nervous it is of the utmost impor-
tance to select physicians who will
handle him tactfully. The doctor
who tries to drown the child's
frightened cries by shouting, above
them or the one who begins work
with all sorts of cruel instruments
in plain sight is not the one for
him.

A single, really frightened and
painful experience may be enough
to make him hysterical merely at
the sight of a doctor. It will make
more vivid any morbid fears which
he may already possess, and have
far reaching effects upon his be-
havior.

WAKE UP YOUR
LIVER BILE—
WITHOUT CALOMEL

And You'll Jump Out of Bed in
the Morning Rarin' to Go

If you feel sour and sunk and the world
looks puny, don't swallow a lot of salts,

mineral water, oil, laxative candy or chewing
gum and expect them to make you suddenly
sweet and buoyant and full of sunshine.

For they can't do it. They only move the
bowels and a mere movement doesn't get at
the cause. The reason for your down-and-out
feeling is liver-bile. It should pour out two
pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food
doesn't digest. It just decays in the bowels.

Get bile up your stomach. You have a
thick, bad taste and your breath is foul,
skin often breaks out in blemishes. Your head
aches and you feel down and out. Your whole
system is poisoned.

It takes those good, old CARTER'S
LITTLE LIVER PILLS to get those two
pounds of bile flowing freely and make you
feel "up and up." They contain wonderful,

harmless, gentle vegetable extracts, amazing
when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's
Little Liver Pills. Look for the name Carter's
Little Liver Pills on the red label. Down a
substitute, 20c at all stores. © 1931 C. M. Co.

Consciously and unconsciously
he hates the doctor for making him
suffer, but he can do nothing about
it. If he is able later to express
his hate, aggressiveness and
even occasional cruelty to others
it is not to be wondered at.

Indeed this reaction is healthier
than if he fears to give vent to
his feeling and represses it with
the result that it twists his
thoughts, feelings and actions in
all sorts of unserviceable ways.

EXERCISE AND CONSTIPATION
Modern medicine has inherited
from time past a rich heritage of facts
and fiction, of common sense and
prevalent, about disease causation,

prevention and treatment.

Quite frequently, these empirical
observations—that is, based on ex-
perience—contain a substantial ker-
nel of truth. Others express only ap-
parently related causes and effects.

Many of the empirical observations
have been shown correct by clinical
and experimental study.

The relationship of exercise to con-
stipation has been taken for granted
and repeated in most standard works
on personal hygiene.

A substantial portion of the pre-
valence of constipation has been
charged to our sedentary life. This
viewpoint has been expressed as fol-
lows:

"Lack of vigorous outdoor exercise,

insufficient intake of water, the eat-
ing of soft cooked foods, a concentra-
ted meat diet, as well as lack of
cellulose or waste material in the
diet, and neglect of the bowel func-
tion are the chief causes of constipa-
tion.

In most cases, therefore, it is a
preventable condition and there are
few in which benefit will not result
from proper diet and exercise."

The exercise part of this advised
remedy has been recently subjected
to study at the Y. M. C. A. College
Laboratory for Physiologic Research
in Physical Education in Chicago.

These studies reveal that exercise
does, in some manner, cause the in-
creased movement of the colon.

The effect seems to be produced
through the agency of certain sym-
pathetic nerves.

The observation rates out the heretofore
current explanation of the
beneficial effects of exercise on bowel
movement, namely, that exercise has
a massaging action on the large and
small intestines.

It would appear, rather, that the
increased tone and movement of the
large intestine is simply the result of
a heightened general metabolic ac-
tivity incidental to exercise.
