Marriage of Iris Hughes To Dr. Harry Tyerman Surprise To Many La Grande Friends

The marriage of Miss Iris Hughes, daughter of J. C. Hughes and Mrs. W. D. Hatch, to Dr. Harry Tyerman, son of Mrs. Mary Tyerman, of Los Angeles, which was an event of early spring, has been announced recently. Mrs. Tyerman has been in La Grande visiting at her home, and will be joined by her husband who will arrive tomorrow.

The marriage took place at the Latter Day Saints church in San Francisco at high noon. Bishop C. W. Nalder performing the ceremony. The bride wore a pale blue traveling dress and carried an arrangement of pink roses and lilies of the valley. She was accompanied by her sister, Mrs. Richard Leo Smith, Dr. Mills, of San Francisco, acted as best man for Dr. Tyerman. The couple made a short wedding journey to San Jose, Cal.

Mrs. Tyerman is a graduate of La Grande High school and has been in training in the San Francisco city hospital.

Dr. Tyerman is a graduate of the University of California and the University of California Medical school. They will make their home in Bakersfield, Cal., where Dr. Tyerman has accepted a position as resident physician in the Kern hospital for a year.

They will remain in La Grande for about a week and then leave by automobile for their new home.

Summer Guests Are Honored at Picnic

Pine Grove was the scene of a delightful picnic of the Red Evening when a group gathered to honor several of their number from out of town. Guests who were visiting in the city who were present were Mrs. H. S. Moor, of Toledo, Ohio, who is the guest of her daughter, Miss Helen Moor; Mrs. Gilbert, of Colorado, who is visiting at the home of her son and daughter-in-law, Mr. and Mrs. Warren Gilbert at Hot Lake; Mrs. J. J. Denny, of Los Angeles, sister of Mrs. E. Kiddle, and Sterling Applegate, of Walla Walla, and Ed Morgan, of Seattle, guests of Russell Nelson. Others who enjoyed the event were Mr. and Mrs. A. W. Nelson, Miss L. Nelson, Mr. and Mrs. Kiddle, Mr. and Mrs. Gilbert, Miss Moor, Miss Bess Duke and Russell Nelson.

Country Club Plans Pot Luck Luncheon

A ladder challenge at the La Grande country club will be held tomorrow afternoon following a potluck luncheon at one o'clock at the club house. Mrs. L. K. Kinsel, tournament committee chairman, announced today. Each woman will challenge the next above on the ladder and no penalty will be inflicted on the loser.

Mrs. Childers Entertains Guests

In honor of their house guests from out of the city, Mrs. Adia Childers and her son, Merle, entertained at an outing at Wallowa Lake on Sunday. Those present were Mr. and Mrs. Dick Richardson and Mrs. Della Wagner, of Clifton, Idaho; Miss Olive Childers, of Seattle; and Mrs. Edward Streiff, Mrs. Wagner and Miss Childers and sisters, and daughters of Mrs. Childers.

Mrs. Nye Honored At Birthday Party

Mrs. S. S. Nye was complimented on the occasion of her birthday yesterday when the Mary Elizabeth club entertained at a delightful party at Riverside park, at 2 o'clock. Refreshments were served at a table on the lawn, with a birthday cake as the feature. A centerpiece of orchid and pink sweet peas decorated the table. Mrs. Chris Miller sang a vocal solo, "When You and I Were Young. Margie!" and Mrs. Eva Wessler presented the guest of honor with a gift. Guests for the afternoon were Mrs. Catherine, of Philadelphia, who is the guest of Mrs. Miller; and Miss Mabel E. Braden.

Meetings of the club will be continued again in the fall, the first being held on September 14 at the home of Mrs. Harry Turner, 1702 Washington.

Pythian Sisters Enjoy Park Party

Mrs. August Erickson and Mrs. Austin Chandler, entertained yesterday afternoon at Riverside park for 15 members and guests of the Pythian Sisters Social auxiliary club. The afternoon was spent informally in sewing and conversation. Guests for the afternoon were Misses Isabel and Doris Williams, Mrs. Odus Balco and Mrs. George Slinger. Mrs. James Quinland and Mrs. O. G. Williams will be the next hostesses entertaining on July 11 at Pine Cone.

Association Able To Get Top Prices On Wallowa Hogs

By G. C. Meek (Observer Correspondent)

WALLOWA (Special).—A carload of fat hogs was loaded out from Evans the latter part of the week by the Wallowa County Stock Marketing association. The week previous a carload was sent out which topped the Portland market. This has been the case at many times during the past several months and has resulted in local growers realizing more for their hogs during the period of extremely low prices, than would have been possible in any other way.

Mrs. Bertha Taylor and Mrs. Guy Parker and baby of the Bowman-Hicks camp visited Tuesday at the Meek home in Leap.

Eugene Gastin who is tending sheep camp for Ivan Simmons in the Sand Springs district spent the weekend at his home in Leap. Mr. Gastin reports range conditions very good in that section and that shearing of several bands has just been completed there.

Oscar Maxwell recently finished plowing a tract of some 250 acres of summerfall at the U. G. Couch ranch in the Leap district. He expects to start haying at his farm in the valley immediately after the 4th of July.

Frank Walker of Middle valley was in the Whiskey creek section the latter part of the week looking after some cattle he has ranging there.

James Anderson was a Sunday evening visitor at the Meek Bros. home in Leap.

George Cussins and Roy Gastin were Enterprise business visitors the last of the week.

Sam Meek, L. V. Lathrop and others from the Leap section were delivering some fat hogs to Evans for shipment the latter part of the week.

J. R. Williams of near Evans were at the John Couch farm in Leap the early part of the week buying some pigs.

Mayo Walker of Enterprise was a business visitor in this end of the valley the latter part of the week. Mr. Walker reports that he is buying a truck for hauling livestock from Enterprise to Portland, he expects to make his first trip this week.

Miss Zelma Plasse and party of friends from Chicago arrived here Saturday by auto. Miss Plasse is a daughter of Mr. and Mrs. Giles Plasse of Diamond prairie and has been working in Chicago for the past three years. She expects to visit during the month of July with her parents and other relatives here and after visiting other parts of the west will return to Chicago about the middle of September.

Ground squirrels are doing much damage to grain crops in many parts of the community at this time according to reports from farmers. During the greater part of the past week many were unable to get out mixed grain and but little poisoning could be done. Some of the farmers state that where they had been able to keep putting out fresh poison every day or two that they had been able to hold the squirrels in check without much damage to crops.

L. W. Minor was busy recently moving his band of sheep from Dry creek to range on Lower Powwattka where several other small bands were placed with them for herding. Donald Hayes is doing the herding. Ranges in that section are said to be very good at this time.

Among those who delivered lambs to Evans for shipment with the po shipment sent out the early part of the week from the Leap community were: L. V. Lathrop, John Couch and Earl Burchfield.

Menus Of The Day

By Mrs. Alexander George
CHERRY ROLL FOR DESSERT
Menu For Dinner
Creamed Mushrooms on Toast
Buttered Asparagus
Bread Butter
Stuffed Pear Salad

SOCIAL CALENDAR

Thursday, June 30
2:00 Rainbow Girls, picnic at Cove.

Off To Visit Panama Pigmies

To complete their collection of ancient American Indian relics, Mr. and Mrs. Martin C. Mogensen of San Francisco and Spring Hill Farm, Martinez, California, sailed on the Dollar Liner President Grant for Panama this week with a recently discovered Carib village as their destination.

Scientists recently discovered a new village of Pigmy San Blas Indians on the East Coast of Panama. They are living in the Stone Age without pottery or weapons other than bows and arrows. Their culture is reported to be exactly the same today as it was when Columbus first landed on the American Continent.

The Pigmies are less than five feet high, wear gold nose rings, bind their ankles and live in community houses.

Mr. and Mrs. Mogensen are widely known up and down the Pacific Coast for their excellent stable of show horses and hunters, having won more than 150 awards in the Horse Shows of Coronado, Santa Barbara and Menlo Park.

Mr. Mogensen is the National Advertising Representative of this news paper.

- Cherry Roll Lemon Sauce
- Iced Tea
- Creamed Mushrooms on Toast (Serving 6)
- 6 creamed buttered toast
- 2 tablespoons butter
- 2 cups fresh mushrooms
- 6 tablespoons flour
- 2 1/2 cups milk
- 1/2 teaspoon salt
- 1/4 teaspoon celery salt
- 1 tablespoon chopped parsley
- Scrub mushrooms and cut into halves.

Heat butter in frying pan and add mushrooms. Brown well and cover with lid. Cook 5 minutes. Add flour and blend. Add rest of ingredients excepting toast and cook 3 minutes. Stir constantly. Serve on toast.

If canned mushrooms are used, drain them and cook in melted butter until brown. Then add seasonings and milk.

Canned mushrooms require less cooking than fresh ones.

For variety, 2 tablespoons of green

Scientists Use Gold Beads To Locate Deposits of Platinum

By Howard W. Blackledge (Associated Press Science Editor)

HOUGHTON, Mich. (AP)—Little gold and silver beads made at the Michigan College of Mining and Technology furnish a new clue to deposits of rare metals in the west and south.

The metals are platinum and, as still rarer relatives, ruthenium, rhodium, palladium, osmium and iridium. These are mostly newcomers in commercial mining, but all potential prosperity builders.

They occur in many ore mixed with gold or silver, especially with gold, but are so diffused that their existence, even in paying quantities, has been as difficult to detect as a needle in a haystack.

Process Reveals Rare Metals The Michigan Tech discovery is that every one of the platinum metals will write its own peculiar sign upon a gold or a silver bead made by a certain easy process. These autographs reveal both the presence of the rare metal and an accurate idea of how much there is. The sign, reading was largely developed by J. L. Byers of the metallurgy faculty.

The beads are droplets of gold or silver slightly smaller than match heads. They are made by heating highly purified filings of the ore to be tested.

If there is any ruthenium in the gold, even as little as one-tenth of one per cent, the surface of the bead will show somewhere a small, constant dark blue spot, a tiny crystal of ruthenium dioxide.

These blue spots spread like mow on a stump according to the percentage of ruthenium. Always they show first at the bottom of the gold droplet. As the amount of rare metal increases, the blue enrustation spreads upward. With two per cent of ruthenium in the ore, the blue mantle entirely covers the gold.

Rhodium Changes Color of Bead Rhodium, signaling its presence, not by an enrustation, but by changing the color of a gold bead to an iridescent reddish purple. That shade is the index for about two per cent of rhodium. The color of old rose
