whistled under his breath and glanced at an acquaintance. "Say, Joe," he exclaimed, "do you notice that they have demanded \$100,000 apiece as a 'board bill' and make no promise to release those people when they have picked up the money?" "I'll say so!" replied the other. "Looks to me as though they might collect \$100,000 a month, or a week, maybe, just so long as they can keep out of the way of the cops."

ON THE AIR TRAIL

THERE was an immediate scramble for the photographs of the letter. Reporters for the afternoon papers dashed madly for the door, intent upon catching their next editions. The men from the morning dailies were more leisurely, most of them stopping to read the letter before leaving the reception room. It was as follows:

"DEAR MR. MALLORY: Your husband, who is honoring us with a visit, has suggested that

Shortly after eight-thirty on Thursday morning, Jerry Calhoun swung lustily on the walnut propeller of his old biplane, skipped nimbly away from the sudden death that lurked in the glistening air of the whirling stick, and listened with vast satisfaction to the pulsating, deep-throated back of the eight-cylinder engine. Then, clambering into the rear cockpit, he grinned happily at Emory, who was already strapped into the passenger's cockpit between the wings.

Suddenly Emory turned and pointed to the southeast.

was list the possessions he carried with him in order that you may be assured that we are not perpetrating a hoax of doubtful humor.

"The following items were in his pockets when he accepted the invitation to join our little house party:

- 1 gold cigarette case
1 gold fountain pen
1 gold pencil
1 gold cigarette lighter, not in good order
1 gold flask, half filled with bathtub gin
8 guest and membership cards to various clubs
1 certificate Steel Ltd., 100 sh. common.

- 1 bunch keys
2 cigars
1 man's handkerchief
1 lady's ditto, embroidered
1 leather pocketbook containing business cards, several miscellaneous personal cards and \$182.33 in cash.

- 1 check book, folding, on New Union bank.
1 photograph, presumed to be of Mrs. F. Mallory.
6 personal letters.

"In order that your husband's existence may continue to be pleasant and that his health may continue to be excellent, we make the following suggestion:

"Attend a meeting with the lawyers who represent our other guests. After listening patiently to their protests, instruct them to their place \$200,000 (\$100,000 for each guest) in used unmarked one hundred dollar bills, in a black handbag.

"Instruct them, further, to have this handbag placed in a white row boat which, on next Thursday morning, at ten o'clock, must be anchored at sea exactly ten miles southeast of the Montauk point lighthouse. Impress upon them that no boats or ships of any kind must remain within eight miles of the anchored rowboat in any direction.

"If no trap is attempted and if these details are carried out, your husband will not suffer. If you evade payment of his board bill, we will be unable to continue to give him the full benefit of our hospitality."

There was no signature. A man from a morning paper.

A strange plane appears, tomorrow, and Jerry and Emory play hide and seek with it in the clouds.

Gambling Expression

The expression "pass the buck" is said to have originated in the American game of poker, when an object was laid before a player to remind him of his turn to deal. Also the marker that was put into a Jack pot to remind the one who received it that he must order another Jack pot, was called a "buck."

"Half-Mast"

Properly speaking, a flag should not be flown at half-mast as a symbol of mourning. The correct procedure is to raise the flag to the masthead, then lower it one-half the distance from the half-mast to the masthead, that is, approximately three-quarter mast.

Like the Widow's Curse

"A book is like the widow's curse of oil; you dip into it again and again, and the contents remain exactly what they were. Investment in books is a capital investment, in the capital of which never undergoes wastage or deterioration."

—J. Ramsay MacDonald.

The TINYMITES. STORY BY HAL COCHRAN. PICTURES BY JOE KING

(READ THE STORY, THEN COLOR THE PICTURE)

THE juggler's legs were very strong. Said he, "I've practiced will go wrong. I've practiced years to do this stunt and now I know it well."

"Why I've tossed big men in the air and given folks a treat that's rare. So thrilling has my net been that I've oft made people yell."

Then Duncy said, as best he could: "Don't worry! I'll admit you're good and I am having lots of fun. Just toss me higher, please."

"As long as I don't take a flop, I really don't care when you stop." The man then caught wee Duncy, holding him real still, with ease.

"I'm going to make you do a turn I'm sure that you will quickly learn just how to help me swing you 'round," he told the little lad.

"You may get dizzy for a bit, but soon you will get used to it. I have a hunch 'twill be the biggest thrill you've ever had."

Region of Ocean Calm

"Horse latitudes" is the name given to the belt of calms in the North Atlantic ocean between the region of westerly winds of the higher altitudes and the region of trade winds of the torrid zone. Authorities differ in regard to the origin of the name, some claiming that it was derived from the fact that vessels with a cargo of horses were often so delayed on account of the calms that the animals perished from lack of water.
