

# Will You Help?

**T**HE canning division of the county relief committee is now undertaking the mammoth task of preserving all kinds of fruits and vegetables — which would otherwise go to waste — for distribution to families of the unemployed during the coming winter.

**Y**OU can do your share by turning over to the committee all fruit jars and lids which you no longer need. Various civic and fraternal organizations are providing sugar, jar rubbers and other necessary supplies. Will you help the worthy cause along by contributing your surplus jars and lids?

**M**RS. Frederick Gehring, chairman of the committee, will be at Honan Hall on Mondays, Wednesdays, and Fridays and will gladly receive jars there. Or if you cannot bring them — just phone Mrs. Meldrum at 142-J and arrangements will be made to call for them.

## THANK YOU
