Babe Ruth Out For Three Weeks

NEW YORK, July 18 (AP)—Babe Ruth was forced out of the game in the seventh inning of today's contest between the Yankees and White Sox, when he injured his right leg attempting to catch a fly, which was just out of the Babe's reach. He was helped from the field, apparently suffering from a charley horse.

An examination revealed the injury to be a rupture of the extensor muscle in the rear of the right leg just above the knee. The Babe is expected to be out of the game three weeks.

EDUCATION BOARD IN SESSION TODAY

May Select a Chancellor For Oregon Higher Schools This Afternoon

PORTLAND, July 18 (AP)—No action on the selection of a chancellor for Oregon's system of higher education was taken at the morning board meeting here today although it was intimated the subject would be brought up later in the day.

All members of the board attended. Procedure was slow considerably when Mrs. Cornelia Marvin Pierce asked that minutes of previous meetings be read. The meeting convened at 9:30 a. m., and it was 11:30 a. m. before the reading of the minutes was completed.

Dr. W. J. Kerr, president of Oregon State college, was at the meeting. He has been mentioned for the post of chancellor.

Recess was taken until 2 p. m., after which the board was expected to go into executive session, with the press and public barred.

Mrs. Genevieve Turnpseed, director of dormitories at Eugene, was appointed by the board to be director of dormitories of the college, university and normal schools under the board's unification program.

The master of permitting or instructing board employees to engage in any political or legislative dispute was debated. Lengthy discussion was taken on a resolution offered by C. C. Colt that the policy of the board be so defined that employees confine their activities to the duties of their office, give information when asked and submit all facts demanded, but remain out of any controversy.

The debate resulted from receipt of letters from the state grange and state board of agriculture asking that employees be directed and permitted to work against the referendum on the oleomargarine tax bill.

Mrs. Pierce said she sees no reason for the board to deprive its employees of their rights as citizens to take any side they desire on a controversy and to make any statements they wish as citizens. She said none should do so officially, and agreed that considerable difference of opinion might result in the manner in which individuals might construe "officially" or "unofficially."

Accidents—Two traffic accidents occurred in and near La Grande over the weekend. Cars driven by F. W. King and Mrs. Leo McCarthy collided at Fir and Adams July 16 at 6:30 o'clock.

Both drivers were hurt but not seriously, according to reports. Then on July 17 at 11:15 o'clock, a car driven by D. E. Marshall, of Walla Walla, collided with a cow driven by E. L. Sewell on horseback. No one was hurt. The accident occurred eight miles northeast of Elgin on the Wallowa highway.

Returns to Work—After a vacation spent in North Powder and other points, Mrs. Mamie Robbins has returned to her work at Falk's La Grande store.

To Boise—Mrs. George Walker left by airplane for Boise yesterday where she will remain for a short visit. She accompanied Dr. Lyman F. West, Boise aviator and Mrs. West, who spent the day at the Walker home.

Illegal Angling—Weith Gleason, P. Lawler and W. I. Estes were arrested yesterday by G. T. Glenn, Pendleton, and C. C. Franklin, Baker, of the game department of the state police, and were given a hearing before Judge L. Denham in the court of the justice of the peace, charged with angling for game fish by illegal methods. They pleaded guilty, and Mr. Gleason paid his fine. The others were committed to jail in default of payment. The amount of the fine was not announced.

For Treatment—Miss Helen Cogswell, of Jerome, Ida., was in La Grande on Saturday and received treatment at the Bouvy hospital.

Improving—Woodrow Glenn, who suffered a perforated eyeball when a screw driver hit him, is improving at the Bouvy hospital where he was taken for treatment, and it is believed that he will not lose his vision. He makes his home at Vale.

May Stock Dam—Believing that the artificial lake created this spring when the Thief valley gam was completed to afford a reservoir to retain water for Lower Powder river farmers would make an ideal place for bass to thrive, local sportsmen have asked that the state game commission stock the reservoir with the fish. According to George

T. Ferguson, North Powder druggist and fisherman, the plan appeared to be acceptable to Carl Silven of Baker, member of the commission, who promised to see what could be done. The only question raised against the proposed plan was whether the reservoir would hold enough water all year around. Mr. Ferguson thinks there is no doubt but that it will, for he believes there will be water enough very little deep holes at the lower end, even during a dry season.—North Powder News.

At Summerville—Miss Margaret Dixon went to the valley the last of the week and is spending several days visiting her friend, Miss Lawna Myers.

AIMEE CRITICALLY ILL LAKE ELSINORE, Cal., July 18 (AP)—Aimee Semple McPherson Hutton was reported by her physician today to be in such critical condition that "the slightest shock probably will result in her death."

"Her condition is extremely critical," Dr. Edward H. Williams, the physician said. "She absolutely must not be disturbed if she is to recover. I have instructed her attendants to see that no one, even her husband, must attempt to see her."

Mrs. Hutton is suffering, so her doctor said, from a basal fracture of the skull. She fainted recently when informed her husband, David Hutton, had lost a breach of promise suit to Myrtle St. Pierre, a nurse, and fell to the floor, striking her head.

Mrs. Hutton had been at this resort recovering from a nervous breakdown and a tropical ailment when she injured her head. She is being carefully guarded by numerous attendants.

mission, said the appropriation for parks was separate from the highway sum and would be spent at the discretion of the state. He did not know the amount to be set aside for Oregon.

Information on highway and parks appropriations should be available before the meeting of the road commission at Portland Wednesday of this week, highway department officials announced, and it was believed the matter would be discussed and considered at this meeting.

RAINEY DEMANDS PUBLICITY WASHINGTON, July 18 (AP)—Representative Rainey, the Democratic leader, said in an interview today that senate and house officials "will be guilty of malfeasance and subject to removal" if they do not make public reports of loans filed by the reconstruction finance corporation.

In commenting on President Hoover's statement yesterday on the relief bill, Rainey said: "The president's statement as to the publicity feature of the relief bill is absolutely erroneous, notwithstanding the fact some senate leaders made statements on the floor of the senate as the president said."

"Reports will be filed monthly by the reconstruction finance corporation throughout the summer. The public will be advised as to what is being done with their money. The bill was drafted with that end in view. I had a hand in drafting it myself."

"Newspaper reporters will be able to get the information during the summer by applying to the clerk of the house or the secretary of the senate."

"If these officials refuse this information they will be guilty of malfeasance and subject to removal, in spite of the president's statement. These reports were not of a confidential nature and will be made public. If they are not made public we will have the clerk of the house and the secretary of the senate on the carpet when congress convenes again."

OWYHEE DAM IS DEDICATED BY DR. WILBUR

(Continued From Page One)

E. C. Van Pelt, who joined the late William Henry Doolittle in a campaign to get an adequate water supply for this district, presided at the dedication.

Prominent among those who spoke at the ceremony were Dr. Elwood B. Mead, United States reclamation commissioner, and Governor C. Ben Ross, of Idaho.

First Unit of Project They pointed out that the dam is but the first completed unit of a project that is estimated to cost ultimately \$18,000,000. A system of tunnels and canals even, of siphons nearly four miles long where valleys are too deep for aqueducts, will carry water sufficient to supply 123,000 on which 2200 families may be provided with comfortable homes.

Heads of Clubs To Meet to Make Plans For Work

Mrs. W. D. Hanks, chairman of the clothing division of the governor's relief committee, has called a meeting of presidents of all women's clubs in the city, to be held Wednesday afternoon at 2 o'clock to outline a program of sewing to be carried on during the remainder of the summer, preparatory to taking care of the unemployed next winter. The meeting will be held in the L. D. S. Relief society room at the Recreational hall.

Mrs. Hanks requests that the ministers of the various churches appoint their own chairman since she feels that the most able women of the churches will then be selected.

The Christian Science church committee for canning was called Saturday by Mrs. Frederick Gehring, chairman of the canning division of the governor's committee, and canned 30 quarts of cherries, donated by Mr. Swan. Members of the committee are Mrs. C. W. Lofland, Mrs. L. J. Gates, Mrs. W. B. Trevey and Mrs. E. Shumate.

Sugar was donated by the Eastern Star Social club, the La Grande chamber of commerce, the American Legion and the Odd Fellows.

HOME LOAN BANK PLAN IN BALANCE

(Continued From Page One)

outstanding. The new law makes government bonds, carrying not more than 3 1/2 per cent interest, eligible as backing for national bank currency but limits the amount that can be so issued by any bank to not more than its own capital stock.

Under this restriction, despite the fact that there are outstanding approximately \$3,000,000,000 in such eligible bonds, the banks could issue a total of approximately \$995,000,000, in new currency, that being the total of their capital stock.

The banks that issue the currency must pay a tax of 1/4 of one per cent

semi-annually or 1/2 per cent annually for the privilege. In addition they must pay certain printing and issuing costs. If a bank is in debt it could issue the currency, pay off the debt and save the difference between the cost of the currency and the interest on its borrowed money.

A bank which does not owe money would merely be incurring additional expense without receiving any benefit in issuing additional currency.

At present member banks of the Federal Reserve system owe the Federal Reserve banks approximately \$500,000,000, of which only \$200,000,000 is secured by bonds eligible under the new act.

No Increase Anticipated The provisions of the new act are not expected to increase the amount of money in circulation in this country because of the fact that it will be chiefly used by the banks to meet the debts and almost immediately find its way back into the federal reserve banks and the treasury.

If the national banks took full advantage of the act and issued nearly a billion dollars worth of new currency, it might in time seriously affect the earnings of the Federal Reserve banks and cut their business approximately in half. Officials do not expect that this contingency will arise.

SIGN RELIEF BILL TUESDAY LURAY, Va., July 18 (AP)—Under a cloudless sky, President Hoover this morning took a brief walk over mountain trails surrounding his Rapidan camp.

Leaving behind governmental advisers, the president had with him at his camp only Mrs. Hoover and Mr. and Mrs. Mark Sullivan, personal friends.

Aides at the camp reported that Mr. Hoover might return to the capital late this afternoon, but the possibility remained he would spend the night and motor back early tomorrow morning in time for the regular semi-weekly cabinet meeting. He plans to sign the relief bill tomorrow.

LABOR HEAD DISAPPOINTED ATLANTIC CITY, N. J., July 18 (AP)—A "winter of discontent," marked by widespread food riots, is what the council of the American Federation of Labor expects this year, because of the failure of congress to enact "adequate" unemployment relief measures.

The forecast of rioting and social disorders was made by William Green, president of the federation and spokesman for the council, who expressed the council's "keen disappointment" yesterday at the adjournment of congress before it made

ample provision for the unemployment situation. The council also was disappointed, Green announced, because congress did not deal with farm relief and because it did not modify the Volstead act to permit immediate manufacture of 2.75 per cent beer.

Green said he did not believe the rioting would assume revolutionary proportions, but predicted the white collar class would participate in it. More than 11,000,000 workers are now unemployed, Green estimated. By winter, he predicted, the number will exceed 13,000,000.

"Many difficulties, no transportation no sleep, sometimes hungry, but withal CHEERFUL"

Violent Earthquakes tumbled a Central American city into ruins. The homeless, injured, and dying numbered thousands. Highways and communication systems were destroyed, discouraging obstacles confronted the reporters but the world got the news promptly. An ASSOCIATED PRESS correspondent fought his way over impassable roads to a temporary radio station and sent his story. A staff member risked a dangerous airplane flight to reach the scene. The far-flung resources of the organization were called into play to cover every angle of this tremendously important news event. "Many difficulties, no transportation, no sleep, sometimes hungry but withal cheerful" wired this small band striving against odds to report the facts without minimizing, without exaggerating. THE ASSOCIATED PRESS staff is ready day and night to brave adventure and danger to get the news—and get it right.
