

# LOCAL BRIEFS

**Visiting Here—**  
Mrs. W. G. Curtis, of Kennewick, Wash., arrived here Sunday to spend a week or 10 days with her son-in-law and daughter, Mr. and Mrs. Angel Metropolit.

**Clothing Stolen—**  
O. T. Grellinger, of 1617 Fourth street, reported to police Monday that someone had stolen several articles of clothing from his parked car.

**Fined \$25 Each—**  
Ben Nelson and Frank Wheeler, both charged with drunkenness, were fined \$25 in municipal court last night. Neither could pay the fine and both were returned to jail.

**Maurice Chiland Dies—**  
Maurice A. Chiland, aged 44, a resident of Pendleton for the past year, died Sunday at 4:30 at his home on South Main street. He had been in poor health for some time but death came suddenly. Mr. Chiland having been able to be about on Saturday. He is survived by his widow and a sister, the latter of Chicago. Mr. Chiland who was born in Moline, Illinois, was owner of the Snappy Dress Shop here and prior to that had been in the clothing business in La Grande and had also traveled for Falk's Wholesale house. He was a World War veteran and a member of the Lutheran church. Funeral services will be held at Folsom's chapel at 2 p. m. today.—Pendleton East-Oregonian.

**On Business Trip—**  
W. C. Perkins is in Portland on a brief business trip. Mr. Perkins was joined in La Grande by R. C. Frisbie, of Baker, who accompanied him to the coast city.

**Visiting Here—**  
Miss Roberta Kyle, who recently moved to Walla Walla to make her home, is visiting for a few days in La Grande.

**Home From Lake—**  
A. W. Nelson returned home from Wallowa Lake last night after spending two days there at the annual Boys' camp which opened Sunday.

**Visiting Here—**  
Mrs. H. M. Bay, of Enterprise, is in La Grande visiting friends. Mrs. Bay arrived last night.

**Home From Portland—**  
Mr. and Mrs. Harley D. Smith returned late last night from a week's vacation trip to Portland where they visited their son-in-law and daughter, Mr. and Mrs. Edward Arrowsmith. They also visited Washington cities during their trip, which they made by car.

**Portlander Dies—**  
Mrs. Anna Hendricks (Ella Wilson) passed away Monday at her home in Portland, according to news received here by relatives. Mrs. Hendricks had many friends in La Grande. She was the sister of Mrs. Archie Miller.

**Philomath Couple Here—**  
Mr. and Mrs. H. B. Edwards, of Philomath, Ore., are visiting Mrs. Edwards' mother, Mrs. Sadie Lambert for a few days. They are on their way home from a visit to Caldwell where they were guests of Mr. Edwards' family.

**Mr. Happersett Better—**  
C. E. Happersett, who has been seriously ill for the last week or so at the Grande Ronde hospital, has shown improvement during the last two days.

**Boy Breaks Arm—**  
Dale Anderson, five-year-old son of Mr. and Mrs. D. E. Anderson who live at 605 M avenue, broke his arm yesterday while he was playing in the front yard of the Anderson home with a group of children. The little boy fell, breaking his arm above the elbow.

**Change Announced—**  
The Ladies Aid of Imbler, which was to have met at the park Thursday afternoon instead will meet with Mrs. Jessie Berry, at Imbler. Program arrangements for the day have not been changed. The meeting will begin at 2 o'clock.

**Here From Walla Walla—**  
Mr. and Mrs. R. A. Shanks had as their guests at their home on Spring avenue Sunday Dr. and Mrs. A. E. Lange and son, Bobby, of Walla Walla.

**California Here—**  
Mr. and Mrs. Bill Dixon and Mrs. Fred Kreuger, of Oakland, Cal., were overnight visitors yesterday and today at the home of Archie Miller. Mr. Dixon was at one time in the engine service with the O-W-R. & N. out of La Grande. The Californians have been visiting at Glenns Ferry, Ida. with Mr. Dixon's mother and father, who was at one time a well known passenger engineer on the Oregon Short Line. The three visitors came up the southern route and are returning by way of Portland and the Redwood highway.

**Returns From Lake—**  
Mr. and Mrs. P. S. Robinson and their son and daughter-in-law, Dr. and Mrs. Francis Robinson, who are visiting here from Iowa, spent the weekend at Wallowa Lake with their other son, John, whose dance band had an engagement at the resort.

**"PICNIC DAYS"**  
Are too rare to waste on the drudgery of washing— Let us figure your needs, save you money and time.

**Modern Laundry**  
PHONE MAIN 77

We can give you better mileage and performance with our accurate tune-ups.  
MCDONALD ELECTRIC CO.  
Phone Main 753 1428 Adams

**Holds Meeting—**  
The monthly Stake Union meeting at the L. D. S. tabernacle here was held Sunday, with all departments of the stake holding meetings for instruction in their various esting seasons was the meeting of the Stake Relief society at which Dr. John B. Blackham spoke on oral hygiene. The Relief society will hold an art demonstration on Aug. 9 at the L. D. S. Recreational hall here. It has been announced. A variety of handicraft work will be exhibited at that time.

**Returns From Klamath—**  
Mrs. Beulah Lambert returned to La Grande Sunday afternoon from Klamath Falls where she was called by the death of her brother, O. A. Smith.

## CARTERS ENJOY GOLDEN WEDDING

(Continued From Page One)

span of 50 years together. The Carter family celebrated the golden wedding throughout the day but they did it without pomp, in a simple quiet way that somehow seemed to harmonize with the occasion.

Not all of the six children could be at the house which has been home to them for 20 years—but they sent greetings instead. And during the entire day friends of the Carters, who have been in the Grande Ronde valley since they came here by team some 34 years ago, called to congratulate them and to wish them all happiness.

"We didn't want to have another wedding ceremony. We thought it would be nicer to have a quiet day together, with as many of our children here as can come," said Mrs. Carter this morning as she chatted for awhile in their pleasant home, located in a neighborhood that skirts the more thickly populated part of the city, and is just now bright with summer flowers and lazy summer sunshine.

With Mr. and Mrs. Carter today were their daughter, Mrs. Grant Swalburg (Sally Carter) and her children, Betty and Bobby, and a son Jim Carter, who lives in the Grande Ronde valley.

Whether any of the four other sons and daughters could be with their parents as they reached the half century mark in their married life was not certain at noon today. All of the four are in Oregon and it was hoped that some of them would arrive before the day was over.

Mr. and Mrs. Carter were married Aug. 2, 1882, in Washington county, Arkansas, in the Cane Hill region where they made their home for nearly 20 years. Their wedding then was a quiet one. Mrs. Carter recalled this morning. She was Mary Yates before her marriage and she was born in Arkansas. Mr. Carter came to Arkansas as a young man from Tennessee, his boyhood home. All but two of their children were born in Arkansas. Mr. Carter had been west twice before the family finally decided to become Oregonians. Once he had come with his family by ox team, along with a party that included the late Sally and John Montgomery. Mr. Carter's sister and brother-in-law, who were long time residents of La Grande. A second time, young Lamar Carter brought his wife and family west by train for a visit. And a third time they came, this time to make their home. They brought their family goods and the four children in a wagon. The trip was a long one, over roads that may have had more romance but certainly had less comfort than the smooth stretches of highway today. That trip lasted from April until November. Their son, Jim, was then a baby.

Once in Oregon the Carter family lived in several parts of the county. For several years they had a home four miles above Hilgart at the old Swopshite mill. Here their son, Harvey, was born. Later they lived in Perry where Mrs. Swalburg was born. One year they made their home in Eugene, but they soon returned to the Grande Ronde valley, and established themselves in the present Carter home. This was at the time the Palmer mill was being constructed and they watched that section of La Grande in its development.

The children, in addition to Mrs. Swalburg and Jim, are Harvey, who lives in La Grande but is now at Wallowa Lake where he is director of the annual boys' camp; Mrs. Rene Lenoir (Mary) who lives in Portland; John, whose home is Bend; and Clifford, who is on a farm 50 miles below Salem at Lyons. Mrs. Lenoir has a daughter, Audrey Clark; John and his wife have four children, Lamar, Marguerite, Harold and Wendell; and Clifford is married but has no children.

In the Carter home is an old organ, that was once used in the Methodist Episcopal church when the old building, on Fourth street near the Central school, was standing. It has been in the Carter family since the new church was built. The Carters have been long-time, active and respected members in the Methodist Episcopal church here. Another possession that is of much interest is a quilt, made more than 50 years ago by Mrs. Carter's mother, as a present for the young bride.

Mr. and Mrs. Carter always have enjoyed good health and today it was hard to realize that she was 70 and he was 76.

**Polar Bear Fine Swimmer**  
The polar bear is the best swimmer of all land mammals and will always take to water when alarmed. Polar bears have been met swimming at a distance of 80 miles from land, with no ice in sight.

**Old London Building**  
The Mansion house is the official residence of the lord mayor of London. This dwelling place was built between 1730 and 1733.

## U. S. Trade With England, Canada Stumbling Block

By Frank I. Weller  
(Associated Press Staff Writer)  
OTTAWA, Ont., Aug. 2 (AP)—The stupendous portion of the trade of Great Britain and Canada which is with the United States proved the greatest stumbling block today to all negotiations for intra-empire trade deals at the conference here.

With all its dominions and colonies, the British Empire handled only about 2 1/2 per cent of the world's trade in 1930 while the United States alone handled 12 1/2 per cent, almost half as much.

In the United States was sold, in 1930, more than one-third of all the linen manufactures exported by the United Kingdom; 43.2 per cent of all the tin, and nearly 19 per cent of all British exports of leather and leather goods, other than wearing apparel.

On the other side of the ledger, the United Kingdom took one-sixth of all the imports from the United States, some of the outstanding items being four-fifths of the American exports of hams, more than half the tobacco, worth \$79,400,000, and 30 per cent of the total exports of motion picture sound equipment.

The United States bought more than 90 per cent of Canada's total exports of fresh fish, hides, skins and pulp wood, and between 80 and 90 per cent of her exports of newspaper and wood pulp.

America, in turn, sold in Canada more than half its total exports of corn, vegetables, oranges and crude petroleum, nearly half its iron and steel and a third of its foreign sales of radio apparatus.

The United States bought 15 per cent more of Canada's exports than the entire Empire did, 50 per cent more than the United Kingdom and 28 times as much as Australia and New Zealand combined.

About one-third of the total long term foreign investments of the United States, amounting to more than \$5,000,000,000, are in the British Empire, most of them in Canada and Newfoundland, but nearly \$700,000,000 in the United Kingdom itself, nearly \$500,000,000 in Australia and New Zealand and several millions in British Africa, the West Indies and Malaya.

## Edward E. Gann Sued for \$21,500

WASHINGTON, Aug. 2 (AP)—Edward E. Gann, lawyer and brother-in-law of Vice President Curtis, was sued Monday in the District of Columbia supreme court for \$21,500, said to have been received by him as representative of Spears Engineers, Inc., to build a ship known as the Hydro-grapher for the federal government.

**ONE SORE THROAT EASY TO TURTLE WITH TWO**  
MINNEAPOLIS (AP)—A sore throat isn't serious in the life of "Hank," an inhabitant of the Minneapolis library zoo.

He uses his other throat in a case like that—for "Hank" has two of them.

He is a two-headed turtle and Mrs. Grace Wiley, curator, testifies he has a hearty appetite. Both heads function very well, and when he decides in turtle fashion to "pull in his neck" on occasion, he pulls them both in under his shell.

**SIX YEARS UNDER COACH**  
EUGENE, Ore. (AP)—Three of Oregon's football men will spend their sixth year as pupils of Leo Calland next season. Capt. Bill Morgan, Quarterback Bill Bowerman and Guard Bernie Hughes went through three years of high school football together as pupils of Calland and one year as Oregon freshmen under the coach who has been named to succeed Clarence W. Spears.

**ATHLETES LAY FOUNDATION FOR SUCCESS WITH SHOVEL**  
AMES, Iowa (AP)—It might be said that Iowa State college athletes are laying the groundwork for future victories this summer.

Several are combining summer work with physical exercise by "manicuring" the school's track and its baseball diamond.

The lads have resurfaced the track, and the diamond also has been given a new coat of crushed limestone and clay.

Radio reception is said to be better under than above ground. If the dead could hear the crooners, we'd regard this as a grave misfortune.

## Mexico to Stage Open Road Race: Cars May Reach 100 Miles an Hour

LAREDO, Tex. (AP)—America's only open road race of 1932 is scheduled to send automobiles and motorcycles whizzing along the new Mexican national highway between Laredo and Monterrey September 4.

The actual start will be from Arroyo Coyote, a few miles south of Museo Laredo, Mex., Laredo's sister city, and the finish line will be drawn at the edge of the military reservation on the outskirts of Monterrey.

The distance is a just stretch of 140 miles, with a 45-mile section of straightaway reached early in the run, along which it is expected contestants will attain speeds of 100 miles an hour. Further on is a winding, walled stretch crossing the Sierra Madre mountains.

To minimize risk of accident, Mexican soldiers will be posted along the entire route with instructions to keep the road clear throughout the race.

Chambers of commerce of Monterrey and the two Laredos are sponsors for the race, offering \$2,500 in prize money and other awards. One of the main objects is to show how close the interior of Mexico really is, when motorists use the new highway.

**Life's Tragedy**  
After all, the great tragedy of life is its exceeding brevity.—Woman's Home Companion.

**Hears From Own Radio Station**  
SAN JOSE, Cal. (AP)—Much of the news concerning the work of Father Bernard Hubbard of Santa Clara university in Alaska is received by Jack Anderson here. He operates a shortwave amateur station, W6ACV, and the messages he receives come from the radio station he established at Ugashik in the far north a year ago.

**Coast Highway Nearly Completed**  
ASTORIA, Ore. (AP)—Oregon State highway department figures disclose this state has spent \$17,278,679 on its portion of the now nearly completed

## Farmers Co-op Creamery Holds Annual Meeting

By Mrs. L. Z. Terrill  
(Observer Correspondent)  
UNION, Ore. (Special)—The first annual Farmers' Co-operative creamery picnic to be held here since the dedication of the new local plant was held on Saturday and farmers from all sections of the valley gathered to spend the day in Union. Following the bountiful basket lunch held at the city park, the officials of the creamery served a pint carton of ice cream to each person. Tickets were issued and these had to be presented to secure ice cream. More than 500 pints of ice cream were served and this was supposed to be a fair estimate of the number in attendance. However at the program in the afternoon there were about 300 gathered about the band stand.

R. H. Jackson, manager of the local creamery, opened the program with a report of the first 10 1/2 months production of the local plant. At the rate of butter production he stated that the creamery will have made more than one-half million pounds of butter the first year, and so far 94 per cent of all butter made has made a score of 92 per cent which is distinctly quality butter he said. The score has increased about 2 per cent since the unit was established here and the sales of Sunshine butter has increased 225 per cent.

Several by-products are handled here, including cheese, dried buttermilk and fresh buttermilk. The latter is sold as fast as it comes from the churn. The plant has cut overhead expenses wherever possible and the manufacture of their own ice has helped to cut costs. The hauling costs during the last year have been less because of the shorter distances to be hauled.

W. R. Wagner, of Payette, general manager of the Farmers Co-operative, spoke of the high cost of the things the farmers have to buy as compared with the prices he receives for his products, and hopes that some adjustment could be made. He explained the new marketing affiliations of the Co-operative creamery since their withdrawal from the Challenge Marketing association of California. They have found their own marketing system has reduced the cost of handling below the cost of manufacturing where previously it had been higher.

R. T. Davis, of Weiser, director, spoke of a trip taken recently through the dairy districts of Wisconsin, Illinois and other mid-western states. Extremely low prices are being paid for butterfat. Around Chicago 20 cents a pound was being paid for surplus butterfat and 75 per cent of the production was rated as surplus. In Texas the best grade of butterfat was bringing the producer 12 cents and the surplus eight cents.

Walter Pierce concluded the program, speaking chiefly on the legislation that would benefit the general status of the farmer. Mrs. Pierce gave a few well directed remarks on how to cut the farmers' taxes by cutting down on the expenses of running the government.

At the business meeting held at the gym in the forenoon, three directors were selected as follows: three year term, Ed Pratt, of Imbler; two year, R. Austin, mid-valley; and one year, J. A. Nice, of North Powder. Joe Fisher, of Wallowa, was the outgoing member. Mr. Nice was re-elected and the third member had never served so it was necessary to elect another to fill the vacancy.

Mr. and Mrs. Francis Dobbin, who had been visiting relatives in Montana, arrived in Union Thursday evening for a two weeks' visit with his parents, Mr. and Mrs. Will Dobbin. House guests of Mrs. Nora Webb this week are Mrs. Frank Pierce and Mrs. Violet Densy, primary teachers in Portland, and Miss Helen De Armand, art teacher. They spent last week at Wallowa Lake. Mrs. Pierce was formerly Carolyn Schelling, who taught for three years in Union several years ago.

**Some Readers**  
Uncle Ab says reading doesn't do some folks much good. If they agree with a book, it's because they already know what it says, and if they don't, they don't like it.

## 25 ORGANIZE NEW MUSIC CLUB HERE

(Continued from Page One)  
The small ball room of the Sacajawea Inn. Twenty-five people signed up for membership last evening, and they are confident of doubling that number before the next meeting.

Mrs. W. H. Parkinson acted as chairman at last night's gathering, and explained the purpose and possibilities of the club. Every man, woman and child who can play an instrument or sing is urged to join. Dues of members will be only ten cents per month, which is merely enough to hire the hall for the regular meetings to be held once a month.

The real object of the club is to increase community interest in music, to give students more public singing and playing experience, and to provide an incentive for those who are not studying at present. Various members of the club will contribute musical numbers to the monthly program, it being a requirement that every member appear on a program not less than once in three months. The best numbers will be selected for occasional public recitals.

The members who joined last night decided to postpone permanent organization of the club until a larger membership is secured, in order to make sure that the permanent officers shall be representative of the community.

**LEGALIZED GAMBLING URGED AS BRAZILIAN TOURIST HAIR**  
RIO JANEIRO (AP)—Agitation for legalized gambling in Brazil and especially here in the capital is growing.

Proponents argue that France has attracted thousands of tourists to her resorts by this means and that casinos here would have similar effect. The agitation increased after a recent decree cut down the number of lotteries. Advocates of the "wide open town" said that surreptitious gambling could be wiped out only at great expense, and that regulated games would bring new money into the country.

**TO EMPLOY 500 MEN**  
PORTLAND, Aug. 2 (AP)—Multnomah county commissioners Monday voted to expend \$94,194 of the emergency relief fund for putting unemployed men to work on ten county road projects. Work will be given to about 500 men, for a period of 60 or 90 days.

**NO MOSS IS GOOD NAME**  
CLEVELAND (AP)—No Moss proved to be a good name for an Indian-owned horse at Thistle Down race track here. No Moss, a seven-year-old which had never won a race, showed he was not yet a moss back by winning his race with eight lengths to spare.

## Unloaded Gun Is Cause of Death

KLAMATH FALLS, Aug. 2 (AP)—Lloyd Tittle, 20, of Mouthouth, was fatally injured at Tule Lake Monday when a rifle which was believed to be unloaded, discharged as his companion was cleaning it.

The rifle was held by Lester Good, 17, also of Mouthouth. The two boys had been working on a ranch operated by Tittle's sister.

**LEGALIZED GAMBLING URGED AS BRAZILIAN TOURIST HAIR**  
RIO JANEIRO (AP)—Agitation for legalized gambling in Brazil and especially here in the capital is growing.

Proponents argue that France has attracted thousands of tourists to her resorts by this means and that casinos here would have similar effect. The agitation increased after a recent decree cut down the number of lotteries. Advocates of the "wide open town" said that surreptitious gambling could be wiped out only at great expense, and that regulated games would bring new money into the country.

growing boys . . .  
such appetites . . .

but  
summer meals  
are easy now

SUMMERTIME need bring no fears to the kitchen. There is no scorching heat in a Hot Point Electric Range. There is just enough heat for cooking the food, none for warming the house. That is why electric cooking is advantageous. The heat is confined to a small area.

Turned on with a snap of a switch. No matches, no open flame, no fumes, no soot or smoke, nothing but applied heat and genuine satisfaction to the cook. Those boys of yours with ravenous appetites, give them some eat . . . real cooked food . . . all they want. You will be cool and fresh afterwards, ready for an evening's enjoyment.
