Island City Aid—Mrs. Merle Stoddard is to entertain the members of the Island City Ladies Aid society tomorrow at her home near Island City. She will be assisted by her mother, Mrs. Sam Erwin.

Cutting Much Wood—The free use of dead timber, offered by the government is exceptionally popular this year and it is estimated that an unprecedented number of permits will be issued this season. The Umatilla forest service office, last week, 1122 permits were issued and 5,970,850 board feet of wood cut, the estimated value being \$2,985,500. This year, however, it is thought the figures will be greatly increased. Each permit holder is allowed to cut 80 cords and must not, under penalty of prosecution, sell the wood. Anyone who wishes to cut dead timber with the intention of selling it, must pay from 35 cents to 50 cents a cord for it. Permits are issued by the following ranger stations: Okiah, La Grande, Hephzibah, Walla, Dayton and Pomeroy. A visit to the Umatilla forest reveals that there are hundreds of wood choppers and all sorts of conveyances including horses and wagons, trucks and passenger autos are being used by people who are cutting wood for winter use.—East Oregonian.

Countrywomen's Club—The Countrywomen's club will meet Friday afternoon, August 12 at Riverside Park in La Grande. The meeting is called for 1:30 o'clock.

Lindbergh Ransom Bills Turn Up In Halifax, Report

HALIFAX, N. S., Aug. 10 (AP)—Three twenty-dollar bills, two tens and two fives, were definitely identified as bearing the serial numbers of the ransom money paid in the Lindbergh kidnaping case.

Police said they did not know whether the plate number, a small sign in the right hand corner of the bills, corresponded to those on the \$50,000 in bills thrown over a cemetery hedge in the Bronx, by Dr. John P. Condon, on April 2, a month and a day after the Lindbergh baby was kidnaped.

The bills were deposited by Miss Carrie Anderson, a nurse of Hampton, Va., at the bank of Nova Scotia at Albert, N. B., last week. Bank officials turned them over to the Royal Canadian Mounted police who wired their information to Ottawa Sunday night. General McBrien, head of the mounted police, said he was investigating.

A statement attributed to police at Montreal that plate numbers of the bills differed from those on the ransom money admitted when it was admitted to the figures were not available for checking.

Miss Anderson said she had obtained the \$60, all the American money she had, from a bank in Hampton, Va.

Co. Agents In Conference At Ex. Station

The district conference of county agents held at the Eastern Oregon experiment station at Union on Friday was well attended. The meeting was called by F. L. Ballard, state county agent leader, from Oregon State college, for the purpose of checking over the results of the various farm crops experiments. The day was spent in going over the results of the yields of the different crops raised at the station this season.

The plots of created wheat were of especial interest to the county agents because it comes the nearest of any domestic wheat to taking the place of the Canadian bunch grass when seeded under range conditions.

The agents were also interested in the variety trials of flax and were surprised at the high yields that have been obtained under the soil and climate conditions existing in the Grande Ronde valley. This locality seems especially well adapted to the raising of flax and the yields were the highest of any of the experiment stations in the state.

County agents who attended the meeting at the station were: R. G. Johnson of Canyon City; H. G. Avery of La Grande; N. C. Donaldson of Enterprise; P. T. Fortner of Baker and R. G. Larson of Ontario.

Bigger Livestock Show Promised

"Prospects for the livestock show at the 1932 state fair are very favorable and to all appearances we will have one of the largest shows we ever had," says Ella S. Wilson, director of exhibits. "Applications are coming in for premium lists and entry blanks from eastern breeders who are planning on making western circuits with their herds."

"Oregon and Washington breeders are fitting their herds and there will be some keen competition when they meet in the show ring at the Salem fair."

"Some of the new exhibitors who have written for information about entering at this year's fair are as follows: B. H. Bull & Son, Brantford, Canada; B. A. Elliott, Moran Tex.; R. C. Silver, Waterloo, Iowa; Woodland Farm, Wilmington, Ohio; H. D. Wetzel, W. O. Ziegler, Delaware; W. Ernst, Marcus, Iowa; Lillard Stock Farm, Arlington, Tex., and several others."

"More and more livestock exhibitors are coming to realize what a display at the fair means in the way of advertising their livestock. It has been said many times that a state fair is the show window for the display of the farmers' wares."

Hi-Ways to Health by ADA R-MAYNE OREGON DAIRY COUNCIL

Your Milk a Wholesome Food—No matter how well milk is handled in the home it soon acquires a low temperature. This is because of the lactic acid forming bacteria normally present in milk and which increase rapidly, under heat at a low temperature, causing milk to sour. The consumption of sour milk or lactic acid milk has long been considered a means of maintaining bodily health and vigor and true prolonging life.

While the possible effect on longevity has not been proven, the beneficial effects of sufficient amount of lactic acid is not questioned. This is because of the ease and speed at which it digests in the stomach and because the additional acid tends to retard the growth of putrefactive bacteria in the intestines. For these reasons, there is no other acid milk may well be more generally used.

Sour milk and cream are widely used in cooking and, like sweet milk, add to the food value of any dish. The rich cream of sour milk gives a smoothness that no other liquid produces and its acid content acts as a leavening agent. Do not throw away milk or cream that has soured but reject the fact that with it you can prepare nutritious and appetizing dishes. Sour milk lends its slightly tart flavor and healthful qualities to many favorite recipes.

For a rich cream filling, try this sour cream dressing:

1 cup sugar, 2 tbspn. cornstarch, 1 cup sour cream, 4 egg yolks, 1/2 cup sugar, 1/2 cup raisins, 2 tbspn. butter, 1/2 tpsn. vanilla, 1/2 tpsn. salt.

Mix sugar and cornstarch (when used) and add to the cream. Add the egg yolks, raisins and butter and cook over hot water or very low fire until thick, stirring constantly. Remove from fire and add vanilla and salt. Cool before spreading.

Raisin-Cream Filling: 1 cup sugar, 2 tbspn. cornstarch, 1 cup sour cream, 4 egg yolks, 1/2 cup sugar, 1/2 cup raisins, 2 tbspn. butter, 1/2 tpsn. vanilla, 1/2 tpsn. salt.

Mix sugar and cornstarch (when used) and add to the cream. Add the egg yolks, raisins and butter and cook over hot water or very low fire until thick, stirring constantly. Remove from fire and add vanilla and salt. Cool before spreading.

Only one member was gainfully occupied in 176,415, or 66.2 per cent of Oregon families.

Of the whole number of families in the state, 179,848, or 67.5 per cent, reported no children under 10 years.

Families reporting lodgers numbered 24,955.

Hot Lake Personals

By Harriet MacDonald (Observer Correspondent)

HOT LAKE (Special)—Royal D. Jones has returned to the sanatorium for a few days treatment. Thos. Jones, of Cove, his nephew, became suddenly ill at his home and joined his father.

Carl Halverson, of Everett, Wash., is here for a few days treatment and baths.

Mrs. Paul Hanson, of La Grande, is a new arrival at the sanatorium. She is getting along nicely.

Al P. Lewis, of Moscow, has returned and is very interested in aeronautics and is seen daily at the La Grande field.

Mrs. Lydia Lantz, of Cove, had a sudden attack of neuritis and came to the sanatorium. She is improving steadily and will return to her home shortly.

Mr. and Mrs. Nele Morrison, of Union, are very proud in the arrival of an eight and three-quarter pound baby boy. Mrs. Morrison and the baby are getting along very nicely.

Mr. and Mrs. W. B. Miller, of Spokane, have returned to continue their treatment for a few weeks longer after a few days at home.

Mrs. J. H. Russell is spending a few days at the sanatorium.

Mrs. W. P. Robinson, of Enterprise, was a hospital patient this past week but has not returned to her home.

Dr. Mark Phy and Mrs. Phy had their guests last evening, Mrs. Marcia Spencer, of Denver, Colo., and Mrs. Margaret Phy, of Eugene, his sisters.

C. M. Lockwood, of Portland, came to spend the weekend with her husband, who is an employe of the sanatorium.

A general cleaning up has been under way the past week, on the ground of the Hot Lake sanatorium. A great improvement is made in the landscaping as well as lessening the fire hazard that the dry grass would necessarily cause.

Mr. and Mrs. Warren Gilbert spent Sunday at Fondosa with Mr. and Mrs. O'Brien.

Leonard Cates, who has been working in the kitchen, took suddenly ill. He spent a couple of days in the hospital and plans now to return to his home at Elgin until he has recovered sufficient strength to return to work.

Mrs. Harriet MacDonald has been quite ill the past week. It is hoped that she will soon be able to be up again and resume her place as librarian and consolier of the sick.

Mr. and Mrs. Oxtan, of Ontario, came to the sanatorium last week. He plans to return home very soon.

Interesting "Families"—The earth is filled with families. The most interesting, perhaps, to geologists is the carbon family. The diamond is essentially pure carbon and then comes graphite or plumbago, used for lead pencils and stove polish, then anthracite coal, then bituminous coal and finally lignite and turf or peat.

White Coat Suit IS FACED IN BLUE

WASHINGTON (AP)—Mrs. Charles Francis Adams is wearing a white coat faced in blue. Her dress is in sport lines, and the coat is seven-eighths length.

Chaplains' Insignia—Christian chaplains in the United States army wear a silver Latin cross, 1 inch high, and those who are Jewish wear a double tablet bearing Roman numerals 1 to 10, surmounted by two equilateral triangles interlaced, all silver, 1 inch in height.

Sago Valuable Food—Sago forms the principal food of the millions of Siamese, Malays and Chinese inhabiting the regions where it thrives. Much of the land there is out up by vines and mountains and covered with forests. But swamps also abound in which the tall sago palms fortunately flourish.

Eugene Vinson played 72 holes of golf in 294-six over par—to win the Mississippi state open championship.

In 1876 we with everybody here had our Indian scare. When commands went out to go to Union at once, with our three little children in the wagon we hurried through the night to get to our destination. Can we of today even imagine what those early pioneers experienced?

Five children were born to them but only two are living.

In the past several years, Mrs. Daugherty has made several trips to the eastern states, to California, to Seattle and other places, but she says "Wherever I go, north, south, east or west, none of our bunch would go back to the beautiful Grande Ronde valley, especially back to Cove."

Mrs. Daugherty has had an unusual-ly rich and beautiful life. After the death of her first husband, she went into the great home and cared for the motherless children, a place she filled for many years. And in later years, the infant daughter of her granddaughter, "Bessie," came into the home and still with her and her most cherished possession.

She has a pleasant home at Cove that is surrounded with flowers all being grown and cared for by her own hands.

Seed Cost Small; Planting Insures Many Vegetables

If you have never planted for a fall garden, do so now, urges C. L. Vincent, extension horticulturist. The cost of seed is little, but the value received in terms of a continuous supply of fresh vegetables for canning, drying and
