General Tang to Resist — One of the Peiping dispatches today said General Tang Yu-Ling chairman (governor) of Jehol province had asked for military reinforcements, adding that he would "resist to the last man."

Foreign dispatches from North China were more conservative and told of sporadic fighting along the Jehol eastern border. It was not clear whether the Japanese were launching a campaign to occupy Jehol or whether they were merely trying to force Ganshiro Ishimoto, a kidnapped former Japanese army officer.

Meanwhile, China's political crisis was believed nearing a solution with the decision of Wang Cheing-Wei to resume his office as president of the executive council. It was Wang's resignation that brought on retirement of the Nanking cabinet Aug. 9.

Wang said he consented to head the plans of numerous leaders to carry on temporarily as president of the council in view of the crisis through which the nation was passing.

This development and indications from Peiping that Marshal Chang Hsiang-Liang likely would remain politically active, led to the conclusion that the government soon would find itself just about as it was before August 9.

The seemingly revived anti-Japanese boycott assumed large dimensions in the public mind with agitators threatening violence against those who handled Japanese goods.

The Chinese chamber of commerce branded the boycotters as "traitors" and announced an investigation. The Japanese had accused the association of supporting the movement.

To Hestate Policies — The foreign minister's address will be confined chiefly to a restatement of Japanese defense of her policies toward Manchuria and China.

Although formal ceremonies of the diet opening in the presence of the emperor will not come until tomorrow, the legislators today voted 176,000,000 yen (\$42,240,000) for projects to relieve distress among peasants, fishermen and small merchants.

Today's appropriations made the total for the fiscal year ending March 31, 1933, 1,956,000,000 yen (\$496,440,000), the largest in Japan's history.

STRONG THRUST REPORTED — SHANGHAI, Aug. 22 (AP) — Chinese dispatches from Peiping and other North China points today said Japanese forces in Manchuria had launched a strong military thrust into Jehol, the province that borders on China proper.

The dispatches said fighting was going on along a "broad portion" of the Jehol eastern border, with the Chinese falling back before Japanese artillery, airplanes and machine guns.

Japanese bombing planes were reported as spreading terror among the border populace, which was streaming out into the open country seeking safety.

R. F. C. LOANS MADE PUBLIC BY TRIMBLE

Loans: \$2,247,500 to insurance companies; \$90,000 to a joint stock land bank; \$580,716 to livestock credit corporations; \$747,000 to mortgage loan companies, and \$6,862,700 to railroads.

Trimble Takes Exceptions — Trimble in making public the report, following his decision last Thursday that he had no other choice under the law, took exception to a statement by Representative Treadway, of Massachusetts, a conferee on the relief bill, that his decision to make public the reports was to gain favor with Speaker John N. Garner.

Such a charge is ridiculous," Trimble said. "The law gives me no discretion in the matter. Speaker Garner has never attempted to influence me in the discharge of my duties. I have considered every objection raised to the publishing of the reports and no one has cited to me a single decision of the court to support such objections."

My attorney, South Trimble Jr., said supreme court decisions to support his opinion. If Mr. Treadway did not consider the opinions sound why did he not advise me of the defects instead of making charges through the Republican committee?"

Trimble said Treadway had told the house he would vote for the conference report on the relief bill "not because I approve of all its provisions, but I think when you are beaten the best thing to do is to acknowledge it."

Ten minutes before the hour I had set to announce my decision on Aug. 18, I received a telephone call from a high official in the administration asking what my decision would be," Trimble said.

Contrary to Hoover's Wishes — I advised him of the conclusion I had reached after reviewing the legislative history of the law. He stated that my decision was contrary to the wishes of the president, and was not authorized by him.

I told him I would announce my decision that day but the report was not to be opened to inspection until Aug. 22, being one month after the passage of the act. He said that was a fair way to handle the matter as it would give any interested person who did not agree with my construction of the law an opportunity to petition the court for a restraining order."

Chairman Pomeroy's letter said that by the close of the period all except \$26,000,000 of the \$250,000,000 second series 5 1/2 per cent notes authorized by the board of directors on June 16, 1932, had been sold to the secretary of the treasury.

On July 23, the board of directors authorized the issuance of a third series of notes up to an aggregate amount of \$250,000,000 maturing October 27, 1932, and bearing interest at the rate of 3 1/2 per cent per annum," he said.

The notes will be purchased by the secretary of the treasury as the funds are required by the corporation.

During the period the corporation allocated \$5,000,000 to the secretary of agriculture in accordance with the provisions of section two of the R. F. C. act making a total of \$97,500,000 allocated from February 2 to July 31, inclusive. Of this sum \$75,000,000 has been paid over to the secretary of agriculture as of July 31.

quarries and cement mills. "A more optimistic feeling prevailed," the bulletin concluded, "with the outlook for August considered encouraging."

PESSIMISM IN RETREAT — NEW YORK, Aug. 22 (AP) — Pessimism was again driven into retreat on the stock exchange today as spirited buying swept prices up to their best average levels on the summer rally.

The bears, who have been retreating steadily, again found themselves pinched.

Sales approximated 3,000,000 shares and extreme gains ranged from \$1 to about \$8 a share.

Firmness of the commodity markets went hand in hand with strength of the securities market. Cotton and wool were higher and wheat closed firm with futures quoted in Chicago at about 1/2 cent higher.

The bond market gave an impressive exhibition of strength.

Union Pacific swung forward to its highest price in months, closing at \$78.75 for a net gain of \$0.75 a share for the day.

American Telephone closed at \$115.87, up \$6. Santa Fe closed at \$54.02, up \$6. A similar gain was made by Allied Chemical which closed at \$82.

Some Rabbit, Eh? Just a Bunny In Texas!

Here's a funny bunny from Odessa, Texas, where men are men and rabbits look like mountain lions when photographed. When Odessa planned to celebrate its 64th civic anniversary a rabbit roping contest was staged. Humane groups protested. The question went to court. Then Judge Henry Webb ruled that Texas rabbits were pests and that roping them was not cruel. To show his jubilation an Odessa cowpuncher posed for this picture aboving how the plains west of the Pecos can produce. The comical cameraman did the rest.

VALLEY STREAM, N. Y., Aug. 22 (AP) — With eight full days in the air as their immediate goal, Mrs. Francis Marsalis and Mrs. Louise Thaden flew on today, already far past the old endurance flight record for women.

The young matrons started their flight at 1 p. m. eastern standard time, Aug. 14. They passed the old record of 123 hours, held by Bobby Trout and Edna May Cooper, late last Friday afternoon. Yesterday they completed a week in the air.

Highway Meeting Set For Tuesday

SALEM, Aug. 22 (AP) — Two preliminary meetings of the state highway commission, both of which will be taken up largely with routine matters, will precede the big session scheduled for tomorrow afternoon at Portland, it was announced today by the highway department. Consideration of the short route to the sea will be taken up at the public meeting.

Members of the highway engineering staff will leave today for Portland where the commission will be in conference tonight. It was indicated this would not be a public meeting. Tomorrow morning the commission will hold another session, and at this meeting a delegation from Dufur will be heard on proposed road improvements.

DISTRIBUTING FISH — THE DALLES, Ore., Aug. 22 (AP) — Thousands of rainbow trout, propagated at the Oak Springs hatchery of the Oregon game commission near Maupin, are now being distributed in the Deschutes and other streams of the Dalles. The fish are almost of legal size. Ten thousand of them were placed in the Deschutes river near Battlemake grade.

ROOSEVELT AIDS HOOVER — MANILA, Aug. 22 (AP) — The name of Roosevelt, which is borne by the Democratic presidential nominee, also will be brought into the Republican campaign in behalf of President Hoover.

Theodore Roosevelt, governor general of the Philippines, said today he would participate in the national election Sept. 14 to participate in the effort to bring about the reelection of the president. Mrs. Roosevelt will remain here, since her husband expects to return in December.

The participation of the governor general in the Republican campaign was understood to be desired by party leaders because of the value of the name. In addition to that, he has had experience in the field of politics on his own account.

Lions Committee To Aid Campaign — A committee consisting of Fred Henning, Marcus Roesch, Jack Perri and Ward Hopkins, was appointed at the Lions luncheon today at the Sacajawea for the purpose of meeting with representatives of the Rotary club, chamber of commerce and American Legion in reference to the campaign for funds to aid the drum and bugle corps of the latter organization.

The campaign is to begin Wednesday. During the meeting there also was a discussion of the Starkey-Utlah road project.

Lion George Rogers, of Enterprise, was a visitor.

the flood of telegrams, but also by the receptions accorded the Democratic presidential nominee at many points in Ohio, regarded for years as a Republican stronghold in presidential elections.

The major part of this week will be devoted by Mr. Roosevelt to a continuance of the hearings in the case of Mayor James J. Walker of New York, whose removal from office has been recommended.

On Saturday, the second stump speech of the national campaign will be made by the governor at Segrist, N. J., where a meeting of Jersey Democrats has been arranged by Mayor Frank Hague of Jersey City, Democratic leader, and one of the chief Al Smith boosters at the Democratic national convention at Chicago.

BARRAGE OF CRITICISM — WASHINGTON, Aug. 22 (AP) — A barrage of criticism from political foes descended today upon Franklin D. Roosevelt today for utterances in his campaign address of last Saturday at Columbus.

Prominent Republican spokesmen were joined by Norman Thomas, the Socialist presidential candidate, in pressing upon Roosevelt inquiries as to why, as governor of New York, he had not already instituted the reform in stock exchange and bank regulation which he espoused at Columbus.

In addition, the state department accused him of insinuating the department has "assisted the bankers in the past" by passing on or approving foreign loans. It again denied this activity and said "it would be interesting to know whether Mr. Roosevelt intends to revive this long since discredited story."

Roosevelt's speech had promised that if he were elected it would no longer be possible for international bankers to sell foreign securities in this country "on the implied understanding" that they had been passed upon in Washington.

Representative Snell, Republican leader of the house of representatives, himself a New Yorker, issued through the party's national committee in Washington a driving attack upon the Democratic candidate. It accused him of having facts wrong in his speech, of joining unacted incidents and of possessing a "congenital inability to think clearly."

He followed this by piling up queries as to the lack of New York state action during the time Roosevelt has been governor to secure control of security issuance and banking advocated by the candidate as a national measure.

Senator Moses of New Hampshire, gave out in New York a statement to the effect that Roosevelt's address was worded in terms of childish intelligence, while "the presidency is a man's job."

"Governor Roosevelt," he said, "evidently looks upon it as a combination of the nursery and Coyn's financial school; and the nine points of salvation which he enumerates are only neo-Bryanism."

Mark L. Requa, Republican national committee man for California said at Carmel, Cal., that the speech lacked "any evidence of statesmanship or any profound comprehension of the problems confronting the nation."

Thomas, addressing a Socialist rally in Providence, R. I., said he agreed with most of the things Roosevelt said about President Hoover but "they sound funny from the lips of a Democrat."

You can't take the Democratic party away from Wall Street—Wall Street has been paid for it, as it has the Republican party."

He directed at Roosevelt questions as to what he had done as governor since January, 1929, to "bring Wall Street to terms," and accused him of "running as a radical in the west and as a safe and sane friend of good business in the east."

CARDS URGE SMITH VOTES — NEW YORK, Aug. 22 (AP) — The Times said today that cards urging voters to write to the name of Alfred E. Smith on the presidential ballot in November have been circulated in three or four middle-western states.

Cards received here, the paper said, were traced to the Smith club of Nebraska, formed before the Democratic national convention.

Reports from Nebraska said that no Smith club had been active recently, though before the convention there was a "Smith or Hoover club," the members of which pledged themselves to vote for Hoover in the event that Smith was not nominated by the Democrats.
