Pure religion and undefiled before God and the Father is this. To visit the fatherless and widows in their affliction, and to keep himself unspotted from the world.—James 1:27.

INDUSTRIAL RESEARCH

Industrial research is one phase of our national activity that did not receive a setback because of the depression. Even where production has been at a standstill during the past few months, the laboratory has continued to function, seeking to improve its industry's manufactured products and perhaps solve its depression problems.

There were very few industrial research laboratories a quarter of a century ago. Five hundred were officially listed 10 years ago. Today there are 1600.

It is reassuring to learn from the American Chemical society that 51.3 per cent of the industries surveyed have actually increased their expenditures for research during the economic stress of the past two years. Thirty per cent of them reported a decrease, while 18.7 per cent reported no change.

Industry knows that though its wheels may slacken their speed or stop altogether, and though dividends may have to be passed, the laboratory must continue its endless search for perfection. A lasting lesson was learned during the depression of 1920 when many industrial research laboratories were closed, to the irreparable loss of their owners.

Out of the laboratory come discoveries which have helped large industries to weather the period of business depression. Perhaps a new by-product is discovered, which meets an urgent demand. Or perhaps new methods of manufacture make possible a considerable cut in the cost of production. And when business, already showing signs of improve-

OUT OUR WAY

By J. R. Williams

Case Is Settled For \$86,000 Sum

THE DALLES, Ore., Aug. 31 (AP)—Acceptance of \$86,000 as her share in the estate of the late Frank A. Seufert was agreed upon by Mrs. Lilly Seufert Rice of Portland, daughter of the packer, in a settlement Tuesday on the eve of a lawsuit to have been tried in the circuit court here in which Mrs. Rice was demanding a one-fourth interest in the \$1,166,450 estate.

In the proposed suit Mrs. Rice alleged she had been promised an equal share with her three brothers by reason of an agreement not to remarry following a divorce from her husband. The millionaire packer was represented as having desired his daughter to act as a companion to Mrs. Seufert.

The action was filed when Seufert's will disclosed that his daughter had been left but \$50,000.

PORTLAND LIVESTOCK

PORTLAND, Aug. 31 (AP)—Cattle 115 calves 150 about steady. EVERY FEW DAYS

From now on new things will arrive at Richardson's Art and Gift Shop. Things which you will find just right for that gift which you wish. And the prices are very reasonable. They buy either directly from the manufacturer or directly on import, and

ment, again reaches normal health, our whole country will be better prepared than ever to compete for world trade because of this uninterrupted train of research.

JOSEPH PERSONALS

By Mrs. Maida Stevenson (Observer Correspondent)

JOSEPH, Ore. (Special)—Saturday evening a beach party was held at Walhwa Lake by the following young people: Irene and Frances Schupp, Lois Gelsinger, Max Sprague, Darrell Gelsinger and Frank D. McCully Jr. They enjoyed a winter roast.

Mrs. Alice McClain is sick this week and confined to her bed. Rev. D. E. Smith left Monday for Nampa, Ida., to attend conference.

Mr. and Mrs. Elmer Roup and Mrs. Alice Meek made a trip to Innahla Saturday to visit the latter's daughter, Mrs. Thomas Marks.

Mrs. Mollie Moss and granddaughter, Phyllis, returned to La Grande Sunday after a visit with relatives in Enterprise and Joseph.

Mrs. J. A. Baltier has been quite sick at the home of her daughter, Mrs. Guy Mitchell, east of Joseph.

Mr. and Mrs. Ira Snyder, of Enterprise, were guests at the Eben cottage at the lake Sunday.

Mrs. J. L. Searcy entertained in honor of her mother, Mrs. William Ragsdale, of Moro, Saturday afternoon. The following were present: Mrs. Daisy Rumble, Mrs. D. B. Hendricks, Mrs. Andrew Stewart, Mrs. A. Collinsworth, Mrs. Annie Phinney, Mrs. A. M. McKinley, Mrs. C. E. Pal-

ten, Mrs. Thomas E. Flesher, Mrs. Flesher, Miss Mabel Flesher, Mrs. C. P. Ragsdale, Mrs. William Ragsdale Jr., Mrs. Maida Stevenson, Mrs. William Ragsdale and the hostess, Mrs. Searcy. Refreshments of peach ice cream and cookies were served. Conversation and quilt piecing occupied the afternoon.

E. C. Siles of Walla Walla, who has been conducting swim week at La Grande, came here to select a senior Red Cross life saver for this district. Frank D. McCully Jr. took the best Saturday and has received word that he successfully passed and had received the appointment. He is very happy and proud to wear the official badge.

Joseph was practically without lights Thursday evening because of a break in the pipeline above the plant at the lake. Workmen soon put the Joseph plant in use, however.

Mrs. Henry Wright, of Sequim, Wash., and her sister, Mrs. G. H. Vest, of Enterprise, were guests Thursday of Mrs. Alex Gillespie.

Otto Schaltenbrand and Mrs. Lulu Wilson and children, of Portland, who have been visiting Mr. and Mrs. Charles Walter, left for their home Saturday. Mrs. Wilson is Mrs. Walter's daughter and was Lulu Coverdale.

Frank and Ed Whiston are visiting their sister, Mrs. Lizzie Nodine, at Union this week.

Mr. and Mrs. Olmer Hepburn and children, Max, Lois and Hazel, of Klamath Falls, are visiting her mother, Mrs. Julia Estes, Mr. and Mrs. Hepburn formerly lived here. He is

OREGON CLUB WOMEN OPPOSE SCHOOL BILL

Declaring that the voters must first make certain whether the advocates of the Zorn-Macpherson school moving bill are "working on the construction gang or on the wrecking crew," the Oregon Clubwomen, official publication of the Oregon Federation of Women's clubs, has come out editorially against the measure.

Pointing to the fact that extravagant claims are being made that the measure would save "One Million dollars annually," the Clubwomen editorially says, "In studying the budgets of the institutions of higher learning, we find that the anticipated income for all is but Two Millions of dollars. In other words, if we consolidated the college and the university on the Corvallis, we should be able to support the double student body at Corvallis for one-half the cost and throw in for good measure support for the medical school at Portland, the Downbecher hospital, the two Junior colleges at Ashland and La Grande, and the teachers' college at Eugene and in addition create a new institution at Salem. It seems as if we were paying Aladdin."

In commenting on the claim that Corvallis should be chosen as the site instead of Eugene because it has more grounds and buildings the editorial continues: "If it were sheep that was to be herded, this reasoning would hold, but we are not herding sheep at our university and college, we are training citizens, preparing the youth of our state to assume places of leadership in industry, engineering, agriculture, business and in the world of letters and art. In the matter of class-room space, there is wide difference in the needs of various courses. A greatly increased student body will mean unquestionably a necessity for an increased building program, both for instruction and for housing. This increased building cost would be more than the presumed savings for many years to come. Before using we must make certain whether the advocates are working on the construction gang or on the wrecking crew."—Cook Bay Times.

Animal Characteristics

All of the ruminants or cudchewers, namely cattle, sheep, goats, deer, antelope and camels, invariably get up with their hind legs first, while other large quadrupeds use the opposite procedure, with forelegs first.

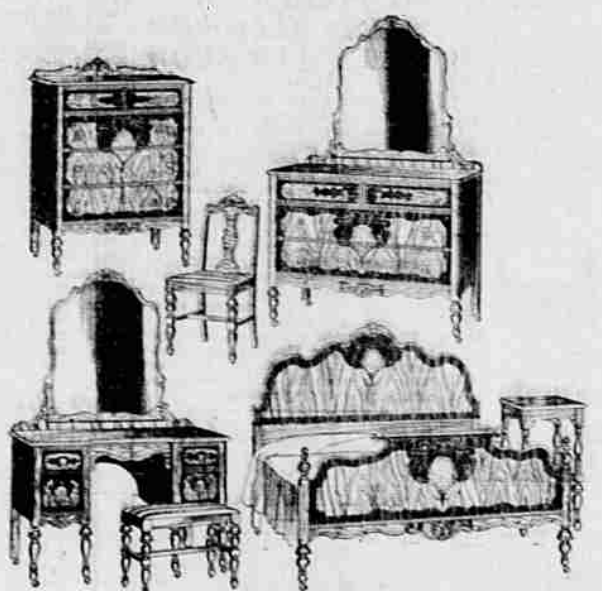

Properties of Light

Light has the properties of a wave motion, and lights of different color are distinguished from one another by different frequencies of vibration, the frequency of the extreme visible violet being very nearly twice that of the extreme visible red.

FOUR FLOORS OF FINE FURNISHINGS

"--HENCEFORTH AND FOREVER FREE"

LINCOLN had been dead many years . . . the world was waiting for another Emancipator. To millions of women, slaving over washboards, goose-irons, floor-scrubbing and lamp cleaning, the responsibilities of housekeeping meant the loss of leisure, of youth . . . of beauty . . . of health itself.

Today's housewife is a woman of affairs with time to devote to useful physical and mental recreation. Not one man . . . but a score of inventors, aided by hundreds of engineers . . . have declared her "henceforth and forever free." Electricity has liberated womankind!

The humblest home can today afford the convenience of electrical servants. Tasks, once back-breaking, are accomplished easily. Electric washers, irons, vacuum cleaners, ranges and heaters are within everyone's reach. The current to run them flows from your wall-plug . . . at the lowest cost in history.

Eastern Oregon Light & Power Company

The woman of moderate means today has time to devote to reading, beauty-culture, hobbies and social service work; time that in her own mother's day was filled with arduous tasks.
