

LOCAL BRIEFS

Flued—John R. Underwood, of Enterprise, was fined \$5 and \$4.50 costs in justice court last night on a charge of driving his car while it was equipped with Washington license plates. The defendant elected to serve out the fine and costs in jail.

Fine Remitted—John Schiedewitz, unemployed out-of-state tourist, was fined \$5 in city court last night on a charge of having four persons in the driver's seat of his automobile. In view of the circumstances and that the defendant was unfamiliar with the Oregon laws, the fine was remitted.

At Hospital—Miss L. L. Berner, Flora, Ore. teacher, had her tonsils removed at the Bovy hospital Tuesday and returned to her home yesterday. Miss Grace Cole, also of Flora, underwent a nasal operation, the same day and returned to her home Wednesday. Mrs. E. McEwen, of Baker, underwent an operation at the hospital Monday. Miss Jane Shamberger, Payette, Ida. teacher, had a sinus operation on Monday and will remain at the hospital for several days.

Miss Cook Visits—Miss Alice Cook, who has been in Seattle this summer attending the Cornish school, is in La Grande for a two weeks' visit at the home of her parents and with her many friends here. Miss Cook states that Miss Cornish has renewed the scholarship which was awarded to her in the spring and she will continue her work at Cornish at the beginning of the fall term, instead of returning to the University of Oregon where she has been a student for two years.

In La Grande—Mrs. C. D. Putman arrived in La Grande yesterday from her home in Walla Walla and will spend a few days with her La Grande friends.

Start On Trip—Mrs. Lee Wright left this morning for Salt Lake City where she will join her son, Estel, on a trip through California and New Mexico. She plans to be away from La Grande for about a month.

In Baker—Mrs. W. L. Lane, of La Grande, was a recent visitor in Baker, at the home of Mrs. Alban Hermesen.

To The Dalles—Mrs. J. S. Freund and daughter, will attend the Normal school.

To Seattle—W. H. Ferguson, ex-clerk at the Foley hotel who has been serving as a relief clerk recently, left today for Seattle to resume his old position as a welder for the Union Pacific railroad.

From Boise—Fred W. Tollenator, of Boise, transacted business in La Grande last night and left this morning to return to his home.

From Vale—J. P. Van Houten, of Vale, is a business visitor in the city.

From Wallawa—Mrs. Fred Bushman and child are visiting in La Grande from Wallawa today.

Returns Home—Mr. and Mrs. George T. Cochran have returned from a business trip to Milton, Pendleton, The Dalles and Portland. They left last Thursday. While in The Dalles they visited their son-in-law and daughter, Mr. and Mrs. William Roberts Jr., and in Pendleton were the guests of their son and daughter-in-law, Mr. and Mrs. Sam Cochran.

To Have Operation—Mrs. Edward Fitzgerald is in Portland, where she will undergo an operation later this week. Mrs. Fitzgerald was in Seattle on a vacation trip with her husband when she became ill. Mr. Fitzgerald, her husband, and Mrs. Leal Russell, her sister, are with her in Portland.

At Durkee—Mrs. Chris Nelson and daughter, Betty and Ruth, were recent visitors at the home of another daughter, Mrs. Ernest Ferney, at Durkee.

To Puyallup—Miss Mabel Schaefer returned today to Puyallup, Wash., after spending the summer vacation with her parents, Mr. and Mrs. A. M. Cobble. Miss Schaefer is a member of the Puyallup High school faculty.

Vacationing—Rev. and Mrs. Lester Carlsen and family, of the Gospel Mission, are visiting relatives in Seattle and Ballard, Wash. Miss Mabel Schaefer accompanied them as far as Puyallup.

Return From Trip—C. C. F. Lloyd and family have returned from a trip to Weiser, Ida. They report everything well under way, all crops good and business showing an increase.

Examiner—E. S. Foley, of Portland, examiner for the general land office, was a business visitor in La Grande for the past two days and left this morning for Arlington.

On Business—H. D. Moore, of Spokane, is a business visitor in La Grande.

Eagles To Meet—The relief committee of the Eagles lodge, under the direction of Chairman Everett Walker, is working on the winter relief program. Arthur Bremer, president of the Eagles, stated the lodge will meet tonight at 7:30 o'clock at the Eagles hall.

Elks to Meet—Important business has been slated to come before the Elks tonight when they meet at 8 o'clock at the temple, Exalted Ruler R. J. Kitchen announces.

To Montana—Mrs. W. C. Perkins left this morning for a 10-day trip to Montana, where she will visit relatives near Lewistown. When she returns she will be accompanied by her niece, Miss Marguerite McGinnis, who has it.

will attend the Normal school.

LA GRANDE RETAIL MARKETS

Table listing various retail market items such as Parsley, bunch; Cabbage, lb.; New wax onions, lb.; Turnips, 3 bunches; Carrots, 3 bunches; Potatoes, 20 lbs.; Onions, lb.; Eggplant, lb.; Beets, 3 bunches; Lettuce, Imperial; Garlic, lb.; Beans, 3 lbs.; Peas, 3 lbs.; Celery, bunch; Cauliflower, lb.; Cucumbers, 2; Corn, doz. ears; Red peppers, lb.; Green peppers, lb.; Peaches, basket; Cantaloupe, 4 for; Bananas, lb.; Apples, box; Lemons, doz.; Oranges, doz.; Dry prunes, 30 to 40 size, 4 lbs.; Raspberries, 3 boxes; Green apples, lb.; Watermelons, lb.; Honeydew melons; Grapes, lb.; Plums, 3 lbs.; Butter, creamery, lb.; Cheese, lb.; Honey, comb; Cottage cheese, lb.; Eggs; Fresh extras, doz.; Mediums, doz.; Mixed, doz.; Flour; Hard Federation, 49 lbs.; Per barrel; Soft wheat, bbl.; Meat; Beef loin, lb.; Pot roast, lb.; Chop and steaks, lb.; Hamburger, lb.; Ham, lb.; Fish; Salmon, lb. (fresh); Halibut, lb. (fresh); Poultry; Light hens, lb.; Spring, lb.

Sport Finals

SERIES KNOTTED MANCHESTER, N. H., Sept. 1 (AP)—The Springfield, Mass., American Legion junior nine today defeated New Orleans, 5 to 1, in the third game of the east-west baseball championship tournament. The victory placed Springfield in a tie with the western representatives for tournament honors. New Orleans won the first game 3 to 2 Tuesday, while yesterday's tilt ended in the twelfth with the teams tied, 5 all. Score by innings: New Orleans.....000 010 000-1 8 5 Springfield.....023 000 005-5 8 2 Batteries: Giovannelli, Coffey and Siciliano; Gaffagnini, Diaz and Guillot. TODAY'S BASEBALL GAMES (By The Associated Press) No games scheduled in National League; only two in American League. Washington.....R. H. E. 6 9 0 Philadelphia.....4 11 0 New York.....5 9 0 Batteries: Bridges, Marrow and Hayworth; Walberg and Cochrane. While most people are glad these times of any sort of suspense, it remains to be seen if they are Herbievorous. The optimist would invest money right now if he had it. The pessimist evidently putting up bird-fashion for the night. The radio discovery throws new light on the invisible layer of electricity—the Kennelly-Heaviside layer—which reflects radio waves back to earth. As the sun passes completely from sight, radio reception on special setups changed abruptly to sunset conditions. Then for the minute and a half while the sun was completely darkened, the test radio waves behaved almost precisely as if it were night. Their action showed that in the darkened sky the waves were ascending much higher before being reflected back to earth. It was announced that this showed the invisible layer had abruptly retreated much higher under cover of darkness. When the sun reappeared, the radio reception changed back to daytime conditions, as it does at sunrise. The layer apparently had been forced down closer to earth. Boothroyd Lucky The "miracle" of all observations was reported by Prof. S. L. Boothroyd, director of the Cornell University expedition, stationed at Newport, Vt. In the midst of hopelessly thick clouds a small hole appeared, for two minutes and in that hole was the total eclipse. R. C. Williams, of Cornell, forthwith made the first test of a new process he developed recently when G. B. Gebhart, of Cornell, developed a special mirror for observing spectroscopically the invisible ultra-violet light from the corona. Fate was kindest of all to the Japanese expedition from the Tokyo Imperial observatory, under Prof. Okuroh Oikawa. Bad luck prevented them from watching Bartlett, N. H., so they settled down at Alfred, Me. There the seeing was perfect, while Bartlett was in the middle of the cloudy belt where numerous expeditions had their hopes wrecked. "Puddles" in Air Evidently there are "puddles" in the air. Some astronomers reported the "shadows" were actively missing while others sighted them clearly. These bands are shadows rippling over earth during a total eclipse, ascribed to action of the atmosphere on light similar to that of water when shadows can be seen shifting across a sandy bottom. At Portland, Me., John O. Lunt, of the weather bureau, said he not only saw but measured the bands. They were wavy lines, one-quarter to one-half inch wide. He caught them on a sheet. "Celestial Express" Late! Two eminent astronomers charged that the "celestial express," the moon's shadow, was late. Two or three seconds behind schedule, said Dr. Frederick Slocum, of Wesleyan university, observing at Center Conway, N. H. Ten seconds late said Dr. Phillip Fox, director of the Alder planetarium, Chicago, who observed at Island Pond, Vt. This was the first eclipse to have

"Celestial Express" Late! Two eminent astronomers charged that the "celestial express," the moon's shadow, was late. Two or three seconds behind schedule, said Dr. Frederick Slocum, of Wesleyan university, observing at Center Conway, N. H. Ten seconds late said Dr. Phillip Fox, director of the Alder planetarium, Chicago, who observed at Island Pond, Vt. This was the first eclipse to have

Piano Recital Program Lists Fine Selections The presentation of Miss Helene Price in piano recital at the Church of Christ tonight is the occasion of much interest in musical circles of La Grande. Miss Price's well known talent and the interesting program which she has selected combine to make the program one of beauty and attraction. Rev. Paul De F. Morimoto who is arranging the presentation said, "In my several years experience in chautauqua work, I have never had greater pleasure in a program of this nature. Miss Price would be assured of wide popularity in concert work, as she has been in her graduate work at the Willamette university. The program which is to be presented this evening was given before an enthusiastic audience at Salem this spring." The program, composed of a wide variety of classics, includes one modern group. The following numbers will be presented: "Capriccio," by Bach-Busoni. "Rondo in G" by Beethoven. "Staccato Etude" by Rubinstein. "Cloude" by Griffes. "Trois Mouvements Perpetuels" by Poulenc. "Jardins Sous la Pluie" by Debussy. "Concerto Op. 16" by Grieg. Orchestral parts will be played on the second piano by Miss Doris French who has been studying with Miss Price this summer. The public is cordially invited to this recital which will be complimentary to all.

64 FACULTY MEMBERS IN CITY SCHOOLS (Continued from Page One) aration for the only interstate game of the season, which will be played with Wa-Hi of Walla Walla on Oct. 1, at the La Grande High field. The local team will go to Milton-Freewater to play Mac-Hi on Oct. 8; Oct. 15 Enterprise will play here, Oct. 22 with Wa-Hi of Walla Walla on Oct. 1, at the La Grande High field. Observations Result in Discoveries (Continued from Page One) evidently putting up bird-fashion for the night. The radio discovery throws new light on the invisible layer of electricity—the Kennelly-Heaviside layer—which reflects radio waves back to earth. As the sun passes completely from sight, radio reception on special setups changed abruptly to sunset conditions. Then for the minute and a half while the sun was completely darkened, the test radio waves behaved almost precisely as if it were night. Their action showed that in the darkened sky the waves were ascending much higher before being reflected back to earth. It was announced that this showed the invisible layer had abruptly retreated much higher under cover of darkness. When the sun reappeared, the radio reception changed back to daytime conditions, as it does at sunrise. The layer apparently had been forced down closer to earth. Boothroyd Lucky The "miracle" of all observations was reported by Prof. S. L. Boothroyd, director of the Cornell University expedition, stationed at Newport, Vt. In the midst of hopelessly thick clouds a small hole appeared, for two minutes and in that hole was the total eclipse. R. C. Williams, of Cornell, forthwith made the first test of a new process he developed recently when G. B. Gebhart, of Cornell, developed a special mirror for observing spectroscopically the invisible ultra-violet light from the corona. Fate was kindest of all to the Japanese expedition from the Tokyo Imperial observatory, under Prof. Okuroh Oikawa. Bad luck prevented them from watching Bartlett, N. H., so they settled down at Alfred, Me. There the seeing was perfect, while Bartlett was in the middle of the cloudy belt where numerous expeditions had their hopes wrecked. "Puddles" in Air Evidently there are "puddles" in the air. Some astronomers reported the "shadows" were actively missing while others sighted them clearly. These bands are shadows rippling over earth during a total eclipse, ascribed to action of the atmosphere on light similar to that of water when shadows can be seen shifting across a sandy bottom. At Portland, Me., John O. Lunt, of the weather bureau, said he not only saw but measured the bands. They were wavy lines, one-quarter to one-half inch wide. He caught them on a sheet. "Celestial Express" Late! Two eminent astronomers charged that the "celestial express," the moon's shadow, was late. Two or three seconds behind schedule, said Dr. Frederick Slocum, of Wesleyan university, observing at Center Conway, N. H. Ten seconds late said Dr. Phillip Fox, director of the Alder planetarium, Chicago, who observed at Island Pond, Vt. This was the first eclipse to have

Legion Members Urged to Register Those desiring to register for the national convention of the American Legion in Portland Sept. 12-15, should do so immediately as the books will be sent in to headquarters Saturday evening. It will save much time and be much more satisfactory to take care of this matter before one goes to Portland, legion officers said here today. The fee is \$2 a person, and admit the holder to many things that otherwise will be missed. It gives the official badge, which in itself is worth the money as a souvenir and work of art; the official program, admission to many big attractions, a permanent pass to the dugout, a trip up the Columbia highway, and admission to many attractions at Jantzen beach. Mr. and Mrs. Otis Palmer or Chester Thompson will register legionnaires.

Storm Sweeping Over Two States GULFPORT, Miss., Sept. 1 (AP)—Sharp gusty winds swept the Mississippi and Alabama coasts early today as a tropical disturbance apparently passed inland from the gulf a short distance east of Pascagoula, Miss. Diminishing winds and a rising barometer, however, indicated a slackening of the storm's intensity.

Branch Office To Be at Boise, Ida. WASHINGTON, Sept. 1 (AP)—The reconstruction corporation today announced that a branch office of the regional agricultural corporation for the twelfth land bank district will be established at Boise, Ida. Life of "Big Gun" The War department says that the life of a big gun is 200 to 500 rounds. This does not mean, however, that the gun is absolutely worthless after 500 rounds only that it has to be reloaded. A big gun would be considered a 14 or 16-inch gun.

BATTERIES \$3.00 and Up Radio Battery Recharge 50c U. S. L. Distributor Burgess Battery & Electric 1308 Jefferson Ave.

BOYS' SCHOOL CORDUROYS \$1.49 to \$2.49 Cream -- Tan -- Drab Ages 8 to 16 Sizes 29 to 38 Cords will be popular for school and college. Match your Cords with a SUEDE BLAZER Boys' Sizes 98c Men's Sizes \$1.29 Made of soft wind-resistant suede cloth; adjustable bottom. C.J. BREIER CO.
