## Menus Of The Day

By Mrs. Alexander George  
RECIPE FOR PICCALILLI  
Dinner Menu  
Stuffed Eggs Buttered Carrots  
Creamed Onions  
Piccalilli  
Parker House Rolls Currant Jam  
Watermelon  
Coffee

Piccalilli  
(A family favorite)  
8 cups chopped green tomatoes,  
8 cups chopped green peppers  
(sweet),  
2 cups sugar,  
8 cups chopped cabbage,  
2 cups chopped celery,  
2-3 cup salt,  
6 cups vinegar,  
1 1/2 cups dark brown sugar,  
1/2 cup cinnamon bark,  
1-3 cup whole cloves,  
1 tablespoon whole allspice berries.

Wash tomatoes, cut out blossom ends. Do not peel. Wash peppers, cut in halves and remove all pulp and seeds and rinse well. Chop tomatoes and peppers. Add cabbage, celery and salt and let stand over night. Pour into a colander and let drain thoroughly. Add vinegar and sugar. Loosely tie spices in white muslin bag, add vegetable mixture. Boil gently and stir frequently until relish thickens. Pour into stone jar, cover with a plate and store in cool, dry place.

Parker House Rolls  
1 cake compressed yeast,  
1 tablespoon lukewarm water,  
1 teaspoon salt,  
4 tablespoons sugar,  
4 tablespoons fat,  
1 1/2 cups milk,  
6 cups flour.

Crumble yeast and soak with lukewarm water. Add salt and sugar. Heat milk and add fat. Cool until lukewarm. Add to yeast mixture. Add 1/2 flour and beat 3 minutes. Add remaining flour and knead until dough is soft and elastic.

Place dough in greased bowl, grease the top lightly to prevent a crust from forming. Cover with cloth and set in moderately warm place until dough has doubled in bulk. It requires about 3 hours in warm weather and 6 hours in cold weather to rise. Turn dough into floured board and knead 5 minutes. Roll out dough until 2-3 inch thick. Using 2 inch cookie cutter, cut out circles of dough. Grease slightly and fold half over. Place side by side on greased pan and let rise until doubled in size. This will require about 2 hours. Bake 15 minutes in moderate oven.

## Dinner Gown Covers Arms, Reveals Ankles

By Blaise Merwin  
(Associated Press Fashion Editor)  
PARIS (AP) — A new sleeved dinner gown — willowy and worldly — has made its debut with the winter fashions of 1932.

While arms are covered, however, ankles often are revealed, and slit skirts slashed in six or eight places are sometimes part of the design. Hemlines vary from floor-length to five inches from the ground; waistlines are slender, and the simplicity of the silhouette is more sophisticated than the most elaborately trimmed frock.

Models in these new evening models vary widely in design. Sometimes they are elbow length puffed affairs, again they sweep to the wrist and again they are only abbreviated caps. Their general effect, however, is to offer contrast to the decollete of the evening mode.

Velvets are among the favorite fabrics for the new dinner frocks. A violet velvet gown is finished with a draped shoulder line, elbow length puffed sleeves and a back decollete slashed twice to the waist, while a blue and black stripe velvet is fashionable on the princess silhouette with a broadened shoulder line.

Lace and pebbled crepes have stepped into the limelight, too. One designer offers a black crepe (waxed) lace with a yoke and upper sleeves of shell pink chiffon topped by a little black lace bolero as the essence of sophistication in dinner wear, while another shows a henna toned pebbled crepe, the slender silhouette of which is topped by a brief matching jacket with elbow length puffed sleeves.

For the woman who wants something different there are scores of interesting designs. A geranium tinted crepe concentrates its interest on swooping bishop sleeves, a black chiffon is finished with short sleeves edged in black coq feathers, while a turquoise artificial silk has a back decollete laced with dark brown velvet.

## Angora Wool Softest

The hairs of the angora rabbit are from 6 to 10 inches long and are said to furnish the softest wool in the world. An adult rabbit may be sheared three or four times a year and yields about three ounces of wool at a clipping, which is worth about ten times as much as an equal quantity of sheep's wool.

## Harmful to Trees

The forest service says that piling dirt around the roots of a tree of mature age will have almost the same effect as belting it. Such earth prevents the tree from breathing properly and also prevents the moisture from getting at its roots. A tree so treated will eventually die.

## Spots Before the Eyes

There was a time when, if a man saw spots before his eyes, he blamed his liver. Nowadays he knows they're just taxicabs flitting past.—Columbus (Ohio) State Journal.

## Missionary's "Insignia"

Missionaries to New Guinea wear heavy beads to protect at least a portion of their faces from the fever spreading mosquitoes and to distinguish the churchmen from the unpopular tax collectors.

"Nature in the Raw" is seldom MILD

THE CALL OF THE WILD  
"Nature in the Raw"—as portrayed by Paul Bransom, America's foremost animal painter... inspired by the savage struggle between the ferocious wild dog and the vicious wolf... as described in Jack London's famous novel of combat against crude nature in the frozen north.

—and raw tobaccos have no place in cigarettes

They are not present in Luckies... the mildest cigarette you ever smoked

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.

"It's toasted"  
That package of mild Luckies

"If a man write a better book, preach a better sermon, or make a better mousetrap than his neighbor, tho he build his house in the woods, the world will make a beaten path to his door."—RALPH WALDO EMERSON.  
Does not this explain the world-wide acceptance and approval of Lucky Strike?
