Health
MOUTH BREATHING
The prevailing impression is that mouth breathing is directly and invariably the result of nasal obstructions and adenoids. In the majority of instances undoubtedly this is true. On the other hand other factors enter into the development of mouth breathing among which the anatomic structures of the nose and the mouth play a prominent part.

RESEARCH REVEALS ALL-BRAN RICH IN HEALTH-ELEMENTS
Helps Correct Constipation with "Bulk" and Vitamin B; Also Has Iron
Recent scientific research shows that Kellogg's All-Bran contains two things needed to overcome temporary and recurring constipation. It has "bulk" to exercise the intestines, and Vitamin B to tone the intestinal tract.

These two important food-elements promote regular habits, and help do away with the headaches, loss of appetite and energy, so often the result of constipation. The "bulk" in ALL-BRAN is mild in action—much like that of lettuce. Inside the body, it forms a soft mass, which gently clears the intestines of wastes. Special cooking processes make ALL-BRAN finer, softer, more palatable.

Isn't this pleasant "cereal way" far more healthful than using pills and drugs—so often habit-forming? Just eat two tablespoonfuls of Kellogg's daily—enough for most types of constipation. If your intestinal trouble is not relieved this way, see your doctor.

Besides, ALL-BRAN brings your body twice as much blood-building iron as an equal amount by weight of beef liver. Equally tasty as a cereal with milk or cream, or used in cooking. Recipes on the red-and-green package. Sold by all grocers. Made by Kellogg in Battle Creek.
