# IT IS SURPRISING HOW DELICIOUSLY DIFFERENT HILLS BROS COFFEE TASTES

Roasted as no other coffee is roasted... Hills Bros gives you the perfect flavor of the coffee-berries

Hills Bros' patented Controlled Roasting process roasts "a little at a time" instead of in bulk

Hills Bros. Coffee is different in aroma and flavor from any other — because Hills Bros. roast by a different process! Ordinarily, coffee is roasted in bulk. But Hills Bros. use their patented Controlled Roasting process. The coffee flows evenly, continuously through the roasters... a little at a time.

No berry is under-roasted nor over-roasted. Each one is an ideal example of perfect flavor-development! Bulk-roasting can't be so accurate as that. But Controlled Roasting is so accurate that this coffee never varies in flavor!

Hills Bros. Coffee can't go stale. The vacuum process of packing coffee is the only method that fully preserves coffee freshness — the air is removed from the can and kept out. It was originated by Hills Bros. over thirty years ago. There is no magic about a

vacuum can — it will not make poor coffee good, but it will keep good coffee fresh. Order Hills Bros. Coffee by name, and look for the Arab trade-mark on the can.

GROUND RIGHT TO TASTE RIGHT  
Hills Bros. Coffee is correctly ground for best results by drip process or any other method.

# GRAPE JELLY WEEK!

# Save 2 1/2¢ PER GLASS on your Grape Jelly

The cheapest, most delicious grapes of the year are crowding the local markets. So read below how you can make jelly quicker and cheaper than ever this year... and then go to your grocer at once.

NONE OF MY GRAPE JUICE BOILS AWAY IN COSTLY STEAM!

"I just hate to think of women still making jelly and jam the old-fashioned long-boil method. It's so costly. And so terribly tedious! I make all my prize-winning jellies and jams with Certo. And I would never think of doing it any other way. In the first place, Certo reduces boiling time for grape jelly, for instance, to 1/2 minute. And, of course, that is how it saves me so much money. For, with so little boiling needed, not one bit of the fruit juice has time to boil away. And as a result I usually get fully 5 more glasses from the same amount of fruit... and save as much as 2 1/2¢ on every glass. Of course, this 1/2 minute of hard boiling also saves me lots of time, too. Indeed it takes me only 11 or 12 minutes from the time I put my fruit and sugar mixture on until the time my finished jelly is cooling in the glasses. And with Certo you get much better tasting jelly or jam, too. Certainly the 37 prizes the State Fair Judges

Mrs. Bateman is only one of the many State Fair Jelly and jam prize winners who use Certo in making all their blue ribbon jellies and jams. Indeed, Certo gives such amazing results that today nearly half the jelly makers in America are using it. Why not try it yourself? It will save you lots of money!

awarded my jellies and jams in the last two years testify to that!" Why don't you do as Mrs. Bateman suggests and order a supply of Certo today — with your grapes and other jelly making supplies? You will be delighted at the money and time it will save you! And the extra flavor it will give your jellies and jams, too... if you will simply follow carefully the Certo recipes that come in the booklet attached to every Certo bottle. So don't delay. In a few days these marvelous grapes may be on the wane. Get your bottle of Certo from your grocer's today. It is a product of General Foods.
