

SOCIETY NOTES

Miss Boss Duka, Society Editor Telephone Main 600 Until 9:30 a. m.

Mrs. Laura Childs, Miss May Stephens Complimented on Monday Afternoon At Francis Brown Auxiliary Event

Mrs. Laura Childs, of Oakland, Cal., and Miss May Stephens, of Portland, members of pioneer Grande Ronde valley families, who are visiting in La Grande, were complimented yesterday when the Francis Brown auxiliary to the Sons and Daughters of Union County Pioneers entertained at a tea and reception at the Sacajawea Inn at 2 o'clock. Twenty-five called during the event.

Birthday Party At Blystone Home

C. H. Blystone was complimented on the occasion of his 72nd birthday anniversary last night when a group of neighbors called and surprised him at 7:30 at his home. Mrs. Blystone and Mrs. Minnie Lupter made arrangements for the event.

Lions, Auxiliary Are Entertained

Dr. and Mrs. F. L. Ralston entertained the Lions club and the auxiliary last night at 7:30 for dessert followed by bridge at their home. Mrs. Vella Rogers and Mrs. J. L. Ingle were invited as guests for the evening.

Triangle Club Resumes Meetings

The Triangle club opened its winter season at a recent bridge event at the home of Mr. and Mrs. Walter Jones. Twelve were invited including two guests, Mr. and Mrs. C. L. Graham.

Bridge Party At The McDonald Home

An afternoon of bridge was enjoyed yesterday when Mrs. Wesley McDonald entertained the Wakulla club at her home. Twelve members were present and the prizes were

"HAD CONSTIPATION SINCE BIRTH OF MY FIRST CHILD"

Then Mrs. King Discovered ALL-BRAN

We quote from her voluntary letter:

"I have suffered from terrible constipation since the birth of my first child—9 years ago! I have tried everything and nothing had any lasting results. Very reluctantly I tried your 'ALL-BRAN' with no faith in it at all. Much to my surprise, I have not had to take any medicine since starting to use ALL-BRAN, 4 months ago."

Laboratory tests show ALL-BRAN contains two things which overcome constipation: "Bulk" to exercise the intestines; vitamin B to help tone the intestinal tract.

The "bulk" in ALL-BRAN is much like that of leafy vegetables. Inside the body, it forms a soft mass, which gently clears the intestines of wastes.

Certainly this is more natural than taking patent medicines—often harmful. Two tablespoonsful daily are usually sufficient. If not relieved this way, see your doctor.

ALL-BRAN also supplies iron for the blood. At all grocers. In the red-and-green package. Made by Kellogg in Battle Creek.

Queen Esther Society Meets

Miss Fern Broomfield, Miss Clarice Taylor and Miss Margaret Davy entertained the Queen Esther society of the Methodist church last evening at 5:30 at the home of the former, Miss Marian Boyles led the lesson which was based on the Indian book, "Three Arrows." She also presented a reading "The Goblins," during the social meeting. Mrs. R. P. Tyler led the devotions using "Trees" as her topic.

World Wide Guild To Present "Janey"

Miss Doris Williams entertained the World Wide Guild senior organization of the Baptist church last night at her home. Plans were made to present a pageant, "Janey," in a few weeks.

Social Club Plans For Potluck Dinner

The Eastern Star Social club planned a potluck dinner for its next meeting on Monday, Dec. 5, according to an announcement made following a meeting last night at the home of Mrs. F. L. Robinson. Members who did not attend last night's meeting are asked to call Mrs. L. M. Hoyt if they plan to be present at the dinner.

Faculty Members In Political Meet

Members of the faculty of the Eastern Oregon Normal school gathered last night at the home of Miss Amanda Zabel and discussed measures which appear on the ballot today. Joseph Gaiser, chairman of the committee, led the discussion. Miss Florence Day, dramatics instructor, gave a group of readings.

First of Series Of Dances Held

The first of a series of dances which will be enjoyed during the winter by the Young People's Fellowship of St. Peter's Episcopal church was held Friday evening at Homer hall. Patrons and patronesses were Miss Imogene Russell, Mrs. Bertha Hayes, Mrs. Nellie Nell, Mr. and Mrs. Carl Helm and Mrs. Clarence A. Kopp.

City Council Of P. T. A. In Session

Miss Agnes Hattberg, domestic science instructor at the La Grande High school, talked on the food values of whole and cracked wheat, and assisted by her pupils, prepared several dishes yesterday afternoon when the La Grande City Council of Parent Teacher associations met at 3:45 at the High school. Miss Hattberg prepared whole wheat brown betty with lemon sauce, whole wheat cookies, escalloped wheat and cheese and Spanish wheat, part of which was served for refreshments at the close of the meeting.

Blue Birds Meet With Mrs. Currey

The Blue Bird Girls, a junior organization of the Camp Fire, held their second meeting yesterday afternoon at the home of their guardian, Mrs. Albert Currey, at 4 o'clock. The recently organized group includes girls between the ages of 7 and 10 years.

new members are expected to join. Those who were present at yesterday's meeting were Misses Griselda Ann Busey, Thyra Jean Currey, Geraldine Hendrickson, Martha Sanford, Beth Pross and Sarah Pat.

Nichantit Camp Fire Girls Meet

The Nichantit Camp Fire met yesterday afternoon at 4 o'clock at the home of its guardian, Mrs. Jack Wright, and the girls worked on headbands. Those present were Misses Fern Duncan, Rose Cooper, Betty June Stalcup, Betty Donohue, Lois Broomfield, Marie Bruce, Alladene Ayars, Marjorie Williamson and Phyllis Lockwood.

SOCIAL CALENDAR

Tuesday, Nov. 8 5:30 Standard Bearers of the M. E. church, at the Walker home.

Wednesday, Nov. 9 1:00 Bridge club, with Mrs. Lynn Larson.

2:00 Women's Foreign Missionary society of the Methodist church, with Mrs. E. B. Kendrick, Coye avenue.

2:00 Ah Deth club, with Mrs. J. E. Cundliffe.

2:00 Parkdale club, with Mrs. Lee Smith.

2:00 Helomala club, with Mrs. Will McClure.

2:00 St. Mary's Altar society of the Catholic church, with Mrs. W. M. Peare.

2:00 D. A. R. with Mrs. P. S. Robinson.

7:00 Clio club, with Mr. and Mrs. F. E. Lanzer.

7:30 Delphian chapter, at the Sacajawea Inn.

8:00 American Legion auxiliary, at the Sacajawea Inn.

8:00 Order of Eastern Star, at the Masonic hall.

Thursday, Nov. 10 1:00 Mittal club, with Mrs. Har- die Taylor.

1:15 Luncheon club, with Mrs. John Larson.

2:00 Mary Elizabeth club, with Mrs. William Barclay.

2:00 Lutheran Ladies Aid, with Mrs. Andrew, 205 Cherry St.

2:00 Riverside Ladies Aid, at Lane chapel.

2:00 Diversity club, with Mrs. Donald Cole.

2:00 Hi-Lo club, with Mrs. R. M. Finlay.

2:00 Depression club, with Mrs. Walter Jones.

2:00 E. O. N. Housemothers, with Miss Helen Moor.

2:30 Presbyterian Missionary society, with Mrs. R. S. Eskin, 1812 Walnut street.

2:30 Greenwood Parent Teacher association, at the school.

7:00 Alpha Dinner club, with Mr. and Mrs. Herman Siegrist. Friday, Nov. 11 2:00 L. D. club, with Mrs. P. A. McDonald. 8:00 Club, with Mrs. Clyde Webb. Saturday, Nov. 12 8:00 Saturday Bridge club, with Mrs. C. H. Devline. Monday, Nov. 14 2:00 Wakulla club, with Mrs. Alvah Crowley. 7:30 Daughters of Union Veterans at the home of Mrs. Laura Rhodes. 8:00 Neighborhood Music club, La Grande hotel.

WATCHMAN INJURED NEAR SPARKS, NEV.

(Continued From Page One)

ously wounded. Fish flagged the pilot train, that ran as a safeguard ahead of the president's special, when it came along and railroad police and secret service men searched the road-bed and vicinity.

Twenty additional sticks of dynamite in a sack were found along the Western Pacific right-of-way, above and 400 feet from the rails upon which the special train was running.

Low said there was no indication that any attempt had been made to tamper with the rails or to dynamite the roadbed or the president's train, but was unable to explain the presence of the explosive.

The special train was delayed 40 minutes while railroad police and special agents aboard the pilot train searched the right-of-way and country nearby for trace of the two men described by Fish, Low said.

John P. Chester, Associated Press staff correspondent accompanying the president, said none aboard the special knew of the attack on the watchman and that secret service agents aboard said they knew nothing of the dynamite being found.

Fish, Southern Pacific officials said, was taken to Carlin, Nev., on a gasoline speeder after the train continued on toward California. His condition was not serious, they said.

Sheriff Harris said he had sent a deputy from Elko to learn details of the attack but had heard nothing from him.

When the train arrived here it was still 20 minutes behind schedule and stopped only long enough to change engines for the run up the Truckee river to cross the Sierra Nevada mountains through Donner Pass and into California.

Railroad officials said the president and all his party were asleep when it passed through here.

GERMANS DRINK LESS BEER

BERLIN (AP)—Beer consumption in Germany during the fiscal year just ended topped to 89 quarts for each man, woman and child in the Reich. In the previous year the per capita average was 8.2 quarts.

FRENCH FILM ACTOR'S WIFE WEARS PEBBLY CREPE FROCK

PARIS (AP)—Madame Henri Garat, wife of the French movie actor, attended a fashionable tea recently wearing a black frock of the new pebbly crepe called riboudingue. It was designed with sleeves having large puffs at the elbows crossed in the middle by a small red and white ribbon. With it Madame Garat wore a small black hat with a touch of red and white on the crown.

TAXI DRIVERS PICK PATRON

BELOGRADE (AP)—Because Elijah the prophet was carried up into heaven in a chariot, he was chosen patron saint of Belgrade's taxi drivers' association.

SOVIET TYPES ON STAMPS

MOSCOW (AP)—A new issue of 22 stamps is being prepared to show the racial types in the Soviet Union, such as Buriats, Tungus, Abkhazians, Georgians, Samoyeds, Bashkirs, Kazaks and Tartars.

NEW COACHES MAY STEAL SHOW IN SOUTH CAROLINA

COLUMBIA, S. C. (AP)—Directed by young men making their bow as college coaches, Furman university and The Citadel have blossomed out as the "surprise eleven" of South Carolina.

Already the football teams of these schools have set a pace that is causing the old-timers to take notice.

"Dizzy" McLeod had promising material at Furman, which he has developed into a smooth working team. Tatum Gressette began the season at The Citadel with six lettersman, and has built up a splendid team.

DARK BLUE WOOL JERSEY FASHIONS EVENING FROCK

PARIS (AP)—Mrs. Eugene Pool is among smart Americans who are wearing wool evening frocks. She has one of dark blue wool jersey designed on lines which cling closely to the figure. With it she wears a short, quilted silk jacket patterned in diamond design in mauve and white.

MRS. CHAPIN WEARS BLUE TAILORED COAT

WASHINGTON (AP)—Mrs. Roy D. Chapin was seen shopping recently in a coat of blue silk and wool made on tailored lines. Her felt hat was in the same shade of blue as her suit and her scarf was a closely-knit striped silk.

BLACK TEA GOWN WORN BY DUCHESS

PARIS (AP)—The Duchess of Westminster appeared at a recent smart tea wearing a frock of black velvet designed with a long full skirt, a bodice buttoning down the front and sleeves puffed at the elbow. The frock was finished with a collar and cuffs of deep ecru lace.

MRS. HOOVER CHOOSES BLACK FALL ENSEMBLE

WASHINGTON (AP)—Mrs. Herbert Hoover wore for her trip to Iowa with the president a black fall ensemble with a fall hat of black felt bound in black velvet.

Too Rapid Production of Energy Blamed For Economic Disruption

(Editor's Note: This is the first of two articles disclosing major results of an exhaustive research into the meaning of the machine age. The research, now going on at Columbia university, New York, deals especially with the effect of the machine on employment and the nation's resources, and reveals some startling facts.)

By J. R. Brackett (Copyright, 1932, By The Associated Press)

NEW YORK (AP)—For 7000 years, up to the beginning of the last century, the consumption of the earth's resources per person every day did not change appreciably.

Then, suddenly, man found the machine, and today in the United States, only 100 years later, consumption per person is 75 times greater, and two-thirds of this increase has come since 1900.

These are major findings of a 10-year research by Technocracy, and the title given a research group of technicians and engineers working at Columbia university under direction of Howard Scott.

In these findings, Scott says, lies the basic cause of the present distress, and they foreshadow even greater distress in the future.

In ancient Israel, Egypt, Greece, Rome, during the founding of England, the power of Napoleon, the beginnings of the United States, man ate food, wore clothes and burned fuel to warm his home. These were the principal items consumed, and their consumption represented energy consumption. Exclusive of food, man consumed 2000 calories a day—a calory being a measure of energy.

At the beginning of the last century man began to use the steam engine. The engine required coal, oil and water power. Their production was for man, so man, in effect, consumed the energy necessary for the machines.

Thus, besides the items necessary for his physical existence man now uses other of the earth's resources—and at the rate of 150,000 calories per capita a day, exclusive of food. This represents a gain of 75 times in a little more than a century after 7000 static years, most of the gain coming in the last 30 years—calory consumption being 45,000 calories per capita per day in 1900.

This extremely rapid gain in a society entirely unprepared for it has produced similarly rapid economic gains and also violent fluctuations in the economic cycle, Scott says. Energy production remained at the rate of 3000 calories a day for 7000 years. Suddenly it expanded.

The expansion was quite smooth although rapid up to 1900, then it became more rapid and began to fluctuate violently because the social mechanism could not adapt itself to the increasingly quick change.

Fluctuation in energy produced resulted in fluctuation in production of goods, thus fluctuation in employment and economic distress.

The fluctuations are the basic causes of the present depression, and they tend to gain in violence as mechanical efficiency increases, Scott says, producing even more disastrous

economic changes, unless the method of operating the machine is changed.

In 1840 the United States had slightly more than 12,000,000 population and was witnessing the crude beginnings of the new means of energy transformation, that is, finding new machines, fuels and ways to use them to do work—the steam locomotive, for example.

At that time the nation was producing from coal and timber less than 75 trillion B. T. U. (a measure of energy) in order to drive its simple machines, its factories, ships and to carry on other activities.

In 1920 the United States had a population of 120,000,000, an increase of 10 times over 1840, but energy produced had risen to almost 27,000 trillion B. T. U. or 353 times as much as in 1840. Most of this increase occurred after 1900, for in that year production was 2640 trillion B. T. U.

The United States has produced energy (and with it the amount of goods, since energy is necessary for all forms of production) much faster than the growth of the population and much faster in the last few years than it was possible for the people to consume the production.

These facts point out with a new vividness, Scott says, that society has passed from the time—only a century ago—when it moved at the speed of an ox-cart in a society equipped to move at that rate and has entered an era in which it is moving at the speed of an airplane in a society fundamentally unchanged in economic and social methods.

And, Scott says, unless the nation can improve its methods of controlling the social vehicle society is likely to collapse into wreckage the like of which man has never seen before.

Only by adopting the technic now used for administering some of the more efficient industries and then with improvements in the whole system can society function successfully in the face of the new advances, Scott says.

WISCONSIN HAS STAR IN 18-YEAR-OLD SOPHOMORE

MADISON, Wis. (AP)—Mario Pacetti, 216-pound sophomore from Kenosha, Wis., is one reason why Wisconsin is feared in the Big Ten this year.

The Italian lad is only 18 years old, probably the youngest regular in the Western conference, but possesses almost everything that a good lineman should have.

Coal production in Kentucky declined more than 20 per cent in 1931 as compared to 1930.

VICKS COUGH DROP ... All you've hoped for in a Cough Drop—medicated with ingredients of VICKS VAPORUS

"Nature in the Raw is seldom MILD" THE PILGRIM'S FIRST WINTER "Nature in the Raw"—as portrayed by Herbert Roesse, celebrated painter... inspired by the bitter hardships endured by America's first settlers in their conflict with raw, wild nature (1620). "Nature in the Raw is Seldom Mild"—and raw tobaccos have no place in cigarettes. No raw tobaccos in Luckies—that's why they're so mild. WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes. "It's toasted" That package of mild Luckies

LIBERTY TONIGHT!! Election Returns (Through the Courtesy of The Observer) Tabulation Starts at Seven O'clock with A. W. (Nellie) Nelson in Charge! ... On The Screen ... (And at the same time that you are getting the returns) Nancy Carroll - Cary Grant in "HOT SATURDAY" with RANDOLPH SCOTT—WILLIAM COLLIER, SR. "I've been good and you call me bad — now look out!" See a great show and get the returns at the same time.
