

ROTARY GROWING DESPITE WORLD ECONOMIC CRISIS

BOSTON, June 10—An encouraging report of the growth of Rotary in the face of adverse economic conditions will be shown when the officers report to the 24th annual convention of Rotary International here June 28-30.

The gain in the number of new Rotary clubs elected to membership in the past twelve months is approximately fifty per cent greater than the previous similar period. The number of Rotarians is on the increase, too, with a small net gain over the figures of last July 1.

The list of countries and geographical regions in which there are Rotary clubs will be increased by three, in the official reports to the convention.

Rotary clubs have been elected this year in Riga, Latvia, in Tanager, Morocco (International Zone) and in Sofia, Bulgaria.

There have been almost a hundred new Rotary clubs elected this year, about one-third of them in Europe where the number of new clubs this year is double that of last year.

These figures are the first-hand reports which have been gathered by President Clinton P. Anderson, of Albuquerque, N. M., in his visits with almost one-fourth of the entire Rotary membership, confirm the optimistic view of Rotary officials.

President Anderson will deliver his report at the opening session of the convention Monday afternoon, June 20, following the reports of Secretary Chesley B. Perry and Treasurer Rufus F. Chapin. These latter two are from Chicago.

The president has recently returned from a trip to Great Britain and Northern Europe. At the conference of the Rotarians of Great Britain and Ireland, President Anderson read a message from Premier Ramsay MacDonald saying "I regard Rotary's work for international understanding and cooperation as of the greatest importance. Business men should take the foremost place in the ranks of the ambassadors of world peace."

At Boston June 26th there will be assembled some eight thousand business and professional men and members of their families, coming from fifty to sixty different nations.

After the formalities and reports of the opening session Monday afternoon, the convention will have four more days of business sessions. The general theme of the meeting on Tuesday is "the individual Rotary club under survey" and the various problems of Rotary clubs in different parts of the world will be discussed thoroughly.

The topic for Wednesday's meeting will be international good will and the speakers will discuss "the new world order" from various standpoints—economic, intellectual, vocational, and from a Rotary standpoint.

The entire day on Thursday will be given over to discussion of and action upon the fifty or more resolutions and enactments which have been proposed by Rotary clubs, the board of directors of Rotary International, and a special drafting committee on revision of administrative procedure.

Benny Behr, younger brother of Louie and Sam Behr of Wisconsin basketball and track fame, is a star high jumper, discus thrower and shot putter at Rockford, Ill., High school.

Hunt 'Nurse' and Kidnaped Baby

Starved mother love is believed the motive in the strange kidnaping of Pansy Sneed, five-weeks-old Cincinnati baby daughter of Mr. and Mrs. John Sneed, shown here with their other daughter, Dorothy, 3. Mrs. Sneed gave her baby to a "woman in white" who posed as a welfare nurse and presented a note from a doctor. Sneed is unemployed.

OREGON'S TOTAL TAX BILL PASSES 42-MILLION MARK

SALEM, Ore. (AP) — Oregon taxes its citizens a total of \$42,042,546 for the operation of all government, state, city, county, schools and for other purposes. This was revealed with the issuance of the summaries of tax levies by the state tax commission. This was about two per cent less than last year.

Special taxes for school purposes lead the list with a total of \$11,067,255 annually. Next in line is that for special taxes for cities and towns amounting to \$10,337,085. The state comes third with \$4,860,044 or less than one-tenth of the total tax, while counties come fourth with a total of \$4,593,862.

Other funds for which large taxes are collected include county school and school library, \$3,125,553; bond interest and redemption \$2,125,107; for general roads \$1,373,552; high school tuition \$1,280,132; ports \$1,190,487; and irrigation and drainage \$1,000,487.

The balance of tax money will be used as follows: market roads, \$388,462; special roads \$290,467; fire patrol \$168,366; reforestation tax \$26,455 and miscellaneous \$8,726.

Of the total Multnomah county will pay \$16,430,797 per year, with Lane county second high with \$2,015,307 and Clackamas county third with \$1,769,444. Klamath county rates fourth with the total taxes of \$1,706,617. Clatsop fifth with a total of \$1,084,731, and Marion county sixth with \$1,441,407.

Other county totals include Baker \$766,811; Benton \$605,424; Douglas \$1,008,458; Jackson \$1,332,943; Josephine \$488,852; Umatilla \$1,441,407; and Union county \$779,173. Wheeler county pays the least of the total tax with a levy of \$107,799.

The total tax levy last year was \$42,979,176.

The once mighty Seminole Indian tribe in Florida has dwindled to less than 500 members.

McKenzie Pass Being Cleared Of Snow Drifts

BEND, Ore., June 14 (AP) — Aided by warm weather which in the past few days has reduced the depth of snow as much as two feet in some places, the state highway department rotary plow used in opening the McKenzie pass, was boring its way slowly toward Cascade summit yesterday and today started its most formidable attack, that of excavation a trench through snow in the big cut.

In the cut, at the east approach to the summit lava fields, the depth of snow has been reduced by hot weather from 19 to 16 feet in the past week, but the pack remaining is more like a glacier than a drift.

George Schuman, resident engineer in charge of opening the McKenzie highway, yesterday made a trip to the summit in advance of the rotary and found the snow was melting rapidly. The pack, however, was so solid that his shoes barely made an imprint in the snow. Considerable dynamite will have to be used to shatter the glacier-like mass ahead of the plow.

The topic for Wednesday's meeting will be international good will and the speakers will discuss "the new world order" from various standpoints—economic, intellectual, vocational, and from a Rotary standpoint.

The entire day on Thursday will be given over to discussion of and action upon the fifty or more resolutions and enactments which have been proposed by Rotary clubs, the board of directors of Rotary International, and a special drafting committee on revision of administrative procedure.

tents of one can of White Star tuna, flaked, with half as much bread crumbs, the same amount of chopped celery, a tablespoon of onion juice and season with salt and pepper. Stuff tomatoes with this mixture and top with grated cheese. Bake in a moderate oven for 25 minutes.

Policeman In Great Distress

Walking all day made his feet so sore and painful that he oftentimes thought he would have to leave the force — in one night a Radox foot bath changed his mind.

Was he happy — ask his wife — she too was joyously happy for the whole thing was so simple—all he did was to put 3 tablespoonfuls of Radox in a gallon of hot water and soak his feet 20 minutes — the next morning he was on the job with never a pain or an ache in his feet — a Radox footbath will fix up your weary, burning, aching feet overnight or money back at Red Cross Drug Store or any real druggists. 45-cent package. —Adv.

AUTO PHONE INSTRUMENT DEvised BY ELECTRICIAN

BELLINGHAM, Wash., (AP) — The "Traveling Telephone," a device to relieve motorists going about at night of the trouble of locating pay telephone stations, is the invention of Charles H. Kirby, electrical engineer. To use his apparatus a motorist would carry the telephone instrument in his car. It has a weather-proof cord and plug attached. Sockets attached at frequent spaces to telephone lines would enable the motorist to plug in, drop in a coin and get a connection without leaving his car.

On behalf of his idea Kirby declares there are thousands of motorists caught yearly without telephone communication at hours when store pay stations are closed.
