

### REP. ALMON OF ALABAMA DIES

WASHINGTON (AP) — Representative Edward B. Almon, of Tusculum, Alabama, died of heart disease Thursday at a hotel here. Almon was chairman of the house roads committee and a leading advocate of government operation of Muscle Shoals which was in his district.

For nearly 20 years he represented the eighth Alabama district. He was elected to congress in 1914 after having had long service in the Alabama legislature and as judge of the eleventh judicial circuit in that state.

### Mythical Invader Replaced, But It Is Costly Victory

CAMP CLATSOP, Ore. (AP) — It was a costly victory that was won among the dunes of Clatsop plains here Wednesday when the 62d brigade of the Oregon national guard battled gallantly with a mythical invader near the mouth of the Columbia river.

The tactical inspection disclosed that while nearly half the personnel of the Oregon brigade was lost, the invading army was repulsed after an early success, and the huge supply of military stores defended by the guard was saved.

Annually, the tactical inspection is one of the most important events of the field training period of the guard. It comes as a surprise war problem to officers and men.

The surprise battle cry came after breakfast. The 2500 troops of the brigade quickly assembled. They occupied the battle line north of Camp Clatsop from the Pacific shores to an inland point. For three hours they battled the "brown" invaders. As the enemy advanced toward the brigade's defensive positions the 187th hospital company went into action. "Wounded" men were rapidly returned from the front.

meeting vigorous objections from the areas in which merchants look to the schools for profits.

As planned by Collier, Indian pupils removed from the boarding schools would be put into the day public schools of the area, the commissioner explaining:

"If 12,000 children should be transferred from the boarding schools, the effect would be to save about \$4,400,000 gross. At the rate of \$60 tuition to the school district a pupil, plus \$45 for social and health service, the expenditure would be \$1,050,000. Thus there is a net saving of \$2,950,000."

country and choked him into unconsciousness with a rope tether.

The 29 were charged with contempt of court and were tried without a jury. Judge Peters refused to suspend sentence and mandated the farmers begin at once their 24-hour jail terms.

### LIBRARY BOARD MEETS

The library board has been called to meet tonight to reach a decision concerning the painting, "Snow Day Maples", by Harold D. March, which has been presented to the library through the Penny Art fund in appreciation of the work of Mrs. E. P. Mossman, formerly of La Grande, in fostering an appreciation of art in the state. They will gather at the library at 8 o'clock this evening to meet with Mrs. Stella Ingle who has been appointed by Mrs. Mossman to take charge of the picture.

Members of the board are George T. Cochran, Miss Margaret Anson, Mrs. J. K. Charlton, J. S. Hodgkin and J. T. Longfellow.

### Michigan Boy Fights Return

William Tergwiler, 16, above, and Halfo Macdonald, 17, both of Flint, Mich., arrested by police in Nashville, Tenn., on charges of extortion, will fight extradition by Michigan authorities. Macdonald is wanted in Flint in connection with the murder of his mother there May 27, after which both boys disappeared. Tergwiler denies knowledge of the crime.

### RAILROADS WILL DEFER PROPOSED WAGE REDUCTION

(Continued From Page One)

10 per cent. Labor executives was the first big achievement of Joseph B. Eastman since he became co-ordinator of transportation.

Eastman asked the rail heads to delay action until the effect of the administration's recovery program could be seen. His proposal was accepted after two days of conferences.

That agreement, said Eastman, was "reached because both the railroads and the employes wish to do nothing which would in any way embarrass or threaten the present policy of the administration."

"They realize," he added, "that the government has now embarked upon a wholly new policy designed to promote business and industrial activity and to further the general welfare."

The concord must yet be ratified by individual unions belonging to Railway Labor Executives' association, but that is considered just a formality.
