#### ACKNOWLEDGE NECESSITY OF STABILIZING

#### DOLLAR EXCHANGE IN SUDDEN DROP

#### AMERICAN DELEGATES STILL STAND FIRM ON OPINION THAT STABILIZATION OF GOLD IS UNWISE NOW.

LONDON, June 28 (AP) — High French sources said tonight that the world economic conference steering committee had approved a resolution asserting that whether the parity succeeds or fails in the economic phase of its labor depends on currency stabilization. The Americans failed to participate in this resolution.

Some important conference quarters interpreted the resolution as an indication of a British compromise with the gold countries, headed by France, which have been attempting to force the United States to stabilize.

It was authoritatively stated that the American stand against stabilization remained unaltered.

The steering committee meeting was held after a sweeping decline in the dollar exchange. In afternoon trading the dollar plunged to \$49 3/4 to the pound, a new low since abandonment of the gold standard by Great Britain.

The committee's resolution also followed further efforts by the continental gold nations to obtain British support in their fight for stabilization.
