Tells How She Lost 15 Lbs. of Fat

Rheumatism Gone Too Here is a woman who was rapidly putting on weight and who was troubled with rheumatism too. Read her letter:

"I started taking Kruschen Salts because of the food it had done for a friend of mine who had been crippled with rheumatism. At the end of the second bottle I was weighed and found I am now only 148 pounds (original weight 163 lbs.) at which I am so pleased. But I have also felt my rheumatism much less, which has been so troublesome in my knees. I must say I think Kruschen a splendid weight reducer." (Miss) E. L. P.

Overweight and rheumatic poisoning often go together. The salts in Kruschen assist the internal organs to perform their functions properly—little by little that ugly fat goes, slowly, yes—but surely. You feel wonderfully healthy, youthful and energetic—more so than ever before in your life!

Kruschen Salts is obtainable at Glass Drug, Inc., L. & L. Drug Co., Red Cross Drug Store, and Moon Drug Co.—a jar lasts four weeks and costs not more than 85c.

Insult pests cost grove growers of Lake Arrowhead county an estimated sum of \$1,100,000 a year or an average of nearly \$30 an acre.

ALCOHOL STOCKS LEAD MARKET TO NEW HIGH LEVEL

NEW YORK, July 13 (AP) — Led by the alcohol group, stocks today staged one of the most buoyant performances of the 1933 bull market. All categories followed the so-called "wet" issues into new high territory for the past two years with gains of 1 to 5 or more points.

Shoe And Textile Industries Work To Extend Gains

By Edward J. Kelley BOSTON (AP)—New England's shoe and textile industries, stimulated by improved business conditions, are working hard to improve their gains.

The cotton industry reports itself preparing for readjustments necessitated by the national industrial recovery law, and already thousands of mill employes have been returned to work.

Textile manufacturers in this section have reported that the betterment to date was more anticipatory than material. Most of the increased activity in New England is held due to the reduction of hours in the south and the prospective national schedule of two 40-hour shifts.

Cotton consumption for May showed a marked increase over previous months this year and the consumption, 90,453 bales, had been unequalled since April, 1931.

The wool industry has had its rough spots during the present year, but still is making a better showing than last year.

Led by hides, leather has gained in price 50 to 60 per cent. Shoe manufacturers in this section point to an increased production that obviously has been more than seasonal.

Wages have advanced among the workers from 5 to 15 per cent and it was estimated recently that 80 per cent of the available factory help was getting some employment.

MR. BURDETT, although totally blind and well advanced in age, did all the work on his house with the exception of the masonry and plumbing. The only mistake he made on the entire job was in the laying of six shingles, which were put on wrong side out. Mr. Burdett was not a carpenter before he became blind, but a jeweler. The construction of the house required two years.

BUTTER MARKET LOOKING BETTER

PORTLAND, July 13 (AP) — Slight betterment in the cube butter situation was reflected for the last 24 hours locally and along the coast generally a fully steady feeling was suggested.

A fractional advance in standard cubes on the produce exchange was shown but others were unchanged. Demand was best for the 90 to 91 scores in the local trade.

There is again growing suggestion in the trade for a reversal of buying prices on butterfat to be based upon standard grade cube prices instead of extras as recently.

Egg prices were steady to firm for good stuff. There was a better situation in the market for country killed calves with a general top of 80 lb. although some were reported as talking of higher values.

There was a better tone also reflected in the market for hogs and lambs but prices show little change with top hogs 7@7 1/2c and best lambs 11@11 1/2c lb. Beef was in much better call.
