Some Does It One Way Some Does It Another

October with the open season on deer is approaching and the old family muskets are being taken down and dusted off. The old rivalry between Hugh Huron, Luther Hindman and Harry Avery will be in evidence in a short time. Hugh Huron is accused of feeding one old buck in the north section of the county three square meals a day so that at day break of the season's opening, he has a good chance to get his buck in before his other two friends get theirs. Luther Hindman gets his safely into a corral where he can hogtie it the night before and thereby keep his record unblemished. Harry Avery has been accused of various and sundry tactics to come out at the head of the list of early shooters.

But it remains for Bill Vogel, sheep raiser of Union, to carry up his sleeve a plan that is different as regards deer will out, so do hunters schemes some times. It was like this. Roy Conklin, of Union, has a job this summer at Vogel's sheep camp up above Union several miles. One evening last week he was sent out to bring in the horses. He followed the usual course and after he had searched for what he thought was a long time, he heard a bell over across on the other side of the hills and he made for that direction. As the bell lead him, he followed on and seemed to be gaining on the bell—horns? The chase continued until all at once Roy came face to face with a great big mule deer with a bell tied around its neck! The matter has been variously explained, but friends of Bill's are unanimous as regards one—that he was taking the chances of getting his buck this fall.

From Telocast—

Jim Anson, prominent wheat grower of near Telocast, was in the valley Thursday visiting among his friends assembled at the Pioneer picnic.

Trouble Again—

Miss Lucille Keenan, daughter of Mr. and Mrs. Charles Keenan, of near Imbler has been having trouble again with one of her legs. Last year Lucille was hit on the shin bone with an apparently harmless tennis ball. Very serious trouble developed, a stay of several weeks at the hospital was necessary as well as hundreds of trips to the county seat. We learn that after lying dormant for a number of months, the trouble has re-appeared and the leg was opened, drained and scraped again.

Picnic Next Saturday—

The annual picnic of the Farmers Co-operative Creamery association will be held next Saturday at the City park at Union. It is to be an all-day meeting with basket lunch at noon and a miscellaneous program in addition to the customary business. The invitation is extended to the public for all or a part of the day.

Receives Injuries—

George Gasset, who has been working at the O. G. Stackland place near the Cove, helping with the hay harvest, received some painful injuries to his back one day last week when he fell from a load of hay. He was taken to the hospital for medical attention.

Wallowa Pioneers to Meet—

The annual meeting of the Wallowa County Pioneer association is to be held next Wednesday at the grounds near Lostine and many Union county pioneers and their families are planning to attend. Officers of the association met at Enterprise a week ago and made arrangements for the program. Everyone is invited to come and bring a basket lunch says the president, Mrs. Dollie Pierce. It is understood that Walter M. Pierce, congressman from this district and former governor of Oregon will give the address of the day.

League Has Party—

Fourteen members of the Junior League of the Methodist church at Cove enjoyed an evening party Friday evening. The party was sponsored by Mrs. Gladys Harris, leader of the group, who arranged for a swimming party at the Cove pool and after the swim, refreshments on the lawn at the home of Mr. and Mrs. Lynn Chadwick.

Visit—

Mr. and Mrs. Charles Wright and their daughters, Virginia, Naomi and Patricia were here again over the weekend for a visit among their relatives of the Wright and McKennon families at various centers over the valley.

On Vacation—

Mr. and Mrs. Billie Bertsch and daughter, Cecil Jean, of Rock Creek and Mr. and Mrs. Cecil Bates, of Halfway, are having a two weeks vacation at the home of the former's parents, Mr. and Mrs. Chris Bertsch up the Mill Creek canyon. Mr. Bertsch is connected with the power plant at Rock Creek.

For Visit—

Mr. and Mrs. Frank Smith, of Portland, have arrived in the valley recently and will spend the remainder of the summer among their friends and former neighbors at Elgin.

At the Institute—

Young people of the various centers of the valley, who are members of Epworth Leagues will be returning to their homes this week following the close of the annual Epworth League institute which has been in session at the league headquarters on the Methodist campground at Wallowa lake. There were 250 young people present this year, the 80 adults on the grounds bringing the number to 300. There were 22 different communities represented, the largest in the history of the institute with the exception of one year when they came from 23 churches.

The leaguers came from Caldwell, Vale, Ontario, Wallowa, Enterprise, Nampa, La Grande, Prairie City, John Day, Union, Elgin, Joseph, Weiser, Nyasa, Apple Valley, Kuna, Boise, Baker, North Powder, Dayton, Island City. Nampa had the largest delegation, 32, while Union stood second with 31.

At The Pool—
One of the large picnic parties of last week at the Cove swimming pool was a group of people who came from the L. D. S. church at Union. Included in the party were the scouts, the M. Men, the Gleaners and the Seniors.

HI-WAYS TO HEALTH

SUMMER DESSERTS

Fresh fruits, ice cream and milk sherberts are the ideal desserts for hot weather meals. For variety, a chilled pudding, an ice box cake or a frothy milk drink served with a cookie will make interesting summer desserts.

When we consider the dessert as an avenue for getting the protective foods, milk, fruits and eggs, into the day's diet, they become at once nutritious as well as satisfying. Since many dietary studies show that the average diet supplies too little of the essential minerals and vitamins, emphasis should be placed on including foods rich in these elements. Milk and fruits are called protective foods because of their high mineral and vitamin content and because of this, desserts containing them are truly nutritious foods. It is then, decidedly worth while to devise means of making wholesome desserts appealing.

Some dessert recipes combining the fresh fruits now in season with milk and cream are:

Raspberry Spanish Cream
1 1/2 tablespoons granulated gelatin
1/2 cup cold water
3 eggs, separated
1/2 cup sugar
1 1/2 cup scalding hot milk
1 teaspoon butter
1-8 teaspoon salt
1 teaspoon flavoring
1 cup cream, whipped
2 cups fresh raspberries.

Soak gelatin in water five minutes. Beat egg yolks and sugar until thick and light. Pour hot milk over them slowly, stirring constantly. Add gelatin, butter and salt. Cook until mixture thickens (15 minutes). Strain, beat 2 minutes and let cool. Add vanilla, fold in stiffly beaten egg whites and then whipped cream. When it begins to thicken add the fresh raspberries. Turn into mold and chill 3 hours.

Cherry Whip
1 cup stoned black cherries
1 cup blanched almonds or other nuts
1 cup marshmallows cut in cubes
1 cup whipping cream

Chill all the ingredients and mix with whipped cream just before serving. Grapes, raspberries, peaches, canned pineapple, peaches, can be used instead of cherries.

An appetizing frozen custard is made as follows:
Frozen Honey Nut Custard
1 cup cream or milk
1-8 teaspoon salt
1 cup boiling water
1/2 cup honey
1 whole egg
1 egg yolk
1 egg white
1-4 cup chopped nuts.

Combine cream, whole egg, egg yolk and salt. Blend thoroughly. Combine honey and boiling water and bring to boil. Pour hot syrup over stiffly beaten egg white. Fold in the first mixture and the nuts and freeze.

ENGLAND DEFEATS U. S. TENNIS TEAM

AUTEUIL, France, July 24 (AP)—For the second time in three years, England's twin tennis aces, Fred Perry and H. W. (Bunny) Austin, have halted America's bid to regain the Davis cup in the interzone finals.

Just as they did in 1931, but under circumstances even more dramatic. Austin and Perry smashed through to victories in both of the final singles matches before a record crowd in Roland Garros stadium yesterday, gaining one by default through the collapse of the American champion, Ellsworth Vines, who lost the right to battle France in the challenge round Friday, Saturday and Sunday.

To Austin went the honor of clinching the series and ending for another year America's hopes of recapturing the trophy France has held ever since the "four musketeers," Rene Lacoste, Henri Cochet, Jean Borotra and Jacques Brugnon, won it at Germantown in 1927.

Shanks Visits Here—

Among the Union residents who spent Saturday evening in La Grande, transacting business was B. A. Shanks, who is proprietor of one of Union's most popular restaurants.

Sample Packages Have Toy Cut-Outs

SEXTET OF SAMPLERS: One of many crews now in field distributing millions of miniature boxes of Post Toasties featuring the new toy cut-outs. A revolutionary idea in packaging, every box of Post Toasties becomes a play-package, bearing on three of its sides colorful performing clowns, circuses and animals ready for cutting out when package is empty. These sample packages distributed direct to homes and through dealers will bring these new Post Toasties toys to the attention of parents and children and set cash registers to ringing up sales of full size packages of Post Toasties.

DE MAGGIO OUT FOR HIT RECORD; BEAVERS WIN 2

By the Associated Press
With a mark of 60 games Joe De Maggio was the Coast league's lone candidate today to equal or surpass the all-league 69-game consecutive hitting record established by Joe Wilhoit of Wichita, in 1919. Jim Glesby, Los Angeles first baseman, was stopped yesterday by Roy Joiner, of Oakland, after having hit safely in 44 games in a row.

De Maggio made it 60 straight with an infield single in each of the three weekend games at Sacramento. The Senators took Saturday game from San Francisco, 8-7, and the last half of yesterday's doubleheader, 3-2. The Seals won the morning game at Stockton, 7-4. Sacramento fans booed the scorekeeper who credited Joe with a hit in the nightcap. The Seal rookie punched a grounder to deep short which French could not handle. Police escorted the scorer from the field. Sacramento captured the series, 5-2.

Portland gained ground on the Solons, sweeping its series with the Missions with three weekend victories, 15-8 Saturday and 3-1, 3-2 yesterday. Mannus Duggan, Red catcher, heaved the ball to right field in the opener to give the Beavers two unearned runs and the game. Lou Koupa's 5-hit lustering and Charley Wallgren's lacy double with two men on base decided the nightcap for Portland.

Los Angeles trounced Oakland 11-1 Saturday behind Dick Ward's 7-hit toasting and again in yesterday's

PLAN TO BRING MONRO, OCKLEY HERE LABOR DAY

Martin A. Fitzgerald and Leo McCarthy plan to open the fight season in La Grande with one of the biggest cards ever presented in Eastern Oregon, they announce. They plan to promote their first fight for Labor Day with Frankie Monroe, of Klamath Falls, and Ockley, of Portland, as the headliners.

Monthly matches, both boxing and wrestling, are planned for the coming winter to be held in the Sacajawea.

nightcap, 7-2, with Buck Newsom on the mound. Although outfit 11-5, the Oaks won the opener in the 12th inning, 2-1. Los Angeles took the series, 4-3.

After being stopped 3-2 by Herman Pilleite Saturday, Hollywood came back yesterday to beat Seattle, 9-5 and 7-2, and walk off with the series, 4-3.

Golfer Gets Two Aces in One Day

RIVER FALLS, Wis., July 24 (AP)—Stan Morse gave the hole-in-one golfers something to shoot at when he scored two aces on consecutive rounds of play on the River Falls golf course yesterday. Both were made on the 90-yard eighth hole.

From Imbler—
Mrs. I. M. Noyes, of Imbler, was a visitor in La Grande on Saturday evening.

Frankie Frisch New Manager Of St. Louis Cards

ST. LOUIS, July 24 (AP)—President Sam Breadon of the St. Louis Cardinals today announced Frankie Frisch, second baseman, had been named manager of the team for the remainder of this season and for 1934, succeeding Gabby Street.

Breadon said the change was made because "we want to win the pennant."

TEN DAYS TO BE NEEDED TO FINISH PLANS

(Continued From Page One)

Grande, engineers, and E. R. Ringo, city attorney, began a 10-day job of getting the project on paper for submission to the federal government. All of the plans, costs, etc., of the project will be outlined before submission, so that Uncle Sam will have all of the facts at his fingertips when he passes on the pipeline reconstruction item.

Hopeful of Approval
With the bonds voted, and with the government recently indicating it would favor municipal projects such as sewer and water betterment that gave a great deal of employment, city officials are hopeful of early approval of the project.

And City Manager Angus McAllister today said that work can begin immediately after federal approval. The question right now is how to submit the project when the brief is completed. At present a state advisory board, appointed by Governor Julius L. Meier, is functioning in this respect. Recently, however, it was announced that a regional administrator would be appointed for Oregon, Washington, Idaho and Montana. Nothing further along this line has been made public, and unless the brief is completed, it will be submitted to the state advisory board. If there are some new developments, the brief will be submitted in whatever channel is recommended.

None of the bonds will be issued until federal approval is gained. If a 30 per cent grant is allowed and the entire project completed, there would be but \$179,000 of bonds to be retired over a long period of time at a low rate of interest. If no grant is allowed and the project not approved, the bonds would be submitted to the voters at the next election for cancellation, city officials have said.

Safeway Employees In Big Picnic At Cove

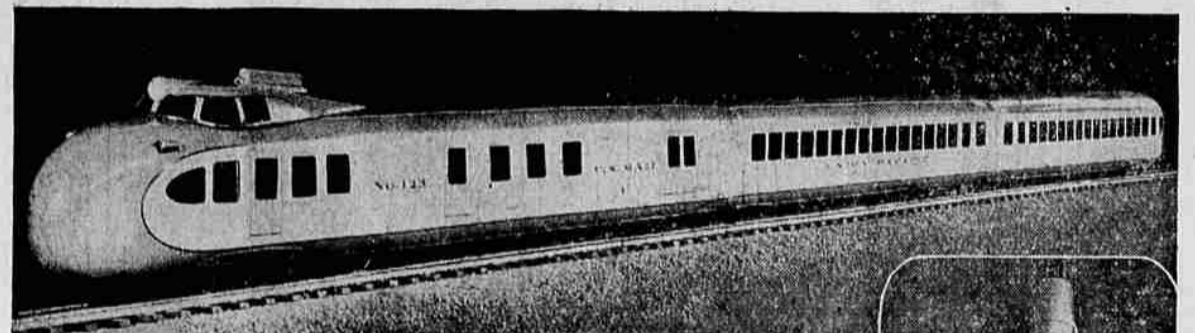

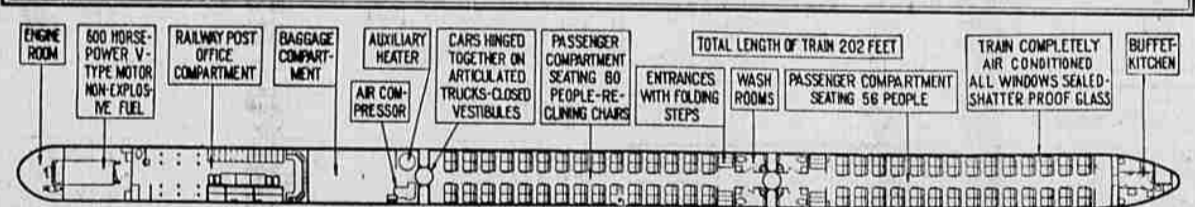

(Continued From Page One)

O'Neil, Carl Posey, Vernon Hays, Keith Madill, Fred B. Read, A. W. Geddes, E. C. Madill and H. L. Browning were umpires.

Swimming also was a feature of the afternoon.

The picnic followed the quarterly district meeting. Marguerite Klompfenstein and Everett Smith were in charge and were assisted by Orlan T. Bales, Fred B. Read, A. W. Geddes, Earl Rudolph and Margaret Geddes.

SCIENCE ACCLAIMS NEW SPEED TRAIN

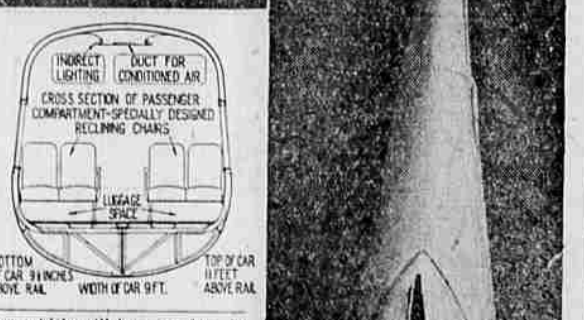

"Wind Tunnel" Tests Reveal Stream Line Power Economies

Power economy possibilities not possessed by any other known fast vehicle are attributed to the new high-speed, light-weight, stream lined passenger train now being built for service on Union Pacific lines. This conclusion, revolutionary in the transportation field, has been announced at the Omaha headquarters of the Union Pacific. It is based upon the formal report of Ralph Upson, noted aeronautical engineer and stream-lining authority, who in company with a group of scientists, has been making exhaustive wind tunnel tests of models of the new train. These tests, to determine wind resistance and friction at high speeds, were the first ever made in scientific history on a stream lined railroad train.

After the contours for perfect stream lining were established an exact scale model of the new train, eight feet in length, was built by the Union Pacific and installed as a part of the Chicago & North Western Railroad exhibit at the Century of Progress exposition at Chicago. The exhibit, one of the unusual features of the Travel and Transport buildings, is attracting wide spread attention of scientists, transportation experts and the general public.

The final model varies slightly from the original design which focused international attention when it was announced by the Union Pacific some weeks ago. The principal changes developed by the tests resulted in the complete shrouding, or covering, of the articulated trucks of the train and in some alterations in the

ular width will be nine feet. In operation the train will "hug the ground", the bottom of the cars being but nine and one half inches above the rails and the top of the cars eleven feet above the rails. This low center-of-gravity will add materially to comfort at high speeds so that the train can negotiate curves safely at higher speeds than present trains.

The 12-cylinder, 600 horse power, V-type distillate internal combustion engine is now under construction at Cleveland by the Winton Engine Corporation, subsidiary of General Motors. Distillate, which is used for fuel, is non-explosive.

According to announcement of the Union Pacific the operation of the new train is scheduled to begin on December 1,

STOCKS RESUME ADVANCE TODAY IN WALL STREET

NEW YORK, July 24 (AP)—A vances of \$1 to around \$10 today helped a strong stock market pin the gaps torn out by last week's "corrective reaction."

With the trading period cut three hours from five, prices rallied vigorously, extending considerable opening gains.

Wall street was cheered by the substantial buying orders which appeared this afternoon. Prices tended to slip off around the end of the first hour but trading volume dwindled at this setback and the advance was resumed, reaching its height late in the day. Gains were widely distributed. Sales approximated 3,420,000 shares.
