TIMELY WORDS OF WISDOM

In President Roosevelt's remarks to the forest army there was a paragraph which ought to be tacked up where every citizen could keep his eyes on it during the next year or so. That paragraph reads as follows:

"Too much in recent years large numbers of our population have thought of success as an opportunity to gain money with the least possible work. It is time for each and every one of us to cast away self-destructing, nation-destroying efforts to get something for nothing and to appreciate that satisfying rewards and safe rewards come only through honest work."

Here is one of those little observations to which all of us are ready to give lip service, but which we are not quite so ready to put into practice in daily life.

The stock market is boiling up toward the rim of the kettle these days, and a good part of its rise can be accounted for solely by the desire to get something for nothing. The man who bought Amalgamated Clothespins at 13 last winter and sold out yesterday at 98 may be a smart fish, but he has enrolled himself among the something-for-nothing boys and any recovery that takes place will come in spite of him and not because of him. For that man is a symptom of a national disease; a disease that came upon us most virulently during the gay twenties and which has had us flat on our backs for the last four years.

In the old days the country's admiration went to its builders, its doers, its men who got things done and made it possible for their fellows to get things done.

The railroad builders, the steel builders, the auto magnates and their brethren may have been guided by some cloudy ethics now and then and they may have profited unduly occasionally—but at least they gave the country a definite return for their wealth.

A decade ago we started shifting our admiration to the clever lads who put up their booths at the cross-roads and levied toll on passing commerce; to the men who made their fortunes by juggling stocks, who got rich not because they produced something we needed but because they got in on the ground floor and let the elevator carry them up.

Unless we can turn our admiration back to the builders instead of the takers, the recovery which is now in progress will do us precious little good.

THE RETURN OF SILVER

Silver: 38-1/4 cents per ounce. That quotation probably doesn't explain much to the average person. But it means that the poor man's gold recently touched its highest level since May, 1930.

During three long years of depression silver has been on the bargain counter—it's been offered at fire-sale prices. And that statement, too, explains little until cause and effect are related, until it is expressed in the terms of purchasing power, trade among nations, jobs. The collapse of silver was one of the principal economic causes of the decline in world trade—a decline which finally became a rout. More than half the world's people saw their purchasing power drop to less than half of former levels, and factories all over the world, here, in England and Germany and elsewhere, closed because cheap silver had taken their markets from them.

Silver is coming back. And that means that prosperity is coming back in a dozen states and in a score of great industries. It means that men are going to work, and that great markets are again going to open up.

GRANDE RONDE C. E. UNION IN MEETING

The regular meeting of the executive committee of the Grande Ronde Christian Endeavor Union was held Tuesday evening at the home of Mrs. I. C. Bowser, with 15 present. Albert Herrman, of Baker, vice president, presided over the meeting in the absence of Howard Carpenter.

In addition to the regular business which was transacted, plans were discussed for the convention which is to be held at Baker, Sept. 15, 16 and 17. This is to be the first of the annual conventions to be held in the fall, the time having been changed at the convention held at Wallowa in June.

The theme for this convention was decided upon as "Builders With Christ", but definite work as to who the speakers will be has not yet been

received. Miss Frances Kelly was appointed program chairman for this event.

The next regular meeting will be held during the convention at Baker, at which time plans for the winter work of the societies of this district will be discussed and organized.

ASSEMBLY AT EAST NORMAL

John Miller and Miss Florence Day furnished the program at the assembly of the Eastern Oregon Normal school yesterday at the auditorium. Mr. Miller discussed "Facing the Facts" and Miss Day presented a reading, "Ashes of Roses."

TODAY IN BRIEF, IN AND AROUND OREGON

AS CHRONICLED BY THE DAILY LEASED WIRE OF THE ASSOCIATED PRESS

N. R. A. EXCLUSION CHARGED SALEM, Aug. 9 (AP)—Objection to alleged exclusion of employees in NRA activity here was made last night by the Salem trades and labor council. The council adopted a resolution from the Seattle central labor council joining in a protest against the alleged acts of certain store groups which it was charged were whitening down the benefits that should accrue to their employes under the NRA. The use of volunteer non-paid workers to operate this year's state fair was also protested.

BALLOT THEFT CASE COMPLETED MEDFORD, Aug. 9 (AP)—The notorious "ballot theft case," an incident which shook the political foundations of Jackson county, today had become history except for some minor repercussions. Of the 20 persons indicted for the theft and destruction of some 10,000 ballots on the night of Feb. 20, 1930, all had been sentenced or their cases disposed of by dismissal. Late yesterday Gordon L. Schermerhorn, deposed sheriff of the county, was sentenced to serve three years in state prison.

CONVICT IS CAPTURED SALEM, Aug. 9 (AP)—Freedom and evasions have terminated for Douglas L. Day who escaped from the Oregon state penitentiary July 29, 1930. He was apprehended at Los Angeles, Cal., and will be returned to serve out his term of 12 years for assault while armed with a dangerous weapon.

hours later, which ended fatally. The body is at the Walker Funeral Home and funeral arrangements will be announced later.

Mr. Zweifel is survived by his widow, Mrs. Josephine Zweifel, two sons, Walter and Arthur, of La Grande, and Arthur, of Malina; one sister, Mrs. Anna Sturgist, of Oregon City, besides several nieces and nephews.

He had lived in La Grande for 28 years where he owned and operated a tailoring, cleaning and pressing shop, coming to this city from the Willamette valley. He was 44 years of age at death.

Mr. Zweifel was a member of the Elks lodge, of the American Legion and of the Lions club, and also a former member of the La Grande volunteer fire department, serving for 18 years in that capacity. "Rube," as he was known to his many friends, was an ardent hunter and fisherman and was always among those who opened the seasons with successful catches.

west of Lisbon. The planes were bent led by wireless because of the fog.

The first 11 flying boats had alighted by 2:45 p. m. GMT. Thousands thronged the Black Horse Square pier, waiting to cheer Balbo when he came ashore. A second squadron of nine planes soon appeared and swept gracefully down to the Tagus.

The armada required about seven hours to cover the 1200 miles from Azores to Lisbon, traveling at an average speed of better than 170 miles an hour.

LINDBERGH IN GREENLAND

JULIANEAB, Greenland, Aug. 9 (AP)—Colonel and Mrs. Charles A. Lindbergh paused in this city their serial mapping tour today with the expectation of taking off for Ireland shortly.

They arrived at this southern town after a flight across inland ice from Angmagssalik, East Greenland. En route they stopped for a short time at Godthaab on the west coast.

HARBOR GRACE, N. F., Aug. 9 (AP)—The big white plane in which Benjamin and Joseph Adamovitz, Brooklyn, N. Y., had hoped to fly to their native Poland, before it crashed in landing here yesterday, will be dismantled and shipped back to the United States, the brothers announced today.

KITTEN BALL PLAYERS WORK OUT TONIGHT

With creaking joints, groaning muscles, and moaning here and there among the Leans and Rotary kitten ball teams due to the strenuous practice sessions the candidates for places on the respective teams have been going through this past week, the outlook for a hotly contested battle next Monday afternoon is strictly on the up-and-up.

Rivalry between the two organizations is at a high pitch and interest among La Grander is running high. It is expected that perhaps an unusual large crowd will be on hand at the High school field at 5:15 p. m. next Monday afternoon to witness this event, and pungle up their dime admission fee which will go to the cause of local charity. The winner of the game will receive 60 per cent of the admission total, and the loser 40 percent. Both organizations will use the funds exclusively for charity use of the respective clubs in La Grande.

Both teams will practice at the high school field this evening.

First shipments of peaches and apples from Georgia orchards in 1933 were reported the same day.

U. S. TO MATCH FUNDS SALEM, Aug. 9 (AP)—The contract for matched funds from the federal government for the Baker and Brogan reclamation projects was approved by the department of the interior, Charles E. Stricklin, secretary of the state reclamation commission announced today. The government will match the \$500,000 already obtained for the investigation work for supplemental irrigation water.

TO SENTENCE BANKS MEDFORD, Aug. 9 (AP)—L. A. Banks, convicted of second degree murder, for the slaying of Constable George J. Prescott, last March 16, will be sentenced at Eugene Friday morning. Circuit Judge George F. Skipworth announced here. Banks has been held in the Lane county jail, since his conviction May 22.

CUT PRICE TO FISHERMEN ASTORIA, Aug. 9 (AP)—Salmon packers here announced today that fishermen will be paid 4 cents a pound for Chinook salmon caught between Aug. 10 and 20. The present price is 6 cents a pound. Fishermen were to consider the offer at a meeting this afternoon.

Food Served At C.C.C. Camps Is Declared Good

OMAHA, Neb. (AP)—Major General Johnson Hagood, commander of the seventh corps area, said "persons with communistic leanings" and other opposing President Roosevelt's reforestation program have been flooding the mails with complaints about the food and other details of camp life.

His announcement followed a revelation that he has obtained affidavits from Nebraska youths at a reforestation camp near Roseburg, Oregon, denying reported complaints, made in letters to their parents about food at the camp.

General Hagood said the matter had been investigated by the commanding general of the ninth corps area who found the complaints unjustified. Hagood said the men get the same rations as the regular army—the best food given to any army in the world.

Buddy Baer Also Throws Punches That Are Vicious

SAN FRANCISCO (AP)—With a pair of hands big enough to hide the Sunday meat in, six feet five inches of physique and 247 pounds of bulk, Buddy Baer has started on the pugilistic trail in the footsteps of his now famous older brother, Max.

After training for several months, the 18-year-old giant who makes his brother appear small by comparison and rivals his hulk of Primo Carnera, made his debut in a bout that was interesting but not particularly enlightening as to his possibilities.

His opening appearance took place in an amateur club in San Francisco. Fists encased in huge exhibition type gloves that resembled blown up pillow cases, the youngest fighter in the Baer family showed he had a good elementary knowledge of boxing and also possessed a punch during the minute or so of fighting.

Young Baer's opponent, a mere 195-pounder, apparently was unnerved by his rival's size as he dropped to the canvas from a light punch and stayed there.

Those interested in Buddy's possibilities intended to work him along slowly. He will retain his amateur status and appear in three round bouts for the present since all agreed he needs much more coaching before he dips into the professional class.

WHIZZES ACROSS CHANNEL AND BACK IN 61 MINUTES

DOVER, England (AP)—The English channel has yielded yet another record—this time to a speedboat formerly owned by the late Sir Henry Segrave.

Angus Miller, an ex-naval officer, crossed from Dover to Calais and back in White Clou II in 61 minutes.

The previous record was held by Kaye Don, the racing motorist, with 65 minutes.

Rio Grande City, Tex., incorporated in 1925, will cease being a city by vote of its residents.

50 AUTOMOBILES HELD IN NEVADA

LAS VEGAS, Nev., Aug. 9 (AP)— Fifty new passenger automobiles being towed overland and consigned to Paul G. Hoffman, Los Angeles dealer, were held here by traffic officers of the public service commission on the demand that each machine be licensed under Nevada laws.

The cars were from a South Bend, Ind., factory. The licenses, with contingent expenses, including the property tax in this state, would cost \$65 each.

Detention of the cars here was described by the state officers as the first step in a campaign against persons using Nevada highways for commercial purposes without being properly licensed.

Saloon Must Be Banned, Control Committee Says

PORTLAND, Aug. 9 (AP)—The saloon must be banned. This was the first promise established at a meeting here last Tuesday of the state liquor control committee which will recommend suitable regulations to the legislature for the distribution and sale of liquor, once the 18th amendment has been repealed.

The members of the committee, appointed last month by Governor Julius L. Meier, announced they were fully agreed that the saloon must not return to Oregon. There was further agreement that there must be suitable state laws regulating the sale of liquor, but allowing the several counties and municipalities to prohibit the sale within their limits, if each so wishes.

Several plans for such control were given preliminary consideration by the governor's committee.

Florida's 1933 session of the legislature cost the state \$163,061.
