## Wicks Family In Reunion Sunday At Bogue Home

**NORTH POWDER (Special)** — The Wicks family held a reunion at the S. R. Bogue home Sunday. Dinner was served on the lawn, lighted to fit the occasion. Those present were: James Wicks, Mr. and Mrs. Allen Wicks and children, Norman and Barbara, Mr. and Mrs. Arthur Wicks, of San Diego, Cal., Mr. and Mrs. Harry Nice and son, Glenn, Mr. and Mrs. Alec Shaw and daughters, Margaret, Patricia and Betty, Mr. and Mrs. S. R. Bogue and daughters, Elsa, Idella, Meade Tally and Mr. and Mrs. Glenn Smith and son, Robert, of La Grande.

## RAIN WELCOMED NEAR WALLOWA

**WALLOWA (Special)** — There has been some delay in harvest the past few days because of numerous showers. Some hail is also reported causing varying degrees of damage to grain crops. At Zumwalt a severe hail storm was severe enough to break

out some windows but little has been learned of crop damage.

Wheat farmers are well pleased to see some moisture as much of the summerfallow has dried out badly. The moisture has gone deep enough in the well-worked land to meet with moisture underneath and some seeding of fall wheat is starting.

Other farmers expect to start seeding as soon as they are through harvesting. Early seeding holds much favor with wheat raisers here. Over a period of several years early seeding has a much better chance of making a good yield than later seeding.

Farmers have taken more interest in farming this season, resulting in better tilling methods on summerfallow land and most fields have been worked into excellent condition for seeding. Weeds are starting considerably on some land and will require more cultivation.

Recent rains have been excellent for gardens and spud patches, coming in just the right time to aid in maturing corn, beans and other vegetables.

The Missouri state highway patrol began a "safe driving" campaign after 58 persons were killed and 577 were injured in motor accidents in Missouri in one month.

## Inspections Of Crops Damaged By Rodents Made

**WALLOWA (Special)**—The ground squirrel season is quite well passed and most of the rodents which escaped the poison campaign have gone in for winter. The damage has been so great the past season that farmers are not forgetting the seriousness of the situation and are discussing possible methods to be used next year to prevent such serious damage again. Some farmers in the hill districts have practically nothing left for harvest and are facing a bad situation in regard to winter's feed supplies. Many suggestions are heard regarding methods to combat the rodents on a larger scale during another spring. Some believe that it might be possible to secure government aid by posing groups of C. C. men during the bad squirrel season for distributing poisoned grain, gas, etc., and thus doing a more thorough job of covering infested lands.

## Cove Musicians Home From KOIN Radio Program

**COVE (Special)** — Eugene Gasset and Bertrand Wardell, who won a trip to Portland through the Eagles contest recently, returned from Portland after several broadcasts over station K. O. I. N. Many people of Cove enjoyed listening in on the program given by these Cove boys and, although reception is not so good in the summer time, several radio owners were able to get a good return of the program. Both these young men have lived all their lives in Cove and every one has enjoyed the tenor and baritone duets they sing to the accompaniment of their guitars.

## SHEEP MOVING FROM RANGES

**WALLOWA (Special)** — There is some movement of sheep out of the timbered ranges north of here. During the past week several bands of early lambs have been brought to the valley, some being sold and others being placed on green pasture. Range conditions in much of the late ranges are said to be holding out fairly well.

## Easy Way To Free Your Pet of Fleas

Here's the quickest possible way to get rid of fleas on cats and dogs or lice on birds:

Simply sprinkle your pet with Bu-hach, sifting the powder lightly through the fur or feathers (if you can). Then watch the vermin roll off! Even if your pet licks it off or breathes it in, Bu-hach won't make him sick, for it is guaranteed safe for human beings and animals. But it is sure death to insect pests or money back!

Comes in handy sifter cans at 25c and 50c at all good grocery, pet, seed and drug stores. —Adv.

YOUR OWN HOME MADE MAYONNAISE TASTES THE WAY YOU WANT IT TO TASTE

Some folks like a sweet mayonnaise . . . and some don't want any sugar at all. Some like mustard, and some can't stand it. And lots of people like the taste and healthfulness of fresh lemon juice while others want vinegar.

There's only one way to have mayonnaise that is not sweet at all, or that is extra sweet . . . only one way to have mayonnaise that is made with lemon juice instead of vinegar . . . and that way is to make it yourself.

Home made mayonnaise is simply choice Wesson Oil, an egg just out of the shell, and seasoning exactly as you like it.
