Many are the afflictions of the righteous; but the Lord delivereth him out of them all.—Psalm 34: 19.

A BIB AND TUCKER MIGHT HELP

Nudism is one of the sensations of the day and with colonies established in certain sections of the United States, the reading public watches its newspapers from day to day for the latest developments.

Maybe it will fade out, and maybe it will endure — time will decide. But in considering the enduring qualities of the movement, there are certain things to consider (and remember it is the little things in life that cause the most trouble).

For example, supposing the nude business man, in rushing through his morning breakfast, spills a steaming hot cup of coffee down his portly bosom! And what will his wife do to cover that appendicitis operation scar?

How can the nude farmer boy carry in the morning's supply of wood without getting his tummy full of splinters? How would those people who live in countries where the mercury slips below zero in the winter figure it all out?

Those are only a few of the many, many questions that will have to be satisfactorily answered before really making a prediction as to whether nudism is here to stay or just a passing fad.

The London economic conference was only two-thirds a failure. It was not a conference and it was not economic, but it was in London.

The nice flavor in those Norwegian sardines caught and packed in New England is from the Italian olive oil made from Georgia cotton seed.
