MAN BLIND 2 YEARS IS NOW ABLE TO SEE

"I feel like a million dollars," A. L. LaViers said this morning, and he has reason for his joy, for the first time in two years he is able to see. For the past five years Mr. LaViers has been a reader of the Evening Observer, but it has been necessary, because of an inward cataract from which he has been suffering, for his wife to read the news.

Mr. LaViers is going home tomorrow though with his eyesight 100 per cent perfect following an operation performed by Dr. P. L. Balston, La Grande specialist. The cataract had bothered him for the past 15 years and had steadily grown worse until the last two years when he has been almost completely blind.

"La Grande ought to be proud of having such a specialist in the city," Mr. LaViers said, almost weeping with joy.

He is a farmer living two miles above Sunnerville.

PIONEERS WILL BE ENTERTAINED

Pioneers and their families will be entertained tomorrow at Pioneer park on Catherine creek by the Francis Brown auxiliary to the Sons and Daughters of Union County Pioneers. A basket lunch will be served, with each family furnishing its own lunch, while coffee will be furnished by the auxiliary.

The next regular meeting of the auxiliary will be held next Thursday afternoon at 2:30 at the home of Mrs. Hester Ellsworth on the Foot-hill road towards Ladd canyon. Mrs. Alma Conley and Mrs. Carrie Garity will be assistant hostesses.

UNEMPLOYED BUILD CLINIC

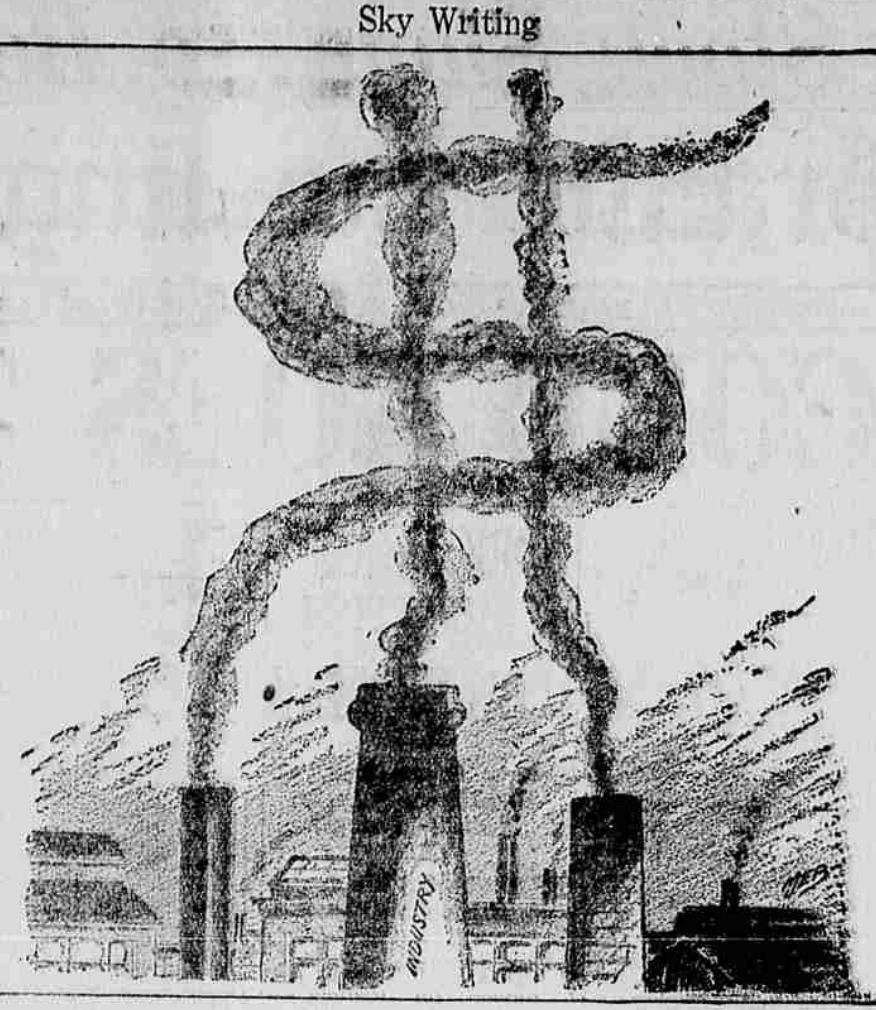

SAN DIEGO, Cal. (AP)—A community medical clinic is being built of adobe bricks by unemployed as a unit of "Neighborhood House," which, it is hoped, eventually will be enlarged to include club rooms and an arts and crafts section for girls.

WORK NEAR COMPLETION ON HIGHWAY

(Continued From Page One)

some time, according to County Judge U. O. Couch.

The grading has been finished and surfacing of the last six miles of the road is under way.

As soon as the work is completed, the county's connection with the road will cease, and the state highway commission thereafter will have complete charge of its improvement.

When the county finishes its work, it will provide additional trading territory to both Union and La Grande through nearly all of the year. Better roads for some time has resulted in some of the Ponderosa, Medical Springs trade going to North Powder and Baker.

REP. PIERCE SPEAKER AT MINING MEET

(Continued from Page One)

The convention was completed with the banquet last night, with the exception of visitations to mining properties in this vicinity today and Sunday.

Speakers at the afternoon session yesterday predicted that "We are on the verge of the greatest mining boom in history" and expressed belief that Oregon will be the scene of that development.

Pierce Speaks

Among the principal addresses delivered in the afternoon and evening were those of Dr. Warren D. Smith, of the University of Oregon, Representative Walter M. Pierce, of La Grande, P. C. Greene, Chicago geologist, and W. H. Simons, inspector of mines of Idaho.

The congress voted to continue support of the department of mines at Oregon State college, and advocated changes in the present lien law and appointment of a committee representing every section of Oregon to receive any matters which any mining group desires to place before the legislature.

Pays Tax, Too

FOREST FIRES CONTROLLED

PORTLAND, Aug. 19 (AP)—Two forest fires which had flared all week in the Tillamook-Washington county area, were brought under complete control during the night as a light rain fell in the mountain country. Reports today from the forest service said the fires are not spreading, and that continued favorable weather with little wind will soon put them out.

FIRE HAZARD MORE SERIOUS IN THIS AREA

(Continued from Page One)

Controlled lands in Union county, with smokers and campers blamed for more than half of these blazes. With the opening of the grouse season Sunday it is expected that many hunters will go into the woods. They are urged by Mr. Morehead to be especially careful with smoking and building campfires.

There have been no closures on the Union county district this year because of fire hazard, and it is hoped by officers that closing will not be necessary. Such action probably would be taken, however, if the situation grows worse and proper cooperation is not given by those using the woods.

To exterminate trout in the red salmon spawning waters of Alaska, the territory and private packers have appropriated \$22,500.
