## Recruiting Will Continue, Naval Officer Reports

The U. S. marine corps is to continue recruiting to maintain a strength of 15,000 men, according to instructions received by Captain H. N. Stent, marine corps recruiting officer at Portland.

Captain Stent sends word that due to the large number of enlistments each district has been placed on a restricted allowance basis for new enlistments. Approximately 20 enlistments have been authorized each month from the state of Oregon, Idaho and Southern Washington. Men selected must be of excellent character and able to furnish references, minimum height and age for acceptance has been set at 59 inches and 18 years, respectively. All men accepted for first enlistment are sent to the marine corps base at San Diego, Cal., for training, men who have had previous service will be transferred to the marine barracks, Puget Sound, Bremerton, Wash.

## WAKE UP YOUR LIVER BILE—WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pints of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your load aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get those two pints of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Has a substitute. 25¢ at drug stores. ©1931 C. M. Co.

## THIS CURIOUS WORLD

THE AVERAGE AMERICAN LIVES ABOUT FIFTY-SIX YEARS, DURING WHICH TIME HE EATS 106,400 POUNDS OF FOOD.

HIS TOTAL MEAT CONSUMPTION CONSISTS OF ABOUT 35 HOGS, 6 STEERS, 3 CALVES AND 5 SHEEP.

(U. S. DEPARTMENT OF COMMERCE STATISTICS)

IT IS VERY DOUBTFUL, IN THE OPINION OF MANY NATURALISTS, THAT AN EAGLE CAN LIFT MORE THAN 10 POUNDS

THE HOUSE STANDING HIGHEST IN THE AIR, BETWEEN THE ATLANTIC AND THE ROCKIES, IS ATOP HARNEY PEAK, WHICH IS 7242 FEET ABOVE SEA-LEVEL.

THE LIFTING POWER of the eagle has been a favorite subject for imaginative naturalists. Young fawns and lambs have been carried off by the golden eagle, but their weight is but little greater than that of a rabbit. Larger animals are frequently killed by eagles, but they are eaten on the spot and not carried away.
