May Adopt Plan To Halt Doping Of Race Horses

WASHINGTON, Sept. 8 (AP)—Adoption of the regulations in effect at French racetracks to prevent the "doping" of race horses is recommended for courses of this country by Harry J. Anslinger, commissioner of narcotics.

The use of narcotics on horses has been brought to light in a campaign against the practice which has resulted in over 50 arrests in eight months.

The regulations provide that racing commissioners at any track may at the end of each race select any horse for a saliva test. The test is given immediately by a track veterinarian in the presence of the owner or his representative and the specimen taken is sent to a chemist employed to make analyses. The regulations provide air-tight precautions against switching specimens or other irregularities.

Most of the "doping" is done to stimulate horses rather than to slow them down, narcotic agents have found.

STARS TAKE LEAD IN COAST LEAGUE; SACRAMENTO WINS

By The Associated Press

Late game rallying powers of the Hollywood Stars have once more given them undisturbed possession of the Coast league leadership.

Last night Los Angeles entered the ninth inning with a two run lead over the Stars. But before Halton could retire the side an infield out and four singles had given the Stars five runs and the game 11-8.

Sacramento made it two straight on its home grounds, last night, beating Portland 6-1 behind the 7-hit tossing of Ed Bryan, who turned in his first victory since early July. The Senators pounced on Rody Kallo in the initial inning to send home three runs on four safeties. They jumped on Kallo again in the fifth for two more and added another off Art Jacobs in the same inning. French Bordagary drove in four of the Sacramento tallies with a double and single.

Outslugging the Oaks to win 9-8, Seattle squared its series at Emeryville.

After dropping two in a row, San Francisco came back last night to trounce the Missions 11-2.

Hitler-Wagner Romance Dies; He's Too Busy

BAYREUTH, Germany (AP) — The rumored romance between Adolf Hitler and Winifred Wagner, gossip about for years, apparently is out. Instances of such say that only friendship survives.

Hitler is so busy with his chancellorship and his Nazi party that marriage is said to be further from his thoughts than ever.

Also, Frau Wagner is one of the few Germans who have refused to bow to a Nazi decree. The moment she heard of a radio order which barred Toscanini and some other distinguished American conductors from German air waves, she posted to Berlin and bearded Hitler in his den. She told him the radio ban was a big mistake. Also she insisted that her star Jewish singers, among them Emanuel List and Alexander Kipnis, must be retained.

She had her way about the soloists. But the broadcast decree held, and Toscanini refused to come to Bayreuth.

QUARTERS FOR OFFICERS REVEAL JAPANESE PLANS

CHANGCHUN, Manchuria (AP) — Quarters for Japanese officers with accommodations for their wives and children, are being built in various Manchurian cities and officials admit they indicate plans for an indefinite stay as protectors of Manchukuo.

The army headquarters here have announced that "the Manchurian incident," as the late campaigns are called hereabouts, will be considered officially "closed" in October.

Officers' families then will be permitted to come to the various posts and something like peace-time garrison life will be established.

for relief.

"But I am glad to say these instances are growing less. The people are understanding that we are not wielding the big stick but making the obligation clear."

Mr. Roosevelt emphasized that the action of the federal government in giving relief appropriations was on an emergency basis and that he expected the government eventually to be relieved of this responsibility.

"The whole period we are now going through will in the end get back to individual initiative and responsibility," he said.

The president spoke optimistically of the trend of affairs and said he expected everyone to co-operate in the relief drive.

"I believe you can do the work more effectively than last year," he said. "Taking it by and large the country is in a more hopeful mind. 'The people have more to spend and don't you let them tell you otherwise.'"

"There will be some who will have excuses but there is going to be no such thing as being left out. No one can be left out. They've got to join you."

BANKERS ADOPT CODE UNDER THE RECOVERY ACT

CHICAGO, Sept. 8 (AP) — A code for bankers, setting up a permanent code committee and seeking a degree of uniformity in interest rates and service charges, has been adopted by the American Bankers' association.

A minimum wage of \$12 to \$15 a week was fixed, with the exception that apprentices must be employed for one year at 80 per cent of the wage set for the particular bank involved.

The code was presented to the bankers' convention by Ronald Ransom of the Fulton National Bank of Atlanta, code committee chairman.

The permanent code committee, it was recommended, will determine maximum uniform hours of banking for various localities, a clearing house district, or a federal reserve district being used as a basis. All banks in the region must fix a minimum service rate and uniform service charges, the fee for exchange being left to the individual bank.

The right of the employe to organize and bargain collectively was reserved and forcible membership in company unions forbidden. In general, the code followed the provisions for hours of labor required under the NIRA, a 40-hour week being adopted except where seasonal demands conflict, the bankers mentioned the added burden at harvest season. Night watchmen were exempted.

The bankers' association agreed to place the code in effect October 1 if approved by the federal administration. A hearing has been set tentatively for Sept. 18.
