AUTOMOBILE ACCIDENT PREVENTION MONTH

Governor Julius L. Meier has proclaimed September as Automobile Accident Prevention month, in keeping with a nation-wide movement. His action is timely and deserving of more attention that it probably will receive.

For your consideration, here are a few statistics. During 1932 there were 228 of Oregon's citizens killed as a direct result of automobile accidents. More than 4300 of Oregon's citizens were injured, half of whom will never fully recover but will go through life suffering physical handicaps.

Governor Meier, in his proclamation, says: "If a plague or pestilence were making the same inroad on our animal or vegetable life that automobile accidents are making on our human life and happiness, a unanimous cry would go up, and all would co-operate to stop such loss."

"It is conservatively estimated that ninety per cent of all automobile accidents are the direct result of carelessness of either drivers or pedestrians. In addition to the tremendous toll of human life and happiness, the annual cost in dollars to the citizens of Oregon is greater than the entire cost of our State Government."

We have had several fatal accidents in and near the La Grande community this year, and this city should take the governor's urge for carefulness during September to heart—and then continue through October, November, December and all the other months to come.

An automobile is today an indispensable servant, but through carelessness it can become a terrible menace to life and property. Let's all co-operate to reduce the automobile's toll, and increase its rightful uses.

PAUL NEWLIN IS RECOVERING

Paul Newlin, former resident of La Grande, is recovering in the Seattle general hospital from a delicate operation to relieve torn muscles in his abdomen. It was learned today, Paul was injured while working for the Winston Brothers Co. in Seattle several days ago. Vincent, Paul's twin brother, is employed by the same company and the two were transferred to Seattle only a month ago from Cle Elum, Wash.

Both boys graduated from La Grande High where they were prominent in athletics.

A group of Los Angeles sportsmen is reported trying to buy the Seattle franchise in the Pacific Coast league to transfer it to Mexico City, planning to use airplanes for the long hops.

In addition, the employer's salary for the week may not be reduced by the time off on holidays. The full minimum must be paid in weeks where a legal holiday occurs, even though the employee does not work.
