

ANGELS DEFEAT SAN FRANCISCO; PORTLAND LOSES

By The Associated Press
Portland, Sacramento and Hollywood have all failed in recent weeks to halt the forward march of Los Angeles. Today San Francisco seemed unequal to the task.

There was no slackening of the pace that is carrying the Angels towards the 1933 Coast League pennant as they made it two straight over the Seals last night, 8-6.

Hollywood pushed over four runs in the ninth inning to beat the Missions 4-4 and hold to its second place post four games behind Los Angeles.

Oakland made good use of three Portland errors to trim the Beavers on their home grounds, 7-2. The Beavers boots helped the Oaks to four unearned runs, Harlin Pool and Earl Mattheo collected 7 of Oakland's 11 blunders. Pool getting a homer, double and brace of singles. Ed Walsh Jr. held the Beavers to 9 hits, scattered through 7 innings.

Wet grounds forced postponement of the Seattle-Sacramento game.

WORLD SERIES TO BEGIN OCTOBER 3

CHICAGO, Sept. 14 (AP)—The world's series of 1933 will open on Tuesday, Oct. 3, in the city winning the National league championship, presumably New York.

This was decided today at a meeting presided over by Kenesaw Mountain Landis, commissioner of baseball.

If the Giants win the National league flag, games will be played at the polo grounds, New York, Oct. 3 and 4, with the teams playing in Washington, the probable American league pennant winner, Oct. 5, 6 and 7. Should additional games be necessary, they will be played in New York on the following Sunday and Monday.

Following are the percentages of change in some of the cities covered: Atlanta, up 1.5 per cent; Boston, up 2; Butte, down 2.3; Columbus, down 1.8; Dallas, down 1; Denver, down 1; Detroit, up 2; Los Angeles, down 0.3; Minneapolis, down 2.2; Portland, Ore., up 0.2; Providence, up 0.9; Salt Lake City, down 1.3; San Francisco, up 0.2; Seattle, down 0.1.

By Rader Winget
NEW YORK (AP)—Technocracy, the social engineering program devised by Howard Scott to save North America, is reaching its mechanized life lines today in two branches over America.
Chief Technocrat Scott sits in a tall Manhattan office building and smiles grimly at "Roosevelt folly."
"By October of next year the present revival expedient will have failed," says Scott. "I hope technocracy will be ready by then to take over the economic direction of the country."

KING GIVES HIS IMPRESSIONS OF MODERN GERMANY

Four weeks spent studying at the University of Munich, Bavaria, four weeks in which to view conditions there under the Hitler regime was the experience of H. W. King, teacher of mathematics and German at the La Grande High school. The summer session at the long-founded university is held especially for foreigners and enrollment is made through Columbia university in the United States.

The classes at the university were cosmopolitan, one class in which Mr. King was enrolled being composed of students of six different nationalities.

The La Grande student found that conditions apparently were good in Germany. No beggars line the streets as they do in some European cities—it is prohibited by law—but every employed person gives a certain percentage of his wages to relieve unemployment. The jobless are given work to do in a work camp for which they are paid a wage.

Freedom of Speech
There is no freedom of speech in Germany, Mr. King found, but a foreigner has more liberty than one would suppose. Traveling in Germany is a delight since the people are extremely polite, he says.

German youths have a keen interest in politics, he adds. The girls sing and march through the streets and every youth is interested in the government. Hitler has a definite program and the majority of the people are enthusiastic in seeing it carried out. In some sections the people are not in favor of Hitler but if they are not satisfied they do not say much about it.

German newspapers say that the Germans are a peace loving people and declare that they have no air force, a small fleet and a small army. The Nazis are not soldiers, they merely pledge themselves to serve their country, Mr. King points out.

Lots of Building
The La Grande student was amazed, he says, at the amount of building going on all over Europe. Very fine homes are under construction in Paris along the Seine. The war ridden cities are all practically rebuilt and tourists are disappointed to see modern cities in place of the ruins. Germany, Mr. King believes, seems to have recovered from the World War. Crops are excellent in Germany, also.

The persecution of the Jew Mr. King attributes to the strong nationalistic feeling in Germany. The Germans wish to look on the Jews not as a part of themselves but as guests of the country. They want Germany for the Germans. Hitler is a native of Munich, is of Austrian birth and Slavic descent and some of his enemies complain of his foreign birth. Many of the Jews have gone to Prague, Czechoslovakia, a center of bitter hostility to Germany.

Claims are in Germany that there are two million less unemployed under the Nazi regime.

Mr. King also traveled through France, visiting in Paris, to Vienna where he saw the palace of the Hapsburgs; through the Kaiser's former palace at Berlin; the San Souci palace at Potsdam where Frederick the Great lived; through Holland to England where he saw Windsor castle and other famous structures before sailing from South Ampton, England.

Second Alfalfa Cutting Is Good
WALLOWA (Special)—The second cutting of alfalfa is now in progress at irrigated farms. Where first crops are taken off early and plenty of irrigation done, the second cuttings are nearly as heavy as the first.
