How To Fill Jelly Glasses
Fill jelly glasses 2-3 of an inch from the top. When the jelly has cooled cover it with melted paraffin, tilting the glass of jelly so that the paraffin completely seals the product. The paraffin should be poured from a small tin cup or discarded and taping on the tops of the jelly glasses, the tops may be covered with rounds of paper held in place with rubber bands.

We suspect that the opening of the deer season is welcomed not only by the hunters, but by the undertakers.

A SEASONABLE RECIPE

So popular is the versatile tomato in American menus, and so well-known are its virtues as a health protecting food, that very few home-makers, in Oregon at least, consider their canning season complete until large quantities of them have been put up for winter.

Most of the tomatoes, of course, are just simply canned, but they may be preserved in a great variety of ways. Leaflet HEB 208, prepared by the home economics division of the Oregon extension service at Corvallis, offers about a dozen popular recipes for using them alone or combined with other fruits and vegetables. This leaflet may be obtained free from the college or from home demonstration agents in the various counties. Several of the most popular recipes in the leaflet are as follows:

- Tomato Puree**
1 gallon tomatoes.
1 small onion, sliced.
1 stalk celery or celery leaves.
1 bay leaf.
2 teaspoons salt.
¼ teaspoon paprika.
- Cook the mixture until the tomatoes are tender and put it through a strainer. Boil the pulp until it is reduced to one-half the original volume, and seal in hot, clean jars.

- Tomato Butter**
1 quart thick tomato pulp.
1 pint apple pulp.
Juice of 1 lemon.
4 cups sugar.
- Combine all ingredients, cook rapidly until clear. Seal the butter in hot, clean jars.

- Mock Mince-meat**
3 pounds green tomatoes.
3 pounds apples, chopped.
4 pounds brown sugar.
2 pounds raisins.
2 tablespoons salt.
1 cup suet.
1 cup vinegar.
2 tablespoons cinnamon.
2 teaspoons cloves.
1 nutmeg.
Orange peel, if desired.

Chop the tomatoes and drain them well. Measure the juice and then add the same amount of water to the pulp. Seal the mixture and drain off the liquid. Repeat twice this process of adding fresh water, scalding and draining. Add the remaining ingredients in the first column to the pulp and cook the mixture until it is clear. Add the ingredients in the second column and cook the mixture until it is thick. This mince-meat will keep in a covered stone jar.

LOSTINE PERSONALS

A lovely surprise party was given to Mrs. Jay Lewis Wednesday evening at the home of Mrs. John Lewis. Thirteen women were present, bridge being the diversion of the evening. Refreshments were served.

Mr. and Mrs. Jay Lewis left Monday for Dayton to be gone all winter.

SHE ATE ALL-BRAN TWELVE YEARS WITH FINE RESULTS

Delicious Cereal Relieves Constipation

Read this very enthusiastic letter:

"Something like eleven or twelve years ago, I began eating Kellogg's ALL-BRAN. When I started, it was called simply Kellogg's Bran, and I believe it was one of the first products of the kind on the market.

"My friends often laugh at my fondness for ALL-BRAN. It gives such a clean taste in the mouth, and I do not feel satisfied until I have had my ALL-BRAN.

"If the Kellogg Company should ever stop manufacturing ALL-BRAN, here is one who would be greatly disappointed."—Miss Amy Person, University Park, Iowa.

Science says that ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to further aid regularity. Also iron for the blood.

The "bulk" in ALL-BRAN is much like that of leafy vegetables. How much easier taking patent medicines—often harmful. Just eat two table-spoonfuls daily for most types of constipation. For serious cases, try it three times daily. If not relieved this way, see your doctor.

Sold in the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

Mrs. Keener Of Joseph Brings In Fine Buck

JOSEPH (Special)—Mrs. Frank Keener is the first woman to get a deer this season. Mr. and Mrs. Keener were out hunting Sunday and Mrs. Keener got a three-point buck.

The county judges Friday evening. It was an old-time party and those who were not dressed in old-fashion dress were fined. Cider, doughnuts and coffee were served.

FATAL BRAIN DISEASE NEW MENACE TO STOCK PROVO, Utah (AP)—A brain disease which made its appearance in California two years ago and last summer spread into Nevada has gotten as far east as Utah and is taking toll of horses and mules in two counties in this state.

The disease, believed to be carried by insects, chiefly mosquitoes, is prevalent in Weber and Davis counties. It is known as encephalomyelitis. The first symptoms of the disease are general listlessness followed by profuse sweating, a tendency to fall down and refusal to eat, says W. H. Hendrick, chief deputy of the state bureau of animal industry.

Although a serum has been devised, the disease is often fatal to the infected stock.
