

# SOCIETY NOTES

Miss Bess Duke, Society Editor  
Telephone Main 600 Until 9:30 a. m.

### Dr. Bernard W. Hummelt, Formerly Of La Grande, Weds Harryette Butterworth, of Portland

Announcement of the marriage of Miss Harryette Butterworth and Dr. Bernard W. Hummelt, July 7, at the Mena Presbyterian church in Los Angeles, was made Saturday to friends at a bridge luncheon for which Miss Bessie Davis was hostess in Portland. Dr. Hummelt is the son of Mr. and Mrs. B. F. Hummelt, of Sheridan, who formerly made his home in La Grande. He graduated from La Grande High school.

### Y. W. E. A. Opens Season Tomorrow

The program for the opening meeting of the Young Women's Educational auxiliary has been completed by the committee, headed by Mrs. Sherwood Williams and Mrs. Glen Wagner, and will be presented tomorrow evening at 8 o'clock at the Methodist church, "Women in Music" is the theme and those who will assist in presentation are Mrs. F. S. Lyons, Mrs. Tom McGuire, a male quartet composed of R. L. Sken, Floyd Reynolds, Paul Knautz and Harvey Carter, Miss Effie Snider, Sherwood Williams and Mrs. Floyd Sherwood.

### Neighborhood Club To Open Season

The La Grande Neighborhood club will start its 39th year tomorrow afternoon at a meeting at 2 o'clock at the La Grande hotel. The club was organized in 1894 and joined the Federation of Women's clubs in 1896. The meeting will be the annual past presidents and officers day and Mrs. H. G. Avery is chairman of the committee in charge. Mrs. Alfred L. Richardson will arrange the music and Mrs. C. R. Seltz will be in charge of the social hour.

### E. O. N. Students Entertained

The college class of the Church of Christ was host to a group of Eastern Oregon Normal school students Friday evening in the church social rooms. The church orchestra played a group of appropriate numbers at the beginning of the evening. Addresses of welcome were given by Miss Dorothy Smute, Mr. Draper and Rev. Paul De F. Mortimore. The remainder of the evening was spent playing games with refreshments served at a late hour.

### Central P. T. A. Names Committees

Standing committees for the coming year for the Central Parent Teachers association were appointed Friday afternoon at a meeting at the school. Mrs. F. L. Ralston heads the membership committee; Mrs. David I. Stoddard, program; Mrs. H. G. Avery, publications; Mrs. N. W. Freese and Mrs. F. J. Lottes, hospitality; Mrs. F. S. Lyon, publicity; Mrs. H. A. Zurbriek, finance.

### FIRE HAZARD IN LA GRANDE NOT SERIOUS

(Continued From Page One)

very remote, except in the old part of town across the railroad tracks. Over there is constant danger.

"We found conditions in the main business area excellent. The alleys and areaways, where we usually find some of the most severe fire hazards, are in the best condition we have found anywhere with the exception of Walla Walla. Your property owners and business men are to be congratulated.

"La Grande has adequate ordinances covering building construction in the fire limits, electrical installation, storage of volatiles and explosives, disposal of rubbish and inflammable waste materials, and the like.

"You have an excellent fire department in its personnel and upkeep equipment. When the tax situation warrants you should have another truck—a small one—with complete equipment for quick work in emergencies where the large trucks are not needed. The small truck could also be used to reach farm fires.

"In Fire Chief Lindsey you have a very efficient leader for your fire fighting forces. Chief Lindsey is sincere, a hard worker, and he knows his business. The paid members of the fire department are also to be commended. The people of La Grande should give the utmost in co-operation to these men.

"Your schools are in fairly safe condition. The upkeep in all schools is very good indeed and those responsible for such conditions are to be commended. We made several recommendations in all schools for removing hazards and better safeguarding the lives of the children and young people. We are assured all suggestions will be immediately compiled with.

"The most prevalent hazards found in La Grande were: Overfusing of branch lighting circuits which is a very dangerous practice. Nothing stronger than 20 ampere fuses should be used in such circuits. Careless disposal of oily waste, oily dust rags, paint rags, oily mops and the like is another prevalent hazard.

In several places in the business area bar grates should be removed and solid sheet iron covers installed in their place. A match or lighted cigarette carelessly and unintentionally tossed through one of these grates could start a serious fire.

"Through talks to the students in the high and public schools I warned about the smoking and match hazards.

"Home cleaning with gasoline by adult women and young women is one of the greatest dangers of life, as well as property, that we know of. The rubbing of articles, silks especially, when being cleaned with gasoline, benzine or naphtha produces static electricity which if it gives off

a spark, will cause explosion of the vapors and that means injury, fire, and many times death. Doing the cleaning out in the open does not remedy the situation. I want to leave an appeal to all the older and younger women of La Grande to not use gasoline, benzine or naphtha in home cleaning.

"We are unanimous in our opinion that La Grande can keep the favorable fire record thus far established in 1933 if the people will continue to eliminate hazards that cause fires, co-operate with the firemen in their inspection recommendations, and become fire minded the year around. A continuation of the 1933 record will ultimately mean a lowering of insurance rates which will save the people thousands of dollars each year in the cost of fire insurance protection."

### PORTLAND PRODUCE

### TREND LOWER IN STOCK EXCHANGE

NEW YORK, Oct. 2 (AP) — Stocks traveled in the dark today, stumbling over real or imaginary fiscal and economic uncertainties and generally exhibiting a nervous mood. While mild rallies punctuated one of the duller sessions in several weeks, the trend was generally lower and most leaders exhibited a heavy tone at the close. Approximately 950,000 shares changed hands.

### Young Stribling Loses Left Foot In Car Accident

MACON, Ga., Oct. 2 (AP) — Fate, bowing along a Georgia highway Sunday, struck lightning fast to end the boxing career of William Lawrence (Young) Stribling.  
The boxer, riding a motorcycle, waved a greeting to a friend passing in an automobile and failed to observe another car behind. In the collision he lost his left foot and suffered a fractured pelvis. His chances of recovery are "fair."

### HISTORICAL CLUB TO MEET

The Union County Historical society will meet on Oct. 3 at 8 o'clock at the Sacajawea Inn when reports will be heard from several committees. All Union county residents who are interested in the history of the valley are invited to attend.  
Mrs. Harriett MacDonald and Mrs. George H. Currey are planning an extensive program of music.

about Cigarettes

Of all the ways in which tobacco is used the cigarette is the mildest form

YOU know, ever since the Indians found out the pleasure of smoking tobacco, there have been many ways of enjoying it. But of all the ways in which tobacco is used, the cigarette is the mildest form. Another thing—cigarettes are about the most convenient smoke. All you have to do is strike a match. Everything that money can buy and everything that science knows about is used to make Chesterfields. The right home-grown tobaccos—seasoned with just enough aromatic Turkish—are blended and cross-blended the Chesterfield way. Then the cigarettes are made right—firm, well-filled. Chesterfield uses the right kind of pure cigarette paper. There are other good cigarettes, of course, but Chesterfield is the cigarette that's milder, the cigarette that tastes better. Chesterfields satisfy—we ask you to try them.

## Pyroil News

We print below a letter from the C. B. Lumber and Shingle Co. Manufacturers of Upright Red Shingles, Everett, Washington.

Pyroil Sales Co. Seattle, Washington Gentlemen: When we purchased PYROIL from you for use in steam cylinder oil and general use around the plant we thought at least your claim for it was plenty liberal. After using it for several months we are sure you were too conservative as we have reduced consumption of cylinder oil more than 50% and have much better lubrication.

Signed  
C. B. LUMBER & SHINGLE CO.  
O. Bond, Chief Engineer

Pyroil will do all that is claimed for it if you will use it according to directions. In your motor use both, "A" in Gas, "B" in Oil.
