The counsel of the Lord standeth forever, the thoughts of his heart to all generations.—Psalm 33: 11.

PREPARE FOR SOME CHANGE

One of the most perplexing things about living in 1933 is that the world's leading thinkers seem quite unable to make up their minds whether we are approaching a sunset or a dawn.

According to one school, the end of all things is at hand, and a great darkness is about to settle down over the waters.

According to the other school, our present woes are just the birth pangs of a new order of life. We are going through a great change, and paying for it in misery and confusion.

Each crew of prognosticators can assemble a multitude of facts and a whole string of clever arguments to prove its case.

Now all of this, however conflicting it may be, does seem to indicate one thing indisputably; that we have reached one of history's great turning points.

Yet it is also quite possible that the seers are mostly wrong. The disasters they foresee may not be quite as bad as they expect; the improvements may leave us only a little bit better off than we were.

LEGION EYES FOUR-POINT AID PROGRAM (Continued From Page One)

That no war veteran disabled in the line of duty shall suffer any reduction of those benefits granted such veterans as in the World War veterans' act in effect prior to March 20, 1933.

That perpetuation of service for all veterans properly granted such connections under laws in existence prior to March 20, 1933, be recommended.

That benefits provided for dependents of veterans as established in the World War veterans' act be recommended and maintained as the government's policy and that in no event shall widows and dependent children of deceased war veterans be without government protection.

At the same time the committee tabbed resolutions asking an investigation of Gen. Frank T. Hines, administrator of the veterans' affairs at Washington, but despite this action members of the Pennsylvania delegation, who presented one of the anti-Hines resolutions, said that the matter would be carried to the convention's floor. They charged that Hines had mismanaged his office.

But today the veterans were willing to forget temporarily the serious business of adopting a rehabilitation program and turn their attention to pageantry displayed in what they hoped would be the greatest parade in the legion's 15-year history.

nearby continuous guerrilla warfare such as that against former President Machado, who fled before a revolution in August.

Chief of Staff Fulgencio Batista's army, student supporters of the Grau regime, and the radical branch of the A B C were elated over what they called yesterday's victory and rejoiced that the United States had not "interfered."

Many Cubans, however, mourned their dead and blamed the United States bitterly for not acting to prevent the bloodshed.

About 200 shots were fired near the United States embassy, some striking the front of the building.

At the presidential palace it was learned Marquis Sterling, Cuban ambassador at Washington, informed the Cuban government that American administration had not changed its attitude on intervening.

Van Winkle Rules On Tax Compromises

SALEM (AP) — Valid and enforceable taxes cannot be compromised by county courts upon the ground that the taxpayers have no present ability to pay, an opinion by Attorney General I. H. Van Winkle has ruled.

Van Winkle declared that authority to compromise taxes was limited to cases where there is a real question as to the validity of the tax, and the best judgment of the county court on these issues indicates that it would be more to the financial interest of the counties that the compromise be accepted rather than subject the matter to delays and harassment of litigation.

The opinion was requested by J. M. Blank, district attorney of Grant county.

Hal Trosky, now playing with the Cleveland Indians, broke all previous home run records of Toledo players this season.

SAVAGES WIN FROM JOSEPH

ENTERPRISE (Special) — The Enterprise High School Savages won over the Joseph High School Eagles last Friday afternoon by a score of 14 to 7 but the victory cost them dear as Don Lansing, star letterman of the squad, suffered a broken shoulder and will be out of the game the rest of the season. READING CLUB HOLDS MEETING HERE MONDAY

Among the study clubs which have resumed their activities for the winter is the Swedenborg Reading class now in its third year. The class reads and discusses the work of Emanuel Swedenborg, the eminent scientist, philosopher and theologian.

This writer, formerly little known, is rapidly becoming an outstanding figure in the world of religious thought. His religious philosophy has thrown light on many dark problems. Taking the Bible for his guide, he reconciles seeming contradictions and trivialities, showing it to have a consistent internal sense which is the veritable word of God, members of the class point.

When such famous personages as Bishop Phillips Brooks, of the Episcopal church; Bishop Foster of the

Methodist, Gail Curel, Helen Keller, Edwin Markham, America's poet laureate, and many others have attested to the value of his works we may well believe it is at least worthy of consideration, they add. A period of Bible study follows.

The class is informal and every one interested is invited to attend. It met Monday afternoon at 3 o'clock at the home of Mrs. J. W. Kernada, 141 Washington avenue.
