

BUY NOW!

and aid recovery

The NRA and the signing of its agreements by merchants and manufacturers the country over has put many men and women back to work. There are still however, many unemployed in this town and every town. Your merchants and employers of your community are doing their part. It's time for you—the consumer to do yours.

Don't put off until tomorrow what you can buy today. You benefit no more by waiting for prices to go lower. They are going no lower—they're going higher and higher. You who can afford to buy today, should buy now!

Your purchases today will keep the factory wheels turning and more and more hands at work—all of which will reflect back to benefit you. Buy today as much as you can. It's a duty to your country and your neighbor — and you'll save and profit mightily in doing it.

"HAPPY DAYS ARE HERE AGAIN"

Come One and All!
and join the giant
